TRAVELS TO COURT 180 MILES

Venireman in McNamara Case Arrives in Time After Long Journey

19 Prospective Jurors Secured After Night of Hustling by Sheriff

LOS ANGELES, Oct. 27.—Nineteen new veniremen were secured out of the second venire summoned in the McNamara murder trial. Eleven others were excused at a preliminary hearing today before Judge Walter Bondwell and ten were not served with summons because they were out of the county. Sheriff William Hammel and his deputies worked all night summoning men whose names were drawn from the red jury wheel yesterday noon.

TRAVELS 180 MILES. Frank Frakes, a rancher, came 180 miles to respond to the summons of the court. He lives at Elizabeth Lake, and Sheriff William Hammel and a deputy left in an automobile yesterday noon to serve the summons. They encountered rain and snow at different altitudes, but succeeded in reaching Frakes' home and getting back here at 4 a. m. Frakes took a good horse and rode to Lancaster, Cal., where he caught a train about 5 a. m. that brought him into town shortly after 8. The incident is thought to form a record for distance in serving summons.

Elizabeth Lake is only about 100 miles from Los Angeles in a straight line, but a detour of the mountains practically doubles this distance. Senator Gore of Oklahoma, who is on a tour of the coast, visited court today to see Attorney Clarence S. Darrow, chief of counsel for the defense, who is an old-time acquaintance.

Talesman Alva Starbuck was excused because his name does not appear on the assessment role. J. M. Rush, a farmer, said at the start of his examination that he believed the defendant guilty and would require evidence to prove him innocent, but after being questioned by Darrow he said he could give a fair trial, and Darrow accepted him.

EARLY TO BED. Under examination by the State he said he never studied Socialism, but that copies of the Appeal to Reason, a Socialist paper, had been given him. He received his summons for jury service, he said, "about bedtime" last night.

"So when the man came around about 9 o'clock that was the first you heard of it?" asked Attorney G. Ray Horton.

"It was not nearly so late as that," corrected Rush, "he came about 8." Attorney Horton disclosed that the talesman was opposed to the infliction of the death penalty, but not under all circumstances. Veniremen summoned in the new panel of forty to try the case of James B. McNamara, indicted for (Continued on Page 2, Cols. 3-4)

TRIBUNE SAYS 'EXCUSE ME FOR BEING LATE YESTERDAY'

THE TRIBUNE offers an apology to its subscribers because of late delivery yesterday afternoon. Just as the 3 o'clock edition was going to press an accident resulted in the loss of electric power, and for almost an hour the big presses stood still and carriers chafed under the enforced delay. Finally, when the electric current was restored the presses were started at the maximum speed and every effort exerted to make up lost time. Delivery was necessarily late in some districts, and THE TRIBUNE regrets the inconvenience experienced by its subscribers who failed to get their papers on time.

MADDENED JAPANESE SLAYS

Moving Picture Manager Fatally Wounded and Another Shot Dead

Nipponese Gardener Runs Amuck in Los Angeles Kinetoscope Studio

LOS ANGELES, Oct. 27.—M. Selig of Chicago, head of the Selig Motion Picture Company, was probably fatally wounded; Francis Boggs, manager of the Pacific coast department of the picture concern was killed, and a Japanese gardener is in jail charged with the crime which, it is alleged, was committed without provocation when the Japanese suddenly ran amuck.

The tragedy occurred at the studio of the Selig Company at Edendale, a suburb of Los Angeles. Selig, who had arrived here on business from Chicago only yesterday, had gone to Edendale early today to meet Boggs.

The two men were holding a conference in the office, when, according to the police, the Japanese, who gave his name as Frank Minimatsu, and who had been employed at the studio as a gardener for two years, suddenly entered.

JAPANESE OPENS FIRE. He was armed with a revolver with which, without warning, he immediately opened fire upon the two men. He fired five shots, two taking effect in Boggs' body and two in Selig's, while the fifth went wild.

Boggs was hurled to the receiving hospital, but was pronounced dead when he arrived there. Selig, suffering from a bullet wound in the head and another in the arm, was taken to his hotel. Officers Hagenbaugh, a mounted patrolman, was passing the studio at the time of the shooting. He ran to the scene and with the aid of W. Fantschl, leading man of the motion picture company, and several other actors succeeded in overcoming the Japanese who, though small, was said to have made great resistance.

MURDERER MOODY. Minimatsu was taken to jail, where he maintained a moody silence, refusing to say a word in explanation of his sudden change from a polite servant to an alleged murderer.

The actors who assisted Officer Hagenbaugh in taking Minimatsu to jail, showed the effects of their struggle with the Japanese. They could offer no explanation for his alleged act. The police said they believed the Japanese was crazy.

Selig was taken to a hospital this afternoon, but surgeons attending him and his business associates denied that he was seriously injured.

Thousands Witness Death of Aviator

French Birdman Plunges to Earth When Aeroplane Somersaults in Air.

RHEIMS, France, Oct. 27.—Aviator Despermet was instantly killed here today by falling with his machine while engaged in army aerial tests. The machine, somersaulting from a height of several hundred feet, turned over a number of times before landing. Despermet's body was picked up sixty feet from the machine. Thousands of horrified spectators witnessed the tragedy.

PRESIDENT OF CHINA NAMED

General Li-Yuen-Heng Tells Foreign Powers He Is Head of "Republic"

Chinese Consul in San Francisco Threatened With Death Unless He Leaves

PEKING, Oct. 27.—General Li Yuen Heng, leader of the rebel forces, has informed the foreign legations in Hankow that he has been proclaimed "president of the Republic of China."

The foreign ministers here have exchanged communications with Li on several subjects. They objected to his announcement that vessels carrying contraband would be subject to confiscation, and also to his proposal to administer the custom revenues at the port of the Yangtze Kiang and other cities when controlled by the revolutionists. The latter objection was based on the fact that revenues are pledged as security for foreign loans and should be turned over to the British inspector-general of customs in China.

Sheng Hsun Hual, who was removed from the office of minister of posts and communications as a concession to the national assembly yesterday, had a narrow escape from assassination here today. He fled to the American legation, whence he was later escorted by a squad of ten soldiers to Tien Tsin.

Reports that the minister of war, General Yin Tichang, is dead continue in circulation, and are believed by many Chinese.

It was authoritatively announced here this evening that at the instigation of

J. PIERPONT MORGAN, one of the financial kings who must answer as member of the trust.

Yuan Shi Kai negotiations between the imperialist forces and the revolutionaries in the Yangtze Kiang region are about to open.

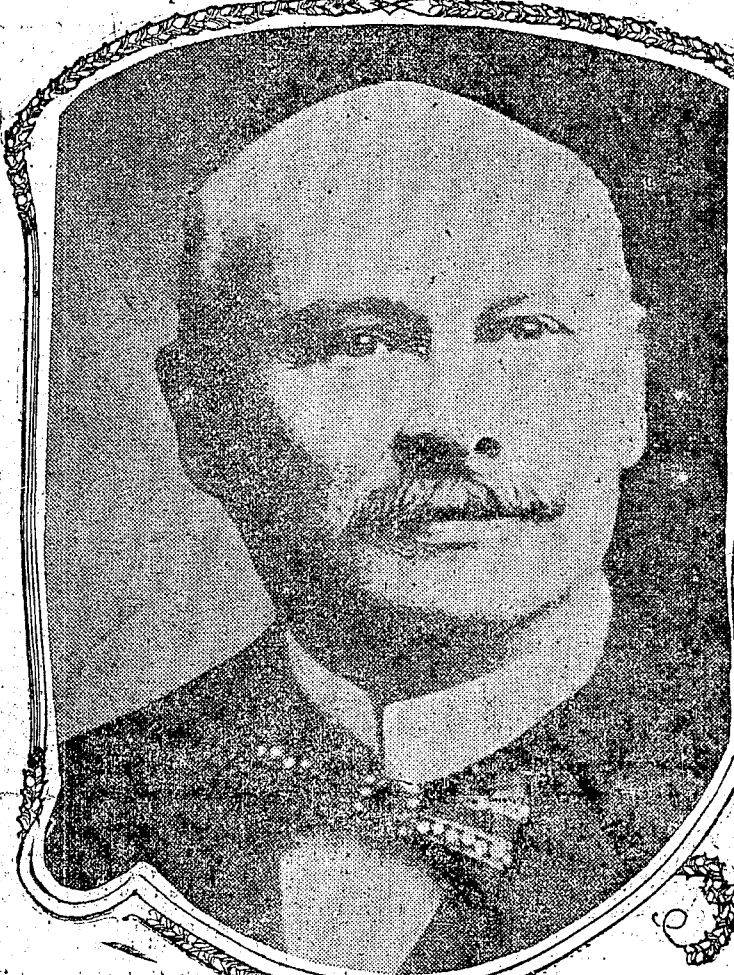

It was also officially stated that Quang Shi Kai will proceed to Sin Yang Chow tomorrow to take up the supreme command of the imperial army and navy at the front.

ENDS LIFE ON UNDERTAKER'S STEPS

Woman Shoots Herself and Dies Soon Afterward.

FRUITVALE, Oct. 27.—Mrs. Fred Faas, the wife of a barber living at 2009 Fruitvale avenue, committed suicide at 6 o'clock this morning on the steps of the Grant D. Miller undertaking establishment on East Fourteenth street, near Twenty-third avenue, by shooting herself in the chest with a revolver.

The shot was heard by Dr. A. H. Dodge, who was in bed at his home, 1182 East Fourteenth street, immediately adjoining the undertaking parlors. Dr. Dodge jumped up and pulling on a few clothes ran out into the street in the direction of the shot. He found the woman breathing her last on the steps of the side entrance of the Miller establishment. The woman died within a few minutes on the spot where she had fallen. Dr. Dodge notified the attendants of the undertaking parlors and with their aid carried the lifeless form into the death chamber.

Several hours later the remains were identified by the husband of the suicide, Fred Faas, who showed the authorities a note written by the woman last night, reading: "I am going to do away with myself."

Despondency over her husband's inability to find work, owing to his having met with an accident several months ago, which prevented him from following his trade, is believed to have urged the woman to the deed. Mrs. Faas was carefully dressed in black for the occasion. She was 45 years of age.

During the night the frantic husband made a vain search for his wife, but failed to learn of her whereabouts until notified of her death by the police.

President to Join Bricklayers' Union

Union Card and Certificate Will Be Presented to Him in Chicago.

CHICAGO, Oct. 27.—President Taft is to become a member of the bricklayers' union. On Monday before the President is handed a silver trowel with which he is to lay the cornerstone of the new Hamilton Club, he will be made a member "in good standing" of the bricklayers' union of Chicago. His union card and certificate will probably be presented to him tomorrow.

Three Judges Scheduled to Sit in Case; Wickersham Makes Plea for Four

'Trust Within Trust,' Is Brand Placed on Alleged Illegal Combine by Federal Officials

WHAT HAS BEEN DONE

Federal government files suit at Trenton, N. J., to dissolve United States Steel Corporation and thirty-six subsidiary companies.

J. P. Morgan, Andrew Carnegie, John D. Rockefeller, E. H. Gary, Charles M. Schwab and others prominent in banking and industrial circles named as defendants.

Direct connection charged by the government between the steel corporation and all the large railroad and steamship lines, Standard Oil Company, the Pullman Company, International Harvester Company and the Western Union Telegraph Company.

Interlocking directorates said to have given the steel corporation control over trade and commerce.

The steel corporation's proposed cancellation of leases on Great Northern ore properties declared illegal and non-effective until January 1, 1915.

The steel corporation's acquisition of Tennessee Coal and Iron property declared illegal and a national menace.

E. H. Gary and H. C. Frick alleged to have misled President Roosevelt when he permitted the absorption of the Tennessee Coal and Iron properties in 1905.

"Gary dinners" declared to have been all powerful in suppressing competition and the obligation laid upon participants characterized as "even dearer than life itself."

WASHINGTON, Oct. 27.—Now that the government's fight to dissolve the United States steel corporation has been fairly started there will be no slow movements in the battle. When the bill was filed in the United States court at Trenton yesterday for the dissolution of the corporation and its subsidiaries, Attorney General Wickersham, also filed "a certificate of public importance." This states that the case is of the utmost importance to the government and asks that it be heard by a bench of four justices. Ordinarily it would be heard only by one.

Although the steel corporation will have four months to make its own case, the government's allegation that it is a dozen trusts within a trust, a "menace to the nation" and "practically the most complete monopoly ever perfected in this country," there are possibilities of other developments in the meantime.

DELAY POSSIBLE. Attorneys for the corporation may demur to the government's charges. In that event there might be some delay. After that possibility is disposed of, the circuit court probably will appoint a master to hear testimony and a battle of giants will begin.

Attorney General Wickersham and other department of justice officials expect to make progress much more rapidly than was done in either the Standard Oil or tobacco cases. It was a little less than five years from the time those cases were started until they reached the supreme court of the United States for decision. The supreme court's decision in those cases, however, is expected to expedite the trial of the steel case.

WILL APPLY DECISION. The government's view is that court's decision in the oil case as regards stockholdings and interholdings can be applied to the steel corporation.

The government's purpose is to show that the steel corporation is only a giant trust to hold at least a dozen others. The bill charges that the federal steel company, the Car-

negia company of New Jersey, the American Steel and Wire company of New Jersey, the National Tube company, the National Steel company, American Tin Plate company, American Sheet Steel company and others are illegal trusts in themselves and combinations to monopolize trade. The government asks that all these companies be dissolved and set back into the integral units of which they were formed, even before the organization of the United States Steel Corporation. In this respect the petition is complete.

WILL ACCEPT SUMMONS. The difficulties which have heretofore beset process servers seeking John D. Rockefeller and other millionaires, named as defendants in the dissolution suit filed yesterday against the United States Steel Corporation, were not expected to develop today in the service of subpoenas issued in the suit. The opinion prevailed at the United States marshal's office here that the corporation's lawyers probably would accept service in New York of the entire batch of subpoenas.

The drafting of subpoenas was the first task of Henry Oliphant, clerk of the United States circuit court, on opening his office today. Deputy marshals took the documents as fast as they were prepared. They require the defendants to appear in person or by counsel at Trenton on December 4 in answer to the petition.

VRELAND UNFAMILIAR. Actual presentation and prosecution of the suit probably will be the work of Attorney General Wickersham and his assistants. District Attorney Vreland, whose signature is appended to the petition, is unfamiliar with the details of the suit. His signature was affixed to observe the legal formalities, but his connection with the suit it is believed will be purely nominal.

\$1,000,000 on Steamer Arriving From North

SEATTLE, Oct. 27.—The steamer Northwestern arrived today from Nome with \$1,000,000 of gold bullion and more than 500 passengers. The steamer Victoria is on the way from Nome with gold and passengers. The number of persons remaining in the northern camp is said to be less than 1500, as against 2600 who remained last season. The weather at Nome and on the lower Yukon continues fine and mining work is still in progress.

leaders of the association to prevent similar insults in the future. It is said that the young revolutionary responsible for the notice acted without permission of his superiors. Consul-General Li Lung Yow, according to Tong, has been placed in a trying position during the trouble, but he is a Cantonese and has only official relations with the Manchus, and as such is believed to be in sympathy with the local colony. The notice threatened death unless the consul left the city.

### Russia Thinks War Is a Small Affair

WASHINGTON, Oct. 27.—Although the reports from China indicate that the purpose of the revolutionary movement there is to establish reform government, advised by the State Department from Ambassador Guild at St. Petersburg say the rebellion is regarded in Russia as merely a local affair that will be confined to a few provinces.

In view of the close relations between Russia and China, there is an inclination to believe that this is true. Ambassador Guild refers to a statement recently made by Prof. Otto Francke of Hamburg, whom he declines to be a recognized authority on Oriental matters. Professor Francke gave it as his opinion that the present struggle is an outcrop of racial antipathy of the Mongolians and does not in any way bear an appearance of a movement for reform.

It is said the Russian government is so well satisfied with the situation that no warships will be sent to Chinese waters, in addition to the single gunboat now there.

### SENATOR GORE IS GUEST AT THE M'NAMARA TRIAL

Blind Lawmaker Calls on Attorney Darrow and Is Cordially Received by the Court and Other Lawyers Present

(Continued from Page 1.)

murder as a result of the Times building explosion, came to Judge Walter Bordwell an hour before the opening of court today to present excuses for relief from possible jury duty.

Out of the first panel of 125 only two score were not excused, and the days of the trial since it began October 11 have been consumed in examining these talesmen. With the exhaustion yesterday of the panel, additional veniremen were obtained for the succeeding days of jury examination, and it is expected that before the final dozen is selected to try the case the process will have been repeated several times.

In the box at present are A. C. Winter, under challenge by the defense for cause, the disposal of whose case was expected to be the first action of the court, and the four talesmen who have been passed by both sides for cause, George McKee, Robert F. Bain, F. D. Green and Seaborn H. Manning.

The principles upon which each side has been interpreting section 1076 of the penal code, covering provisions on the qualifications of jurors, are at present fairly well defined and it is believed that future examinations therefore will go forward much more smoothly and rapidly.

The questions which each side considers vital have resolved themselves into the following:

Whether or not a talesman believes in capital punishment.

Whether or not he has an opinion on the guilt or innocence of the defendant which he could not remove.

Whether he has a fixed opinion as to the cause of the explosion which he could not remove.

Whether or not he has made personal investigation of the wreckage

of the Times building and taken a special interest in the case.

"If any of you gentlemen have any reason why you should not serve on a jury you may present them," said Judge Bordwell, who called the roll and all but twelve of the veniremen crowded forward. A little flurry of excitement swept through the court when United States Senator Gore of Oklahoma entered the room and was seated in one of the chairs reserved for visiting attorneys. Senator Gore is in Los Angeles on a lecture tour. He asked immediately for Attorney Darrow, who, he said, is an old acquaintance.

"I came up partly to talk to Mr. Darrow and partly to see the trial," he said, and left soon after a little conference with the chief counsel for the defense.

The court went rapidly through the list of veniremen, excusing but few. "Are you hard of hearing?" he asked John Colvin.

"I can hear you all right," said Colvin, who thought naturalization was under discussion. He was excused.

William J. Lynn was excused because he was 62 years of age, the oldest talesman summoned thus far.

ELEVEN EXCUSED.

Eleven talesmen in all were excused. As the proceedings did not form a part of the trial proper, James B. McNamara, the defendant, was not required to be present. He was over from the jail a few minutes before the regular session of court convened and took his accustomed seat against the wall.

In the brief interim between preliminary examination of veniremen and the regular court session a little informal reception entered the room with Senator Gore as guest of honor and Attorney Darrow as master of ceremonies. Judge Bordwell and all counsel for each side were presented to the senator.

After the absentees and those excused had been checked, nineteen veniremen remained subject to examination. When the regular session of court convened at 10:20 o'clock, seven of the new veniremen were called to fill the jury-box, five talesmen remaining there from previous days of the trial.

Judge Bordwell announced he was not yet prepared to rule on the challenge of the defense against A. C. Winter.

Talesman J. M. Rush was the first interrogated by Attorney Clarence S. Darrow. He was asked if he believed in capital punishment.

Rush said he thought labor unions ought to be able to conduct themselves "without destroying property and things like that."

"So that's your idea of labor unions?"

"Yes, from what I have read."

From what he read Rush asserted he formed an opinion that the Times building was blown up by some explosive, but he did not know what it was.

READ CONFESSION.

"Did you read McNamara's confession?" asked Darrow. "Yes."

"What did you think about it?"

"Well, I think that if he was telling the truth the men were pretty bad men."

"Did you form an opinion as to the guilt of the defendant as a result of that statement?"

"Well, if I took that statement I would believe the defendant guilty."

"Then you did form an opinion when you read it that the defendant was guilty?"

"Yes, from what I read."

Rush declared it would take evidence to change his opinion, but that he thought he could be fair and impartial juror as a result of Attorney Darrow finally passing him, and G. Ray Horton began the examination for the State. It was the first time the process of examination by the defense of the individual veniremen was attempted. Heretofore, the State had taken its turn only after the defense had gone through the box of talesmen. Counsel for the defense argued that this latter method allowed the State more time to investigate talesmen, and the newly adopted procedure is aimed to require both sides to present challenges, if they have any, at the same time.

Rush's views on capital punishment were under examination by the State when court recessed at noon.

When court reconvened at 2:05 o'clock in the McNamara trial, Attorney Darrow further explained his opposition to capital punishment and G. Ray Horton of the state interposed a challenge for cause and implied bias. Judge Bordwell allowed the challenge against Rush.

INDIANAPOLIS, Oct. 27.—That Ortie E. McNamara would be subpoenaed to appear before the federal grand jury in this district early in November to testify in its investigation of the so-called McNamara dynamite case, was reported today.

McNamara, who is now in jail, could be brought to this city from Los Angeles, examined and returned to California before he should be needed as a witness in the trial of James B. McNamara. It was said that McNamara's statement would be essential in an investigation of the charge that John J. McNamara and his brother engaged in a conspiracy to transport dynamite in violation of the federal statute.

LOS ANGELES, Oct. 27.—"Ortie McNamara is a better man than the one in Indianapolis," said Malcolm McLaren, the Burns detective agency representative, who is looking after McNamara here. "I don't think there's a chance that he'll go back." His deposition may be taken, however.

QUESTION VALIDITY  
OF THE COMMISSION

SACRAMENTO, Oct. 27.—The question has been raised as to the present validity of the commission appointed in 1909 to choose a site for the State Trades and Training school, to cost \$125,000. The members were Captain L. B. Hawk, former Assemblyman, with Governor Gillett and State Secretary Curry. The two latter have been succeeded by Governor Johnson and Frank Jordan, and a question is raised as to whether Hawk holds over. A tentative site has been decided upon in Sonoma county, pending decision.

CASE IS REFERRED.

William A. Sage, accused of having passed a fictitious check here, was given a hearing before Judge B. J. Hawk this morning and his case was referred to the probation office, which will return a report on November 14.

### A Trial Will Convince Anyone; The Great Kidney Remedy Never Disappoints

A few years ago I was troubled with a complication of kidney and stomach ailments, and although I tried two or three different doctors, I was unable to obtain a cure. Having heard a great deal about Swamp-Root, I decided to give it a trial and purchased a one-dollar bottle of Mr. Alexander, the druggist. From the beginning I could notice a change for the better and after taking eight bottles of your medicine, I felt entirely cured and have not had any trouble since.

Had I begun using Swamp-Root sooner I would have been a few hundred dollars to the good and saved myself a lot of suffering.

You may use my testimonial any time you wish. Yours very truly,

CHARLES E. HARRIS,  
460 Sixth St., Marion, Iowa.

I certify that Charles E. Harris signed the above testimonial in my presence, being first duly sworn to the truth thereof, this 12th day of July, 1909.

### STATE OFFICIALS ARE CONDEMNED

Controller Nye and Bank Commissioner Williams Are "Roasted."

STOCKTON, Oct. 27.—Condemnation of State Controller A. B. Nye and State Bank Commissioner Williams for their attitude respecting the bonds of irrigation districts were freely expressed at the quarterly conference of the Irrigation Districts' Association held at Modesto this afternoon.

At the meeting the owners of 1,000,000 acres of land in the irrigation districts of the San Joaquin valley were represented and each denunciation of the conduct of the state officials was enthusiastically cheered, despite the fact that the officials were in attendance.

WURSTER MAKES CHARGES.

F. W. Wurster of Stockton, speaking for the South San Joaquin Irrigation district on the subject "Blockade on Irrigation Bonds by Our State Servants," asserted that Controller Nye, in declaring the bonds of irrigation districts as insufficient security for banks, had assumed greater power than the power which created the irrigation law. Referring to Nye and Williams, he declared "those great guns stand ready to put the shot into the struggling irrigation districts and to listen to the voice of some power who seems to be behind the scenes, without giving the irrigation districts any hearing, assume to take the negative rather than the affirmative; failing to carry out the law as passed by the legislature."

He said that the state officials had made no investigation of the claims of the irrigation districts, nor had they offered the districts any opportunity to present the claims and further stated that their action had discredited the irrigation bonds at home made them outcasts abroad, and had caused a loss of hundreds of thousands of dollars in the shrinkage of their value.

In an address on California's duty to the farmer, J. C. Craig, president of the Stockton Real Estate Agents' Association, in referring to the discrimination against irrigation bonds, said:

"If any man connected with the present administration deems himself justified in questioning the validity of any act passed by our legislature it is his duty to plainly state his reasons for so doing and then assist those in authority to speedily remedy such defect."

Legal points and their bearing on the bonds of irrigation districts were taken up by Attorneys L. L. Denet and Griffin of Modesto. State Bank Commissioner Williams will have an opportunity before the close of the conference to explain his position in an address on "Irrigation District Bonds." It is probable that Controller Nye will address the conference before its close.

50,000 SALMON FRY  
IN SACRAMENTO RIVER

SACRAMENTO, Oct. 27.—Fifty thousand salmon fry, a week old, which were to have been turned into the Sacramento river at this city several days ago as an experiment, has proved to be a failure. The 50,000 young salmon died. They died because the water into which the eggs were placed contained too much iron. The eggs hatched, but the little fish lived only a few days.

It has been announced that 50,000 more eggs will be shipped to the State Fish and Game experimental hatchery here from Sisson and another try made of it with water from a well that contains no iron. If the experiment proves to be a success 10,000,000 young salmon will be hatched and turned into the river this season.

The idea is that if the fish are hatched this close to the bay, the fish will reach salt water in good condition and survive, being spared the 200-mile trip from the hatcheries at Sisson or at Battle Creek in Shasta county.

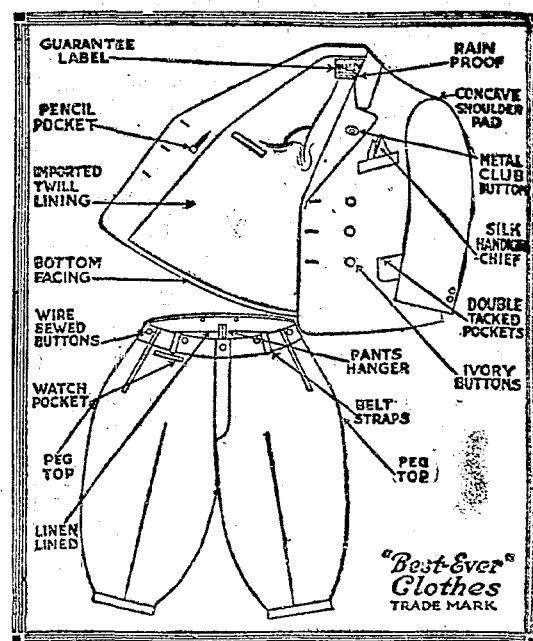

PLANNING AVIATION  
SCHOOL FOR OAKLAND

According to Jack Prince, manager of the Elmhurst motordrome, Oakland is to have an aviation school. Prince is negotiating with Robert Maitland of the Oakland Aero club and Whipple Hall, manager of the Curtiss Biplane company, to provide the new motordrome as a site for the school.

Maitland said that he had been looking about for a location in the interests of an eastern company, and that the motordrome site was under consideration.

Prince sees possibilities of the awakening of a large practical interest in aviation by the establishment of such an institution in conjunction with one in Los Angeles. He estimates that not less than twenty flying machines could be utilized, and that many pupils would be enlisted.

While the officials are still in the closest of the promoters look forward to a successful conclusion of their negotiations.

### Tailor Ordered to Sell Shop and Pay Alimony

SAN FRANCISCO, Oct. 27.—The infatuation of William C. Hughes for Mrs. Elizabeth Jannison of New York is likely to prove costly as the result of an order issued in the Superior Court today compelling him to sell his tailor shop and his automobile to provide money for the payment of alimony to his wife, Mrs. Agnes L. Hughes. Mrs. Jannison came here from New York in search of her husband, whom she claims had taken their only daughter from her and later recovered the child in Oakland under dramatic circumstances, only to lose her again by court order. Hughes, who lives at 415 O'Farrell street, met Mrs. Jannison and the two became constant companions. Mrs. Hughes brought an action for maintenance and was awarded \$75 a month alimony. Her spouse's failure to pay this led the court to order his business sold and his automobile disposed of and the money deposited as a guarantee of good faith in the payment of the alimony.

### QUESTION VALIDITY OF THE COMMISSION

SACRAMENTO, Oct. 27.—The question has been raised as to the present validity of the commission appointed in 1909 to choose a site for the State Trades and Training school, to cost \$125,000. The members were Captain L. B. Hawk, former Assemblyman, with Governor Gillett and State Secretary Curry. The two latter have been succeeded by Governor Johnson and Frank Jordan, and a question is raised as to whether Hawk holds over. A tentative site has been decided upon in Sonoma county, pending decision.

CASE IS REFERRED.

William A. Sage, accused of having passed a fictitious check here, was given a hearing before Judge B. J. Hawk this morning and his case was referred to the probation office, which will return a report on November 14.

**The S. B. Axtell Murder Trial  
Is Delayed Until Special  
Panel Is Secured.**

STOCKTON, Oct. 27.—The trial of S. B. Axtell, charged with the murder of Charles Solars at Lodi, has been continued until Monday morning. The original venire was exhausted yesterday and today Sheriff W. H. Rocks and his deputies are summoning a special panel of 100 men to appear Monday morning at 10 o'clock.

At first it was believed that the work of obtaining a jury to try the Lodi editor could be completed this week, but so much trouble was experienced in finding men with proper qualifications that it was deemed best to call for a special panel. But three jurors were obtained from the original panel, R. A. D. Petersinger, J. A. Stewart and E. C. Foreman. Three more men who have been accepted as to probable cause by both sides still remain in the box. They are: J. W. Edwards, second-hand dealer; A. J. Turner, contractor, and Charles W. Ames, tallyman. Neither side will exercise any more peremptory challenges until the jury box is filled with men accepted, as to probable cause.

The theory of the defense, based on the insanity plea, is pretty well stated in the hypothetical question put to prospective jurors by Attorney George F. McNoble:

"I presume that you appreciate, do you not, that as the muscles, cells and fibers of any limb or organ of the body may give way under disease, worry and pressure, so likewise the brain itself may cease to have its full restraining power? You understand, do you not, that the brain being an organ of the body made up of tissues, cells and fibers, may become diseased or damaged by unusual, extraordinary and persistent work and attack that the continuance and reasoning force present in its usual and natural function may become absent or silenced?"

## Nursing Mothers and Over-burdened Women

In all stations of life, whose vigor and vitality may have been undermined and broken-down by over-work, exacting social duties, the too frequent bearing of children, or other causes, will find in Dr. Pierce's Favorite Prescription the most potent, invigorating restorative strength-giver ever devised for their special benefit. Nursing mothers will find it especially valuable in sustaining their strength and promoting an abundant nourishment for the child. Expectant mothers too will find it a priceless boon to prepare the system for baby's coming and rendering the ordeal comparatively painless. It can do no harm in any state, or condition of the female system.

*Delicate, nervous, weak women, who suffer from frequent headache, backache, dragging-down distress or from palpitating irregularities, gnawing or distressed sensation in stomach, dizzy or faint spells, see imaginary specks or spots floating before eyes, have disagreeable, catarrhal drain, prolapsus, anteversion or retroversion or other displacements of womanly organs from weakness of parts will, whether they experience many or only a few of the above symptoms, find relief and a permanent cure by using faithfully and fairly persistently Dr. Pierce's Favorite Prescription.*

This world-famed specific for woman's weaknesses and peculiar ailments is a pure glyceric extract of the choicest native medicinal roots without a drop of alcohol in its make-up. All its ingredients printed in plain English on its bottle-wrapper and attested under oath. Dr. Pierce thus invites the fullest investigation of his formula knowing that it will be found to contain only the best agents known to the most advanced medical science of all the different schools of practice for the cure of woman's peculiar weaknesses and ailments.

If you want to know more about the composition and professional endorsement of the "Favorite Prescription," send postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for his free booklet treating of same or, better still, send 31 one-cent stamps for cloth-bound copy of Dr. Pierce's Common Sense Medical Adviser, new, revised up-to-date Edition, 1008 pages.

You can't afford to accept as a substitute for this remedy of known composition a secret nostrum of unknown composition. Don't do it. It is not only foolish but often dangerous to do so.

## FORREST WOULD COMPEL TEACHERS TO LIVE HERE

**Director Annie Brown Declares Proposition to Employ Only Resident Instructors Is Unjust and Narrowminded**

"Why should we not follow in the footsteps of the San Francisco school department and employ teachers in our local schools who live in Oakland?" asked John Forrest, commissioner of finance and revenue, at the regular meeting of the board of education held last evening in the directors' room in the city hall annex.

After his question was proposed it was discussed at length by the members of the board. Arguments for and against the proposed edict were presented by the directors, who were unanimous in declaring that the conditions here were vastly different from those in San Francisco.

"Teachers living in Piedmont should not be employed in the local department," said Director Forrest. "There is a certain percentage of teachers in the schools here who are living in San Francisco and spending their money there. I believe in patronizing home industry. Teachers should spend their money here and endeavor to build up the city up which they are earning their living. There is also liable to be considerable tardiness of the instructors when they have to cross the bay."

**MONEY OR MEN?**  
"If the teacher's become tardy," said J. W. McClymonds, superintendent of schools, "discharge them. As far as the question of patronizing home industry, and making money for the city is concerned, I don't want to ask the city to run schools to make money for the city or are you conducting schools to make men and women?"

## SASH FACTORY DECLINES TO MOVE

**Declines to Vacate Premises at  
Foot of 14th Street at  
City's Order.**

Refusal of the California Door Company to comply with the order of the city council to vacate the premises constituting an extension of Fourteenth street, west of Wood street to the Southern Pacific railroad, was set forth in a communication read before the council from Lindley & Blackhoff, attorneys for the door company. This communication was referred to City Attorney Ben F. Woolner, as several legal points are raised by the door company to uphold its stand in defying the city's order.

Some weeks ago at the instance of business men and the members of the West Oakland Improvement club, the council requested the California Door Company to remove the obstruction which now closes Fourteenth street and prevents its being extended to the western waterfront. This request was made on the basis of an agreement entered into between the city of Oakland and the company in 1894, settling the controversy existing at that time with the company agreeing that it would vacate the premises upon receiving proper notification from the city.

The company failed to act upon the request, and upon further petition from the property holders, the council issued a direct order that the property should be vacated within 40 days. Nothing has been done by the company with this order, although the period stated is nearing a close, and this morning a communication was received stating that the company would stand upon its old rights in the controversy, as set forth prior to entering upon the agreement. The letter, which follows, was referred to City Attorney Ben F. Woolner.

**TEXT OF LETTER.**  
To the City Council of the City of Oakland—Gentlemen:—The California Door Company consulted several weeks ago concerning what would constitute an extension of West Fourteenth street, if that street were extended westward from Wood street to the railroad right of way, and has directed us to communicate with you in the matter.

In order to act advisedly, we have made an exhaustive and careful examination of the records of the county of Alameda and of the city of Oakland and this, because of the volume and complexity of the material presented has necessarily consumed much time; otherwise we would have addressed you sooner.

The agreement dated November 27, 1894, entered into between the California Door Company and the City of Oakland concerning the space in controversy provides that the door company assumes the performance of certain obligations conditioned upon the terms, provisions, conditions and circumstances specified in the agreement. After a full consideration of the records and of the agreement above specified we have reached the conclusion that the city of Oakland has no rights in the premises except those arising out of the agreement of November 27, 1894, and that the city has no right at this time to claim performance by the California Door Company of the obligations on its part contained in this agreement because the terms, provisions, conditions and circumstances upon which performance is conditioned have not been fulfilled.

We wish to say, however, that the California Door Company, though secure in its position, is standing on its legal and equitable rights in the premises chiefly in order to save itself from the unnecessary and great loss and damage which a summary clearance of the claimed street space would involve. It does not mean to be obstructive or obstructive and, therefore, is willing to arrange for giving a proper grant to enable the city of Oakland in due time to open and extend Fourteenth street in compliance with its agreement, by placing in escrow with some satisfactory depository a conveyance to be delivered, placed of record and become effective after the lapse of such a period of time (to be fixed by agreement) as may be required by the door company for the removal of its improvements without undue detriment. We think such an arrangement would be fair for the best interests of all concerned and avoid much trouble and expense.

If agreeable to you we will be pleased to confer with your representatives over details.  
Very respectfully yours,  
LINDLEY & BLACKHOFF.

## ALASKAN PROGRAM TO BE ANNOUNCED

**Commercial World Awaits the  
Speech of Fisher at  
Chicago.**

CHICAGO, Oct. 27.—The attention of the commercial world was directed to the American Mining Congress here today on account of the scheduled announcement by Secretary of the Interior Walter L. Fisher of the government's program concerning the coal fields of Alaska.

Secretary Fisher's address as the feature of the congress was to exceed in importance even President Taft's address tomorrow on the relations between the federal government and the mining industry.

Today was Alaska day at the congress, the future of the coal fields there being the subject of most of the scheduled speeches and papers, though a liberal share of the time was given to the subject of public lands generally in the West.

Besides the address of Secretary Fisher, other important addresses on the list were, by Dr. A. H. Brooks, chief of the Alaska division of the United States geological survey; Dr. George Otis Smith, director of the geological survey, and John Hays Hammond.

## Genuine Bargains at Our Used Piano Sale

No matter what make of piano you desire, no matter what price you want to pay, you will find here, this week, that piano at a money-saving figure.

This is bargain week, a week devoted to the sale of pianos taken in exchange in part payment for Mason & Hamlin Pianos and the favorite Angelus Player Pianos. If you wish a CHICKERING, KNABE, A. B. CHASE, STEINWAY, WEBER, FISCHER, or any other standard make, it is on sale this week at a price to fit your purse and terms to fit your convenience. Among the lot are many beautiful Grand pianos, STEINWAY, WEBER, CHICKERING, etc., which have been hardly used at all. They have been taken from leading musicians for MASON & HAMLIN GRANDS, and will be sold at the exchange price on the easiest possible terms. In uprights are several STEINWAYS, KNABES, a choice CHICKERING, PACKARDS, LUDWIGS, CONOVERS, and a vast assortment of lesser known makes. THEY ARE GOOD PIANOS, every one, and each is the product of a factory of sterling reputation and merit.

If high quality, low price and easy terms appeal to you, you will visit our store THIS WEEK. It is an opportunity to get THE PIANO YOU WANT AT THE PRICE YOU WISH TO PAY. Seeing and hearing the pianos will convince even the skeptical of the lowness of our prices and the quality of the pianos.

This sale and the low prices is made possible by the ever-increasing sale of MASON & HAMLIN PIANOS, the most artistic and the highest-priced piano in the world, and the splendid ANGELUS PLAYER PIANOS. These make the opportunity for you by their quality alone.

Talk over the piano question, THEN SEE THESE PIANOS. You will be surprised at their value and the low prices asked.

## FLUFFY RUFFLES JUST ANNOY HER

Woman - Man Gives Juvenile Court Here Considerable Concern.

It is at ease in the garb of a woman, when for most of her life she had been accustomed to hard labor in the mines of Oregon masquerading as a man, Miss Carmen Fells, alias Henry Nesbit, 17 years old, declared before a room full of persons in Judge Brown's court yesterday afternoon that she hated women's clothes and everybody who wore them.

She pleaded to be let alone that she might go her way, and, striking a stubby growth that stood out upon her chin, exclaimed to Deputy District Attorney Satterwhite:

"How would you like to be compelled to dress up in women's clothes? I feel just as much like a man as you do."

Satterwhite was nonplussed, the court looked abashed and the audience aghast. What should be done, in this peculiar case? That was indeed a question that puzzled masculine brains. Here a woman, more a girl, in fact, as strong and robust as any of them and used to roughing it as many in the courtroom had never done. With her hat removed, the figure upon the stand had the appearance of a handsome youth.

As Henry Nesbit, the girl was arrested several days ago on suspicion of having stolen a bicycle. She was taken to the Detention home and it was there that the identity of her sex was disclosed to the matron. The officers were surprised; the prisoner was chagrined. But the hands of the law were unrelenting and Miss Carmen Fells-Nesbit, the later appellation, which had been adopted by woman's usurpation, discarded for the time being, was taken into court. But the judge and the prosecutors were unable to arrive at any solution of the problem, so the matter was put over for one week.

In the meantime Miss Carmen is writhing in discomfort beneath stuffy folds and awkwardly endeavoring to get into the stride of a yard-wide skirt.

"What can I do to earn a living in things like these?" she asked contemptuously.

Then she told her story of how for years she had worked driving teams hauling ore in the north, and of how the rough and ready life appealed more to her than that of the cities. She said that she knew little of her family antecedents. In speaking, her voice is a deep bass, and singing is one of her accomplishments.

Pending the decision of the court in her case Miss Carmen was returned to the Detention home, and while the probation officers ponder the youthful enigma keeps on shaving.

## WHEN HOTEL'S NOT HOTEL, IS SOLVED

Supreme Court Finds Answer to Question That Has Been Vexing.

SAN FRANCISCO, Oct. 27.—"When is a hotel not a hotel?" is the question the Supreme court has been debating over for the past three months. The case of Kate Richter, James Louis Richter, treasurer of the city of San Jose.

Yesterday the court's answer was given. "A hotel is not a hotel when all the bedrooms are used by the family of the proprietor."

Mrs. Richter, according to her testimony, owns a "palm garden, hotel, grocery store, delicatessen, meat market, confectionery store and candy store" in San Jose. They're all in one building—the hotel building.

Recently the San Jose council established a given territory within which saloons would be granted a license, but the rule did not apply to hotels. Mrs. Richter's property was outside the district provided for by ordinance, but she sought a saloon license for her palm garden on the grounds that she was running a hotel.

The lower court discovered that there was only seven bedrooms in the building and all were occupied by her family. So the court put the matter up to the high tribunal. The court yesterday decided that Mrs. Richter's hotel isn't one as long as the family uses all the bedrooms. Mrs. Richter sought to force the treasurer to grant her a license.

Mrs. Richter, who wants Miss O'Day to answer certain questions regarding her friendship for Doctor Leek, alleged visits he made to her and certain trips which it is claimed they took together. The matter will come up for a further hearing next week.

## FIRST FAIR WORK STILL IN DOUBT

Officials Undecided Where the Labor On Exposition Is to Begin.

SAN FRANCISCO, Oct. 27.—Now that President Taft has started the Panama-Pacific Exposition, and has practically begun construction work, the question that is being asked the officials daily is, when, where, and what is to be first erected for the State fair.

The general consensus of opinion has been that work would start at the stadium where President Taft began operations under such auspicious circumstances two weeks ago. There is some doubt as to whether this will be carried out, and there is also a question as to when the plans will be sufficiently formulated for the beginning of any work at all.

This morning an official declared that so far he could not shed any light at all upon the subject, nor would he give promise of anything definite in the near future.

The San Francisco Chamber of Commerce is taking an interest in the trip of the business men to Arizona to the State fair, and the excursion promises to be a great success.

Oakland is now to be one of ten large cities of California to use a Panama-Pacific Exposition cancellation stamp in the post office.

## CONTRACT LET FOR NEW ODD FELLOWS' HOME

SAN JOSE, Oct. 27.—Calling for the completion of the first six of the buildings within ninety days from the date of the completion of the re-erected concrete foundations, the contract for the erection of the new Odd Fellows' Home, near Saratoga, was filed yesterday in the office of the county recorder.

The work called for will cost \$119,000. The contract is made between the board of trustees of the Odd Fellows' Home of California with William Brothers & Henderson of San Francisco. The work called for in the contract is the construction of the administration building, four bungalows, the hospital, laundry, power house and stables.

## Why Wet Shampoos Are Injurious to Hair

(Guide to Beauty.)  
"Avoid wet shampoos, if you would have soft, lustrous hair and plenty of it. More or less 'free' alkali in shampoo mixtures robs the scalp of its necessary oil, and this, in a measure, causes hair to grow dull, brittle and unmanageable."

"The dry shampoo is rapidly gaining favor because of its cleansing and invigorating effect on both hair and scalp. If 4 ounces either of orris root or corn meal and 4 ounces of thorax are mixed together and a tablespoonful sprinkled over the scalp, then brushed well through and out of the hair, all traces of dust and dandruff will be removed, and the hair will take on a silken sheen and richness of color impossible by any other method."

CLEVER SKATERS TO BE SEEN IN 'STUNTS' AT IDORA RINK

BENNIE RANDALL and LENORA KRAMM, who will give an exhibition of fancy skating tonight at Idora Park.—Woods Photo.

Keen interest is being shown in the exhibition of fancy skating which is scheduled to take place in the big pavilion at Idora Park this evening. Rinkers from all sides of the bay are to be represented and the contestants are said to be in fine condition.

Notably among these will be Master Bennie Randall and little Miss Lenora Kramm. While both have received their training at the Idora rink, they are said to be the cleverest pair of junior skaters on the Pacific coast.

Tonight they will attempt tricks never before seen in local skating circles. Most intricate of these will be an attempt to describe a "figure-eight" through a mass of burning candles. In this feat the participants will skate upon their toes and all lights will be turned out with the exception of the candle flames. The young couple will also do a cakewalk to the music of "Uncle Tom's Cabin Rag." The fancy skating will take place at 8 o'clock and will be free to spectators. There will be general skating before and after the exhibition.

STATE CLAIMS 41 SECTIONS OF LAND

North Dakota Will Have First Choice in Partition of Reservation.

GREGORY, N. D., Oct. 27.—Something of a sensation in connection with the Rosebud land lottery developed here today when it was disclosed that 41 sections of the Rosebud tract have been claimed by the State for Indian school lands. These sections, including the best in the tract, will be selected by the State before the settlers have a chance to file. As only about thirty sections are classified by the appraisers as agricultural land it appears that none of the real choice claims will pass into the hands of settlers at this time.

GOLD DUST makes clean, healthy homes

Gold Dust acts like magic on dirty floors, doors and woodwork. You do not have to bend until your poor back is nearly breaking in an effort to scour and scrub away the dirt. Add a heaping teaspoonful of Gold Dust to a pail of water and the Gold Dust Twins will do the rest.

Gold Dust makes floors and doors spotlessly white. It searches out dirt, germs and impurities from every crack and crevice.

Gold Dust makes home—"sweet" home. Save your strength by calling Gold Dust to your aid.

Do not use kerosene, soap, ammonia, soda, or any other harsh substance with GOLD DUST. It has all desirable cleaning qualities in a perfectly harmless and lasting form.

CHAUFFEUR LEAVES HIS VICTIM TO DIE

E. A. Davis Found Suffering in Street and Is Taken to Hospital.

Struck by an automobile and left lying in agony on the pavement at Ninth and Broadway, late last night, was the fate of E. A. Davis, 44 years old, a jeweler living in Ninth street, near Washington. After the accident, which occurred as Davis was crossing the street, the driver sped on without waiting to ascertain the extent of his victim's injuries, or assist him to a hospital.

Davis was picked up by passers-by and taken to the receiving hospital, where it was found that he had sustained serious internal injuries. He was temporarily administered to by Dr. W. H. Irwin and Steward Emley. The police are endeavoring to discover some clue that will lead to the apprehension of the chauffeur who ran down Davis.

CHICAGO NEWSPAPER IN FINANCIAL STRAITS

CHICAGO, Oct. 27.—Judge Cutting, in the probate court, was asked yesterday to order the sale of Inter Ocean Newspaper Company bonds, amounting to \$400,000 for \$200,000, the offer being made by George W. Hinman, the present publisher.

In the argument of attorneys that followed the offer it was brought out that other parties are considering the purchase of the newspaper, and a delay until November 9 was granted. The only bid in court—that of Hinman—provided for the payment of \$176,000 inside of sixty days, and the remaining \$224,000 within one year.

One stipulation of the order was that the price offered for the bonds included \$40,000 accrued interest and \$120,000 rent of the Inter Ocean building that had not been paid.

ABANDONED BABY DIES IN HOSPITAL

SAN FRANCISCO, Oct. 27.—A day-old baby girl was found in the women's waiting room in the ferry building at a late hour last night by a policeman. It was taken to the Central Emergency Hospital where the nurses did their best to save its life, but their efforts were of no avail and it died at 4 o'clock this morning. Had the discovery been made sooner it is believed that it would not have died.

"SPOT" OIL REFUSED. BAKERSFIELD, Oct. 27.—Notice has been served by the Associated Oil Company upon those companies from whom it is purchasing "spot" oil for 30 cents per barrel, that for the time being it will be impossible to take any more daily delivery. The significance of this edict is regarded in a double light. Some oil men regard it as a plan to force the smaller companies into signing a contract, believing that prospects for a rise in price in the near future are particularly bright.

Mayor of Racine Wis., Being a Progressive, Not to Ride With Taft.

RACINE, Wis., Oct. 27.—Racine is the only city with the distinction of being one of the few cities in the country whose mayor will be practically ignored in the plans for the reception to President Taft. Former Mayor A. J. Henkle, stalwart Republican, has charge of the arrangements here. Mayor Walter Goodland is a progressive, so he will not be permitted to ride in the President's carriage or to introduce him. Representative Cooper will introduce the President at the auditorium today.

Mayor Goodland has been invited to take part in the parade, and that is all. He will ride in his own automobile if he participates at all.

CHARTER GOVERNMENT DEFEATED AT SALEM

SALEM, Ore., Oct. 27.—The proposed new charter for this city providing for a commission form of government was defeated here yesterday. Out of 1111 votes cast but 536 were for it. Many persons who favor the commission form of government are said to have voted against the measure yesterday because the proposed charter did not contain any provision for direct primary elections.

INJURED BETWEEN TWO FREIGHT CARS

SAN FRANCISCO, Oct. 27.—While coupling cars at Eighth and Brannan streets early this morning, William B. Knight, a switchman for the Western Pacific company, was caught between two freight cars and painfully hurt. He was removed to the Central Emergency hospital, where it was found that he had received internal injuries, a contusion of the hip and bruises of the body. He lives at 5100 Kentucky street.

SUSPECT PROVES CONVICT

SACRAMENTO, Oct. 27.—Frank Campbell, alias Frank Carter, arrested Tuesday night with three others on suspicion that they blew open the Nicholas postoffice safe last Friday night, is wanted at San Quentin for breaking parole. It is believed by the police he is also responsible for the blowing open of the Nippon bank safe in Sacramento several months ago, when \$8000 was stolen.

\$450 BURNED IN FIRE IN COTTAGE

Fireman Nearly Has Finger Cut Off in Effort to Save Money.

SAN FRANCISCO, Oct. 27.—During the progress of a fire which destroyed the cottage in the rear of a lot on Polk street near Baker, currency to the amount of \$450 was burned. The money was the property of one of three men who reside in the structure and he made a vain attempt to rescue. George Brown, a fireman of 39 engine, while trying to smash in a door and get the trunk in which the money was hidden, had one of his fingers almost amputated and had to be treated at the Central Emergency hospital.

MODERN DARIUS GREEN INVENTS NOVEL WINGS

SAN JOSE, Oct. 27.—The Wright brothers are not the only students of aviation who believe that man will eventually soar as easily as the buzzard high above the earth.

Long before Wright announced that his brothers were experimenting with a motorless aeroplane Captain George H. Cooper of this city, originator of the octal system of notation, devised a pair of wings patterned after those of the hawk. These are strapped to the body with a corsetlike arrangement and by an ingenious system of pulleys the wearer is able to exert all of the strength of his arms and legs into the flapping of the wings.

Cooper has tried hops from small elevations, but does not expect to fly with his present model. He is merely studying balance and other problems which he can not work out without actual experience.

PHENOMENAL WHEAT GROWN

REDONDO BEACH, Oct. 27.—Sixty-four four-inch heads of wheat were produced from one root as the result of experiments conducted by J. G. Buxton of this city. Buxton desired to prove that good wheat could be grown on beach sand and disprove the theory of others to the contrary. The sand used by Buxton was treated in no unusual way, and the wheat planted in it was grown without water, fertilizer or cultivation.

# FIGHT AGAINST STEEL TRUST TO BE PROSECUTED WITH VIGOR, DECLARES U. S. COUNSEL JACOB M. DICKINSON

Former Secretary of War Warns Officers of Accused Corporation That Government Will Brook No Delays in Hearing of Arguments Against Alleged Illegal Combine

(Continued from Page 1.)

Woodbury Snowden, Jr., who went to New York last night to serve on Judge Gary and others copies of the petition of the federal government, returned here today, but refused to give out any information, saying that he has ironclad instructions not to talk. It is known, however, that a copy of the petition was served on Judge Gary at the Waldorf-Astoria hotel in New York last night.

**MATTER OF COURTESY.**  
This service is part of the necessary legal procedure in the suit, but is really a matter of courtesy to the defendants. It is the subpoenas that will bring the defendants into court.

Following the return day, December 14, when the defendants must appear in an appearance by counsel, they have until the first Monday in January to put in their answers to the charges set forth in the government's petition. The government probably will make a reply and then if the procedure of trust prosecution is followed the court will appoint an examiner to take testimony. The examiner may sit in any city convenient to the government's attorneys and the defendants' witnesses. In view of the fact that most of the defendants live in New York and most of the papers and documents of the corporations are in vaults there, most of the proceedings may take place in that city. After all testimony is in arguments will be heard by the full circuit court bench, probably in Philadelphia, where the full bench of the Third judicial circuit usually sits.

## Three Judges Named to Hear Trust Case

TRENTON, N. J., Oct. 27.—It was authoritatively announced here today that three judges will hear the case of the government against the United States steel corporation.

The judges are George Gray of Wilmington, Del.; Joseph Buffington of Pittsburgh, Pa., and William M. Lanning of Trenton.

These judges recently handed down a decision in favor of the government to dissolve the alleged powder trust. Subpoenas were issued today for all the defendants.

## Trust Prepared to Fight for Existence

NEW YORK, Oct. 27.—The United States Steel Corporation is prepared to fight for its existence. The men at the helm of the great corporation were silent when the news came to them that the blow which has been awaited so long had fallen.

The steel men declined to make any comment for the time being. The attitude of the corporation is set forth in a statement which it issued one month ago. It proclaimed then its belief that it was within the laws, and declared over the signature of J. P. Morgan that it would not dissolve voluntarily.

Francis Lindquist, general counsel to the steel corporation, declared it was perhaps better that dissolution proceedings had been instituted.

"It is better to know where we stand," he added, "than to have all this uncertainty, all these rumors and reports moving through the air."

The statement defining the attitude of the steel corporation was issued last month to put at rest reports that negotiations were under way with the department of justice looking toward voluntary dissolution. By unanimous vote the directors authorized publication of the statement, which was signed by Judge Gary and Mr. Morgan. The action of Morgan in attaching his signature was almost unprecedented and was accepted as indicating the importance given the matter.

**SELL SECURITIES.**  
Because of the fear that the corporation would be dissolved holders of steel bonds and stocks have sold their securities in enormous amounts in recent months.

Liquidation became so heavy last month that for a time the stock market was demoralized. It was on account of this that the directors issued their statement, in an effort to stay the storm, in which they succeeded to some extent.

Stocks of other corporations, which it was thought might be under investigation by the government, also were sold heavily and market values shrank by millions of dollars a day during the turbulent sessions. The common stock of the steel corporation, which is one of the principal speculative mediums, is now selling almost 25 points below its high price of the year.

Word of the dissolution suit did not reach Wall street until almost an hour after the close of the stock market for the day so that its effect upon brokers has not yet been registered. Brokers last night made preparations to place orders in the London market, which opens before the beginning of trading on the New York exchange this morning.

## Suit to Be Pushed, Avers Dickinson

CHICAGO, Oct. 27.—Former Secretary of War Jacob M. Dickinson, who has acted as special counsel to the government in preparing the case against the steel companies, arrived here today and said that any attempt to cause a prolonged delay in the hearing of the action would be fought vigorously by the government.

"The suit will be pushed through the courts with the utmost speed," he said. "There will be no delays of any kind."

"The action of the board of directors of the steel company in New York yesterday in cancelling certain of its one leases was unexpected, as this was one of the objects aimed at in the suit."

"Under the terms of these leases the steel company was requested to give two weeks' notice of a desire to terminate its contracts, which would make it impossible for the company to violate the lease before 1913."

"If the court decree is in favor of

the government it will mean immediate cancellation of the leases."

## To Finish Task of Serving Petition

NEW YORK, Oct. 27.—The entire force of deputies under United States Marshal Henkle was put at the disposal of the government today to finish the task of serving copies of the bill of equity in the federal suit to dissolve the United States Steel Corporation upon officers and directors of the alleged trust residing here. J. P. Morgan and E. H. Gary received service last night, but thirteen others remained to be served in this neighborhood.

According to a statement given out at the office of the United States marshal in Trenton, where the suit was filed yesterday afternoon, this service of the petition will be followed by subpoenas requiring the defendants to answer the petition at Trenton on December 14. It is expected that the necessary services will be made within forty-eight hours.

**BROKERS ACTIVE.**  
The news of the dissolution suit came yesterday some time after the stock market had closed, but it brought many of the brokers back to their offices in a hurry to lay plans for today's market and take advantage of the earlier opening of the foreign exchanges. Dealers in put and call prices were all night sending orders to London.

Lord of the sharp decline of Steel in London this morning and the directors prepared for a lively day when the stock exchange opened here at 10 o'clock.

Fears of any unexpected developments today were dispelled by the length of time traders had to digest the news and by the fact that the rumors of the government's intention had long prevailed.

**CLOSES AT 58 1/2.**  
Steel common stock closed yesterday at 58 1/2 and the preferred stock at 108 1/2. As a basis for comparison of today's market and take advantage of the earlier opening of the foreign exchanges. Dealers in put and call prices were all night sending orders to London.

Steel common stock closed yesterday at 58 1/2 and the preferred stock at 108 1/2. As a basis for comparison of today's market and take advantage of the earlier opening of the foreign exchanges. Dealers in put and call prices were all night sending orders to London.

## Suit Is Bombshell to Official Washington

WASHINGTON, Oct. 27.—The filing of the steel suit was a bombshell to official Washington. It is said that only four men know of it, so closely did the department of justice safeguard its action against leaks. Attorney General Wickersham, his secretary, Frank B. Coles, and J. M. Dickinson, former Secretary of War, the government's special counsel in the case, are the first three who were in the secret. It is presumed, of course, that the fourth was President.

Special agents of the Department of Justice have been at work on the case gathering evidence at various times during the last three years. It was stated that the department of justice had this evidence so gathered had been supplemented by some of the testimony given before the Stanley committee of the House of Representatives, which has been conducting an investigation into the steel corporation.

## Steel Shares Drop On London Exchange

LONDON, Oct. 27.—Dealers in the American market assembled earlier than usual this morning owing to the action of the United States government in bringing suit for the dissolution of the United States Steel Corporation and all connected companies. Steel shares opened nominally at 58, but soon fell to 57 and then to 54 1/2, or 5 1/2 points below parity.

The amount of stock changing hands, however, was small compared with the big decline and there was not much excitement. Bearish movements were followed by bearish covering that lifted the quotations to 56, at which figure buyers were found. At 11 o'clock however, the market was very unsettled and continental advices were eagerly awaited.

No dealings in American rails had yet occurred. Holders here were rather frightened at the government's action, but the principal offerings appear to have been cabled over night from Wall street.

American rails later dropped from 1 1/2 to 1 1/4 in sympathy with the steel stocks, but the market hardened fractionally around noon, when, in the absence of further selling, steel was quoted at 56 1/2, or 1 1/2 above the lowest.

## Street Is Scene of Wild Selling Rush

NEW YORK, Oct. 27.—There was a wild rush to sell United States Steel stock at the opening of the market today as a result of the government's dissolution suit. The common stock opened with the sale of 28,000 shares and fell to 53 1/2, a loss of 5 points. The preferred stock fell 5 1/2.

The storm broke with renewed fury after the first recovery in prices, the selling being on an enormous scale and the market became demoralized. Stocks fell to lower prices than at the opening. United States Steel dropped to 51, a loss of 7 1/2 points

and a new low record for the year. The preferred fell back to 103 1/2. Sales of the common stock in the first hour of trading were 290,000 shares. Standard railway issues, such as Union Pacific and Reading, were forced down 3 points. Industrial stocks of all classes were extremely weak.

The market was badly unsettled all morning. Occasional rallies showed that attempts were being made to support prices, but a recovery served only to invite further selling.

There was an outpouring of steel stocks throughout the day and the common sold down to 50, a new low record point for several years. The preferred was also weak, selling down to 103, a loss of 5 1/2 from yesterday. Other stocks were weak in sympathy. Liquidation of the United States Steel increased as the price made its way to 50. Thousands of shares were pressed for a sale and a block of 4500 shares was sold when it reached 50. This transaction was followed by the purchase of 100 shares at 50 1/2 and then a block of 4000 shares forced it back to 50.

**CRUCIAL POINT.**  
This figure seemed to be the crucial point at which the bull forces were massed, for the price climbed steadily thereafter through all offerings to 51 3/8.

With the turn of the tide in United States Steel the rest of the market began to gather strength, but the recoveries were only fractional and when United States Steel reacted to 50 1/2 the rise elsewhere halted. Trading diminished greatly when the recovery was in progress.

Large amounts of the speculative bonds were sold. One block of \$285,000 of American Tobacco 8 1/2 brought 90 1/2 and another of \$100,000 were sold at 90 1/2, compared with 91 1/2 at yesterday's close.

Bear selling desisted when it became manifest that the bull forces were arrayed in support of United States Steel. This conviction led to the gradual retirement of outstanding short contracts. United States Steel worked its way up to 52, with recoveries elsewhere.

## Dollar Wheat Is Hammered in Pit

CHICAGO, Oct. 27.—Dollar wheat, the farmers' ideal, suffered a fracture today on 'change. For the first time in quite a while the December option went down into the nineties, selling off a cent and a half a bushel, to 93 1/2.

The market was chiefly affected by the weakness in the stock market resulting from the government attack on the United States Steel Corporation.

A large quantity of wheat owned in the east came on the market and was not readily digested. Local speculators took advantage of the situation and hammered the price, pulling down the December option to 93 1/2, a loss of 2 1/2 as compared with last night. The close was weak at the lowest point of the day.

Excitement on Wall street was reflected today on the Chicago stock exchange. Industrial stocks showed pronounced weakness, due to offerings which frightened investors throughout the market. International Harvester tumbled 6 1/2 points; Sears-Roebuck, common, 2 1/2, preferred, 2. There was urgent selling of Swifts from 99 1/2 off to 98 1/2.

## Roosevelt Mislead in Big Steel Deal

TRENTON, N. J., Oct. 27.—The government's long-planned suit to break up the so-called "steel trust," begun here yesterday in the United States Circuit Court, is the most sweeping anti-trust suit ever brought by the department of justice.

The government asks not only the dissolution of the United States Steel Corporation, but for the dissolution of all constituent or subsidiary companies which are alleged to be conspiring in violation of the Sherman law to "maintain or attempt to maintain a monopoly of the steel business."

Thirty-six subsidiary corporations are named as defendants in the suit. J. Pierpont Morgan, John D. Rockefeller, Andrew Carnegie, Charles M. Schwab, George W. Perkins, E. H. Gary, John D. Rockefeller Jr., Henry C. Frick, Charles Steel, York Gayley, William H. Moore, J. H. Moore, Edmund C. Conner, Percival Roberts Jr., Daniel J. Reid, Norman E. Reim, P. A. B. Widener and William P. Palmer are named individually as defendants.

**CORPORATE DEFENDANTS.**  
The United States Steel Corporation, the Carnegie Steel Company, the Carnegie Company of New Jersey, the American Steel and Wire Company of New Jersey, the National Tube Company, the Shelby Tube Company, the American Tin Plate Company, the American Sheet Steel Company, the American Bridge Company, the Lake Superior Consolidated Iron Mines, all of which were organized under the New Jersey laws, and the H. C. Frick Coke Company, the Tennessee Coal and Iron and Railroad Company and the Great Western Mining Company are named as corporate defendants.

Louis W. Hill, James J. Hill, Walter J. Hill, E. T. Nichols and J. H. Gruber are named as trustees in connection with the companies.

**ROOSEVELT DECEIVED.**  
Sensational allegations fairly topple over each other in the government's petition, which is the result of the proceeding praying for injunctions to stop continuance of the alleged monopoly and such other relief as the court may grant.

The steel corporation's acquisition of the Tennessee Coal and Iron Company during the panic of 1907 is declared illegal and scathingly criticized. The petition declares that E. H. Gary and Henry C. Frick misled former President Roosevelt when they told him "that but little benefit will come to the steel corporation from the purchase."

"The President," it says, "was not made fully acquainted with the state of affairs in New York relevant to the transaction as they existed. If he had been fully advised he would have known that a desire to stop the panic was not the sole moving cause, but that there was a desire to acquire the control of a company that had recently assumed position of potential competition of great significance. The President, taken, as he was, partly into confidence and moved by his appreciation of the gravity of the situation, and the necessity of applying for what was represented to him to be the only known remedy,

# PICTURE SALE

Pictures framed with remnants and odd ends of mouldings. Frames constructed during leisure moments in our framing department.

# HALF PRICES

---During the past two years we have done a tremendous amount of picture framing.

---From six to eight men have been constantly employed, and we have used up thousands of feet of moulding, with the result that we had an immense accumulation of odd ends, which pieces, although perfect, might remain in our shop for years before just the right sized picture came along for that particular piece.

---Consequently, we set our men at work (whenever they had leisure time), and ordered them to use up the remnants on pictures we had in stock.

---Of course, we have thousands of pictures, and it wasn't difficult to find a subject fitting each odd piece of moulding.

---About 800 of these pictures are ready now, all of which will be sold for half price on account of the fact that they cost us practically nothing.

---You will find all kinds of pictures in all kinds of frames, including:

Pastels  
Water Colors  
Copper Etchings

Oils  
Artotypes  
Photogravures

Oleographs  
Platinum Photos  
Colored Prints

Carbon Photos  
English Prints  
Etc., etc., etc., etc.

## Why not get some of these pictures for CHRISTMAS PRESENTS?

Nothing is ever more acceptable as an Xmas gift than a pretty framed picture.

Nothing adds so much to a room.

Nothing remains so constantly in the company of an individual as the pictures which surround him.

By all means take advantage of this sale and get a supply of them for Xmas gifts.

## The frames alone are worth more than we ask for the entire picture.

You'll find it cheaper to buy these framed pictures than it would be to buy the frame and furnish your own picture.

Some of the water color sketches which we have framed up for this sale are alone worth, without the frames, double the price we quote for this sale.

If you are a judge of pictures you'll appreciate this sale.

October, 1907, owed large sums of money to New York and elsewhere from \$25,000 to \$25,000,000 upon call and time loans, which were running to maturity. Some of these loans were partly secured by pledge of 100,000 shares of Tennessee stock, the amount fluctuating.

"In October, 1907, a great panic came, and New York was the storm center." The petitioner then goes on to say that this panic was used as a lever to obtain control of the competitor.

**PRESIDENT NOT TOLD TRUTH.**  
The President recorded, in a letter to the attorney general, written in their presence, their representations. He states that Gary and Frick told him that there was a certain business firm which would fill it help should not be given and that among its assets was a majority of the securities of the Tennessee Coal Company. The firm referred to was undoubtedly Moore & Schley, but it was not true that among the assets of the firm was a majority of said securities. Nor was it true that said Schley had among his assets a majority or anything approximating it. The President, further said in his letter: "Judge Gary and Mr. Frick informed me that but little benefit will come to the steel corporation from the purchase."

"This statement to the President was misleading. The property was very valuable. Next to the corporation the Tennessee company had the largest coal and ore properties in the United States of any steel concern. A competitor was removed. The corporation in its report to its stockholders of this purchase said that the terms of purchase were satisfactory both to price and manner of payment, that the purchase of the property promised benefit to the corporation, and that the Tennessee property was very valuable.

"The President was not made fully acquainted with the state of affairs in New York relevant to the transaction as they existed."

**HINDU'S HAIR CUT; SUES A COUNTY FOR \$20,000**  
CHATTANOOGA, Tenn., Oct. 27.—William Curry, a native of East India, has given notice of his intention to file a damage suit for \$20,000 against the county of Hamilton for "maltreatment and unlawful deprivation of property."

Curry had been arrested for vagrancy, and served a term in the workhouse. The rules require that the hair of all convicts be cropped close to the head. Curry's hair was long and black, and hung down his shoulders, after the custom of his country. After his release from the workhouse he was advised by lawyers the county has no right to deprive him of his hair. Curry wants the hair produced but this would be impossible, as it was destroyed. Curry says his hair never had been clipped before.

## DYSPEPSIA-PROOF

How Any Meal Can Be Thoroughly Enjoyed by Any Stomach

Costs You Nothing to Try Stuart's Dyspepsia Tablets.

Men, as a rule, are first discovered by their enemies. Their antagonists turn on the searchlight, and the proof of merit will lie in being able to stand the flash. It was only in this way that Mr. White discovered that dyspepsia was one of Mr. Black's worst enemies. Sitting face to face at a two-by-four table, he handed his afflicted friend the bill of fare:

Oyster Cocktail. Stuffed Olives. Boston Clam Chowder. Strained Gumbo. Sirloin Steak with Mushrooms. Roast Beef Hash. Baked Ox Tongue with Sauerkraut. Lobster a la Newburg. Baked Pork and Beans. Combination Crab Salad. Hot Mince Pie. Pineapple Fritters.

Mr. White ordered a "little of each." Mr. Black, however, ordered crackers and a glass of milk. "I had such a big breakfast this morning," he said, "that I'll just take a bite to keep you company." But Mr. White could not be deceived. "I am afraid you can't eat that," he said. "Why don't you try Stuart's Dyspepsia Tablets? You'll always have that hungry look, anyhow, as long as you have dyspepsia. Now listen. My stomach was in just as bad condition as yours at one time. I can eat anything, at any time. For instance, this clam chowder or sirloin steak or even the lobster would be just as welcome to my stomach as your crackers and milk. You don't realize how this dyspepsia business is robbing you of your spirit, your energy and ability to think quickly. I can't help notice it. You haven't the cheer and sociability you had three months ago. Now I'll tell you what to do," and thereat the cheerful Mr. White took a small pink packet and extracted a wee tablet. There, there is a tablet that contains an ingredient, one grain of which digests 2000 grains of food. For even the worst dyspeptic it's the only thing that really gives relief. The reason is it relieves the stomach of nearly all the work it has to do, digests everything in the stomach and stimulates the gastric juice. I can't get along without them. They are Stuart's Dyspepsia Tablets. You can get them anywhere on earth for 50c a package."

Yes, it is true, Stuart's Dyspepsia Tablets absolutely stop heartburn, nausea, indigestion, dyspepsia of the worst type, sour stomach, bloaty feeling and all eruptions and irritation, and freshen and invigorate the stomach. They cheer you up, and make you get all the good there is in your food. You will forget you ever had a stomach to worry you. Send us your name and address today and we will at once send you by mail a sample package free. Address F. A. Stuart Co., 150 Stuart Building, Marshall, Michigan.

## CENTRAL AMERICA BADLY SHAKEN

Terrific Earthquakes Are Felt in Every Town in Costa Rica.

NEW ORLEANS, Oct. 27.—Mail advices from Port Limon received here yesterday tell of terrific earthquakes which shook every town in Costa Rica and portions of other Central American states. The quakes occurred ten days ago.

The damage is known to be heavy in many sections, and it is feared there was loss of life, although definite news of fatalities has not been received. The first shock occurred at 7:35 o'clock in the morning and was felt throughout the republic.

In Limon the tremors are described as more violent than those which destroyed Carthage. Messages from the Pacific Coast said the seismic disturbances were most violent there. In places there were as many as fourteen distinct shocks. In Port Limon the first lasted sixteen seconds, with an intensity of five; the second, an hour later, lasted four seconds, with an intensity of two.

A wireless message from Colorado Bar reported a terrific shake there and was coupled with news that Nicaragua had been shaken terribly.

## PHYSICIAN ADVISES CUTICURA REMEDIES

For Eczema, Patient's Wrist and Shin Itched Like Poison. Scratched Until They Bled. Says: "Cuticura Soap and Ointment Cured Me."

"Four years ago I had places break out on my wrist and on my shin which would itch and burn by spells, and scratching them would not seem to give any relief. When the trouble first began, my wrist and shin itched like poison. I would scratch these places until they would bleed before I could get any relief. Afterward the places would scale over, and the flesh underneath would look red and feverish. Sometimes it would begin to itch again, and I would have to go through the scratching ordeal again.

"I consulted my physician in regard to it, and he pronounced it 'dry eczema.' I used an ointment which the doctor gave me, but it did no good. Then he advised me to try the Cuticura Remedies. As this trouble has been in my family for years, and is considered hereditary, I felt anxious to try to head it off. I got the Cuticura Soap, Ointment and Pills, and they seemed to be just what I needed.

"The doctor was making great headway on my system until I got the Cuticura Remedies which have cleared my skin of the great pest. From the time the eczema healed four years ago, until now I have never felt any of its pest, and I am thankful to the Cuticura Soap and Ointment which certainly cured me. I always use the Cuticura Soap for toilet, and I hope others suffering from skin diseases will use the Cuticura Soap and Ointment."

## ATTACKS SCHOOL SYSTEM OF STATE

Los Angeles Man Points Out Need of Broader Plans for Education.

CHICO, Oct. 27.—We have completely outgrown the educational system now employed in this state, according to J. H. Francis, superintendent of schools of Los Angeles, who was the principal speaker yesterday before the Northern California Teachers' association in annual session here. Francis urged the necessity of broadening the educational system in California to meet changed conditions and environment, and declared against the method of instruction which turns out machine-made pupils who have not been allowed time to think, but craved from one grade to the next in the shortest possible time.

"Education in the next 25 years is going to be to recognize women," Francis said, "and with this change we shall see a wonderful improvement in our educational system."

Dr. Margaret Schallenger of the San Jose Normal school spoke on "The Efficiency of Personality."

Officers for the ensuing year were elected as follows: S. M. Chaney, Willows, president; W. M. Mackey, Chico, secretary; Naomi Baker, Red Bluff, treasurer; J. D. Sweetser, Red Bluff; G. W. Moore, Colusa; C. H. Camper, Chico, and Lulu E. White, Shasta county, members of the educational council, which meets here Saturday.

The next meeting of the association will be held in Sacramento. At the morning session the high school elementary sections of the association's work were discussed. President Allison Ware of the Chico normal school and J. D. Sweetser, former superintendent of schools of Tehama county, being among the speakers.

The Plans of Organization Are Divulged by Mrs. George A. Smith.

LOUISVILLE, Ky., Oct. 27.—Plans to organize the National Federation of Voting Women were laid by delegates who attended the annual convention of the National Women's Suffrage Association and who remained in Kentucky until last night for a trip to Mammoth Cave. Mrs. George A. Smith, president of the woman suffrage organization, made the announcement last night, when she with the others in the party returned to the city.

"The federation," said Mrs. Smith, "will be formed by the enfranchised women in Washington, California, Wyoming, Idaho, Utah and Colorado, the States in which they have the ballot. I have arranged to begin active organization work as soon as I return to my home in Seattle. It is our plan to use this federation, among other things, in a concerted action to aid the women of Oregon in a campaign for suffrage they will soon enter when Oregon is added to the list, the federation will turn its attention to the States eastward."

UNDERGO ADVENTURE IN WALK-OVER WORLD

LOS ANGELES, Oct. 27.—Stephen Stan, a hotel servant, returned yesterday from a walk around the world, which occupied three years and thirty-four days, and brought him many thrilling experiences. He made 20,000 miles on foot, wearing the same hat and carrying the same cane the entire distance. He walked through the United States, England, France, Germany, Austria, Serbia, Bulgaria, Roumania, Russia, Siberia, Manchuria, China and Japan, whence he started his way to San Francisco as a deck sweeper, and came from there aboard.

He bears official proof from all parts of the world. He started without means and often went hungry. In Siberia he was attacked by robbers and shot four times in the chest. In Manchuria he encountered brigands. In Japan he suffered blood poisoning and as a result is crippled for life.

ASTEROID RACES WITH EARTH AROUND SUN

CAMBRIDGE, Mass., Oct. 27.—At breakfast speed, earth and asteroid M. T., a recently discovered comet, are racing along side by side around the sun. The earth is averaging nineteen miles to the second. The new comet is gradually pulling away, and averaging twenty-five miles in a like period of time.

Asteroid M. T. was discovered by Palisa, of Vienna, on October 3. The following day, Peccoli, of Copenhagen, verified his brother astronomer's find. Then the planet became lost, and the reason for this in great part is laid to the result of Kiel Observatory by Director Edward C. Pickering of Harvard Observatory, for being lax in notifying astronomical centers of America of the discovery. Last night the wanderer was relocated by astronomers at Greenwich, England.

RATE WAR THREATENED BY PLANS OF CONCERN

MODESTO, Oct. 27.—It was announced yesterday that the Western Power Gas and Electric company will immediately build a power line from Stockton to Modesto and become an active competitor of the Sierra and San Francisco Power company for business in Modesto and Stanislaus county towns. This move is believed to be the result of the recent invasion of Stockton by the Sierra and San Francisco company. O'Callaghan, stated today that rates will be cut, and a rate war is promised.

The Sierra company recently absorbed the low power plants of the Western Power company and has had the field here to itself.

W. P. SHOPS TO STAY AT STATE CAPITAL

SACRAMENTO, Oct. 27.—President E. T. Jeffrey of the Western Pacific Company visited Sacramento yesterday on his trip to the coast and set at rest the reports that his shops were to be moved to another city. He said that the shops had not been completed because there had been no use for them, but in a year's time they will be kept busy.

WIFE DESETER CAUGHT.

FRESNO, Oct. 27.—S. Knight, for many years a real estate dealer and collection agent of this city, but more recently resident in Turlock and Ripon, has been arrested and brought to this city on complaint of leaving his wife destitute. The complaint is signed by a daughter. Hearing of the charge has not yet been set.

## RAILROADS LOSE IN RATE APPEAL

The Commerce Court Orders Adjustment of Western Freight Rates.

WASHINGTON, Oct. 27.—At the conclusion yesterday of the arguments in the Pacific Coast cases the commerce court declined to grant a temporary injunction in the Salt Lake case at the request of the transcontinental carriers. The interstate commerce commission issued an order requiring the transcontinental railways to adjust their rates to Utah and Nevada points so as to avoid discrimination in favor of Pacific coast terminals to become effective November 15.

Those decisions by the commission involving the construction of the long and short hauls provision of the interstate commerce act were reserved for decision by the Salt Lake case. In which the railroad had asked for an injunction restraining the commission from putting into effect its order, was decided by the court adversely to the railways.

The other cases, including the long pending Spokane rate case, in which the railroads have asked for an injunction to prevent the commerce from enforcing its orders, probably will be decided in a few days.

## COURT REDUCES MOORE ALIMONY

Woman Asks for \$1500, But Gets \$300 and \$700 for Fees.

REDWOOD CITY, Oct. 27.—Although the sensational marital troubles of Mr. and Mrs. J. Moore, that threaten to stir the innermost secrets of society, will be aired in open court when the divorce case comes to trial in this city November 13, at the request of the attorneys for both sides, Judge George H. Buck yesterday heard Mrs. Moore's petition for temporary alimony behind closed doors.

Moore and his beautiful wife, who is suing him for divorce, seemed anxious to keep the financial affairs of the family from the light of publicity, and Judge Buck ordered the courtroom cleared while Mrs. Moore's petition was discussed. Finally the court ordered the millionaire merchant and clubman to pay his wife \$700 for attorney fees and \$300 a month alimony. It is understood that Mrs. Moore asked for \$1500 a month.

Promptly at 10 o'clock yesterday morning Mrs. Moore arrived from San Francisco in the family automobile and alighted in front of the courthouse. She was accompanied by her senior counsel, William H. Jordan, her sister and brother and a French maid. A few moments later Moore appeared, accompanied by his attorneys, McClanahan and Derby.

After disposing of several minor probate matters Judge Buck called the divorce case, and attorneys Jordan and McClanahan held a short conference with the court.

## MARE ISLAND "HEARS" ATLANTIC WIRELESS

MARE ISLAND, Oct. 27.—The United States naval wireless station here Wednesday night excelled its "coast-to-coast" long distance performance of a few nights ago by picking up a message which was sent out from the battleship Rhode Island, at anchor off Cape Cod, Massachusetts, to another man of war on the Atlantic seaboard. The previous record was made in communicating with Fort Meyer, near Washington, D. C.

Atmospherical condition for experimenting with wireless telegraphy at long range for the last week have been perfect.

Chief Electrician A. J. Bennis, in charge of the Mare Island plant, was able to receive the Rhode Island aerogram, but was unable to transmit any message during the evening.

## DEVELOPING AN AEROPLANE GUN

Army and Navy Aiming at the Same Target, But in Different Ways.

WASHINGTON, Oct. 27.—Recent publications hinting at the development of a remarkable aeroplane gun has brought out the fact that a strong rivalry exists between the army and the navy ordnance bureaus in designing and constructing guns calculated to solve problems introduced in modern warfare by the adoption of the aeroplane on land and the hydro-aeroplane on the sea as machines of offense. It appears that the two bureaus are proceeding on precisely opposite lines, the army trying to develop a gun that can be trained with lightning-like rapidity on the swiftly moving aeroplane with the purpose of bringing it to earth, and the navy striving to equip its hydro-aeroplanes with guns which will shatter destructive missiles upon fortifications or bodies of troops below.

## HIGH-O-ME

That's the Proper Way to Pronounce Hyomei the Famous Catarrh Remedy Made from Australian Eucalyptus and Other Antiseptics --- Just Breathe It.

If you will use a common sense method, getting rid of catarrh is easy. Germs cause catarrh, you know that and you also know that in order to end catarrh you must destroy the germs. In every HYOMEI outfit which is sold by druggists everywhere there is a little bottle of antiseptic liquid that will kill catarrh germs.

Pour a few drops of this liquid into the little hard rubber inhaler which comes with the outfit and breathe this now antiseptic vaporized air over the membrane of the nose and throat infested with catarrh germs.

It's pleasant, soothing and healing is this vaporized air and it is really the only remedy known that can reach and kill catarrh germs. Complete outfit \$1.00. It is guaranteed not to contain cocaine, opium or other habit forming drugs. Booth's Hyomei Co., Buffalo, N. Y.

### A Case for Drastic Action.

An Oakland saloonkeeper is charged with enticing a young girl under 16 years of age over to San Francisco, introducing her to the dives in the Barbary Coast, plying her with liquor and debauching her.

We do not believe in condemning any person without giving him a fair hearing and an opportunity to present his side of the case, but we have no hesitation in saying that if there is any substantial truth in the charges, the guilty man should be deprived of his license and never again be permitted to engage in the retail liquor business in Oakland. He may not be technically liable under any criminal statute, but if he has committed the offense laid at his door he is too dangerous a man to be granted a liquor license and the opportunities for doing evil that the saloon business affords. All decent saloonmen should, for their own good and the protection of society, assist in driving such men out of the liquor trade.

Such shocking incidents as the one to which we are alluding are all too common. In this case liquor and a female accomplice played parts in the infamous drama. Beasts who take advantage of the youth and innocence of unsophisticated girls should be driven out of every decent community and not permitted to do business under a public frank of respectability.

The law provides that liquor licenses shall only be issued to persons of good character. No one would have the hardihood to say that a man guilty of the acts charged against the individual in question is a person of good character. He is anything but a man of good character. He is an evil character and his influence is evil. He is a menace to virtue and decency, and he should not be permitted to conduct a saloon in any self-respecting community.

We do not say this man is guilty; we have no desire to condemn him unheard; but if he is guilty his license should be at once revoked. The police commissioners should not allow such a man to conduct a saloon in this city. Such offenses as the one charged against this man smelt to heaven. They are too base to be tolerated.

Hon. Evers Ambrosius Hayes is still to be seen in his variety. Before the Union League Club in San Francisco he denounces muckraking and lying as effective agencies of reform and preaches the doctrine of sanity, truth and order in Republican politics—talking altogether like a reactionary and an enemy of the people. But in the San Jose Mercury he lauds Robert La Follette to the skies as a political regenerator. As a straddler Mr. Hayes has few equals and no superiors. No side of any issue escapes him, for he gets on every side with an agility that an acrobat might envy. He surely is a dear.

### An Old Foggy Sentiment Repudiated.

In 1872, when the name of Charles Francis Adams was being discussed in connection with the nomination for Presidency by the Liberal Republican convention, which assembled at Cincinnati, he sent a letter, from which the following is an extract:

"The civil service of the government has become a mere instrument of partisan tyranny and personal ambition, and an object of selfish greed. It is a scandal and a reproach upon free institutions and breeds a demoralization dangerous to the perpetuity of republican government. We, therefore, regard such thorough reforms of the civil service as one of the most pressing necessities of the hour."

Is not the condition described by Mr. Adams just what we have today in this State? Is not the official patronage of the State being employed to an extent never before seen to construct a partisan machine which aims to proscriber all who do not agree with the men who control it? Public patronage is openly used as an instrument of revenge and ambition. Faithful public servants are ruthlessly dismissed from office that their places may be given to servitors of the machine. At the bidding of the machine the Legislature has manufactured patronage by wholesale and passed laws which enabled the appointing power to at once reach jobs which were barricaded by statute.

But has not the public greatly profited by this confiscation of the loaves and fishes and this exclusion of the wicked from the affairs and emoluments of government? Has not the railroad been kicked out of politics, President Taft been insulted and Colonel Bill Kent elected to Congress? Have not A. J. Pillsbury and J. J. Dwyer been provided with fat jobs and that radiant reformer and pure Republican, Al McCabe, been made keeper of the Privy Key?

"Because we are virtuous, shall there be no more cakes and ale in England?" asks Jack Falstaff. Indeed there shall, Sir John, and the virtuous shall have every cake and every ale. Not a crumb nor a drop shall be left to the ungodly. Why should not the righteous feed themselves fat at the public crib? Why should any foe to good government be given a chance to nibble? Of course it would be treason to permit such a thing. And it is not permitted either. Reformers must eat.

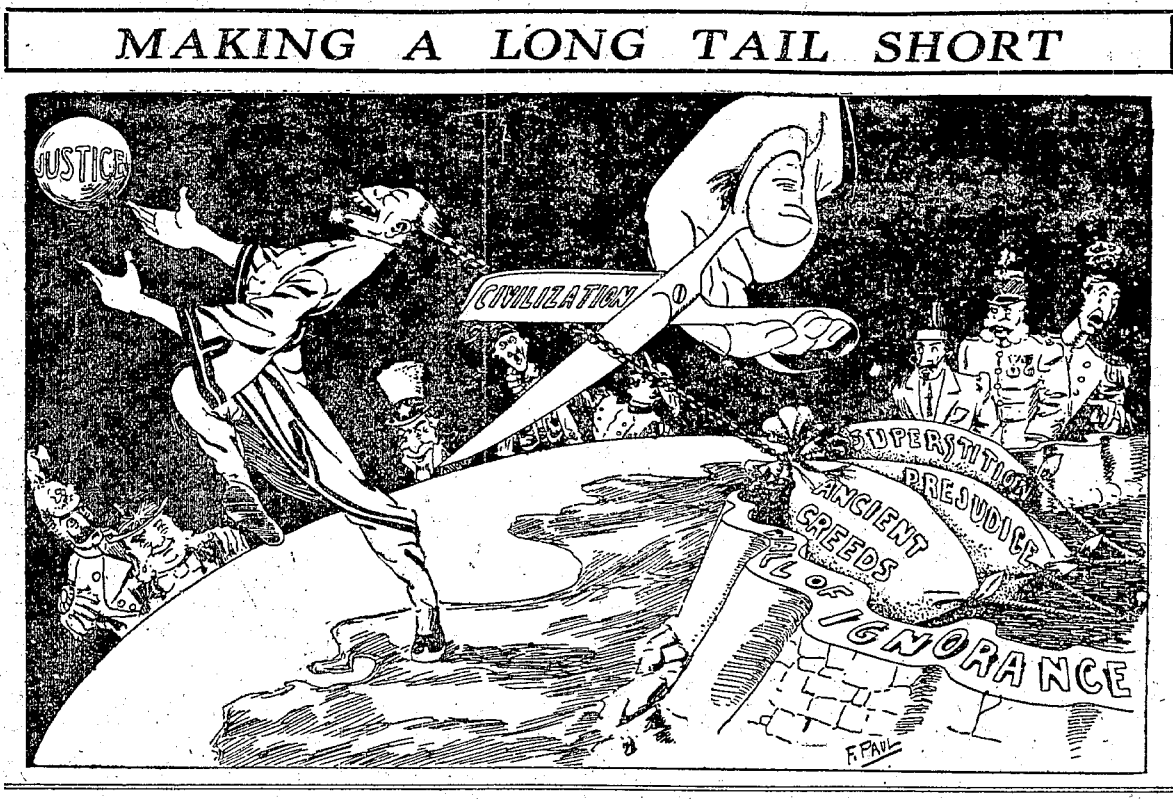

Our Canadian neighbors will probably be surprised to learn that the American people have not gone into bankruptcy nor put themselves on starvation rations—haven't even lost any sleep—because of the failure of reciprocity. It is an illusion cherished to this day in Belgium that the Belgian contingent won the battle of Waterloo and would have taken Paris but for the interference of the Prussians and the English. The Canadians have the same expansive ideas of their relative importance in the affairs of the world. The minnow splashing around in a puddle always imagines himself to be a whale.

### Results of the Canadian Census.

The returns of the Dominion census are very disappointing to those enthusiastic Canadians who expected the population figures to run between eight and nine millions. The total of Canada's inhabitants is only a little above seven millions—7,150,000 is the grand total.

Pennsylvania alone contains more people than the whole of the Dominion. The enormous increase in population during the last decade, so much talked about, barely reaches 33 per cent. New York City increased over 38 per cent. New Brunswick and Nova Scotia increased not at all, and Prince Edward Island actually lost. Quebec increased a little over 20 per cent, but Ontario's growth was only a fraction more than 15. The largest rate of increase is shown in the western provinces, but the population there is still scanty, the gross total falling far below expectation. Saskatchewan, Alberta and Manitoba show large proportionate increases, but British Columbia has not kept pace with the neighboring State of Washington.

Before the census was taken the Canadians were claiming 750,000 for Montreal. The count shows about 450,000. Estimates for Toronto show about the same rate of shrinkage. Winnipeg has grown to be a city of 125,000 inhabitants, but it has not increased in the same ratio that Seattle, Portland and Spokane have. In short, Canada has not grown as rapidly as her vast territory and liberal land laws warranted. Texas and Oklahoma added more inhabitants

to their population than, the entire Dominion did during the ten-year period just ended. California, Oregon and Washington did the same thing.

Guess Uncle Sam has not gone into the back number class just yet. Canada may not want trade reciprocity with us, but we have got her lashed to the mast on the baby count, and then some.

"Mr. Bryan is not going to oppose the candidate of the Democratic party, no matter who is nominated," says the Watsonville Register, which goes on to say that Judson Harmon will be the nominee. Mr. Bryan ostensibly supported Alton B. Parker in 1904. Perhaps the Register can recall the quality of that support and how much it availed the Democratic candidate. Where the Bryan following was the largest the Parker vote was smallest. Bryan has taken much pains to inform his partisans that he regards Harmon with suspicion and disfavor; that he looks upon the Buckeye governor as a friend of "the interests" and a secret foe to the rights of the people. Every reader of the Bible knows how Joab rescued Absalom from the branches of the tree. Any Democrat nominated against Bryan's wish will feel the edge of Joab's sword in the campaign.

Woodrow Wilson says Canada's business system is much better than the business system of the United States. Our business system is "too feverish," he says. Dr. Wilson's diagnosis is a trifle incorrect. It is not business but politics that is too feverish. The political fever has been communicated to business, consequently the nation is feeling a high pulse and the pangs of indigestion. Instead of straightening out the crooked places in a sane and orderly fashion, we are threatening to turn the whole nation into a legislature and a court of judicature. The result is, not unnaturally, confusion, uncertainty and trepidation. Everybody has become an object of suspicion and accusation, and extreme and radical specifics are adopted before the remedies at hand can be applied and tested.

### WEALTH AND PEACE

Germany is becoming an apostle of peace because the nation has grown so rich that it feels it can achieve more by commercial conquest than it could hope to attain by war.

Bluntly speaking, the millionaires of the land—and they are many—are sufficiently confident of their financial strength to feel warranted in pitting themselves against the money powers of any other nation.

In this comfortable frame of mind it is not surprising that the negotiations concerning Morocco have been continued in a much more amiable tone than had been expected.

The Lokalanzeiger of Berlin expresses itself in this wise concerning Morocco and war:

"Of course Germany is strong enough to be able to cut the knot with the sword, even now, if she so desires. But what is the good? Even without war, Germany will pursue her upward path and in twenty years will stand with fewer limitations than ever before as the arbiter of the Old World. Just reckon it out. In twenty years Germany's prosperity will have doubled and her population will have risen to 90,000,000. Where is France then? And where is England with her hundreds of problems, every one of which contains in it the germs of annihilation?"

This is a clear and philosophical explanation of a perfectly obvious condition. If further comment were needed, it is furnished by a returning American, who was recently quoted as saying:

"The Germans have so many millions now that they are displacing the Americans as spenders. In fact, the new rich of Germany are becoming the 'easy marks' of the Continental tinkers. Americans are getting sophisticated. They are no longer sought by the sharks that infest the hotels of Europe. The rich German is the latest victim, and he has so much money that he delights in throwing it away just as keenly as he enjoys saving it only a decade ago."

Germany is getting so rich it realizes that war does not pay. It will not exchange the conquests of commercialism for the doubtful prizes to be won in armed combat.—Seattle Times.

### GOLD AND HIGH PRICES

One of the most popular explanations offered for high prices is the gold theory, which, though supported by many economic authorities, finds few believers in the practical business world. Unfortunately for those devoted to this doctrine, the facts do not fit the theory. Between 1870 and 1873 the world's gold production was almost stationary, rising from \$92,000,000 per annum to only \$95,000,000, while Sauerbeck's London index figure, which is considered the best world authority, rose from 96 to the unusual figure of 112.

From 1873 to 1896 this same index figure dropped from 112 to 61, while in contrast gold production rose to \$202,000,000. Here is a fall in twenty-three years of nearly 50 per cent in commodity values at a period when gold production increased over 200 per cent. This is a striking contradiction of the gold theory and is the more important because of the long period of time which it covers. From 1896 to 1900 there was an advance in the index number from 61 to 76, the world's gold production rising during the same interval from \$202,000,000 to \$254,000,000. This was the period following defeat of the silver agitation, which resulted in a pronounced revival of business that had vastly more to do with the advance in values than the increased gold supply. Since 1900, when the index figure touched 69, there has been a steady rise in values, the index figure advancing to 80 in 1907.

Meanwhile the production of gold has risen from \$254,000,000 in 1900 to \$340,000,000 in 1907 and \$450,000,000 in 1910, when the index figure was 78. It is this coincidence between the gold supply and values during the past decade which has given such immense stimulus to the gold theory. Admitting that a large increase in the output of gold and its consequent diminished purchasing power tends to enhance values, it does not follow that this is the principal factor.—Journal of Commerce.

### PUNCTURED BUBBLE

Recent misfortunes that have overtaken dirigible balloons in foreign countries—which have gone in for that sort of thing much more elaborately than the United States—indicates that the theory that this craft ever can be made practicable is a punctured bubble.

Recently a naval airship built for England, at a cost of \$400,000, was damaged to such an extent that its repair is a matter of doubt, while flying in a nine-mile-an-hour breeze.

If it cannot be rendered safe and sure under conditions, what will be its chance in a storm, such as air navigators necessarily will encounter?

The ill fate that pursued the Zepplin dirigibles is of such recent memory that only passing reference to them is necessary. While the indomitable inventor continues to hope against hope that he will succeed in his work, his experiments have been a record of dismal failure.

In the meantime the aeroplane has continued steadily to improve. It is demonstrating an adaptability to the various needs of mankind that augurs well for its future whenever it shall have been elevated from the present experimental stage.

Recently an army officer sketched a country over which he was flying in a aeroplane. Another took pictures—moving pictures that can be thrown upon a screen. Another successfully operated a wireless while in flight.

These are concrete results. They cannot but give heart to men in this branch of science. They point to eventual triumph, bitter as may be the road to achievement and costly as may be the toll in human life.—Seattle Times.

### NEW AFRICA

The interesting interview with the well-known expert on tropical colonization and kindred affairs, Mr. Alleyne Ireland, which we print elsewhere today, affords an impressive latter-day gloss to the classic saying that something new is always coming out of Africa. The continent has indeed long been prolific of surprises and strange developments; and at the present time it is exhibiting perhaps the greatest of them all, which is nothing less than a new Africa itself. While this very generation in its earlier years knew Africa only through a few scattered settlements along the coasts, it now knows it wholly explored and save for two minor states wholly partitioned among European conquerors. In other respects, also, there has been an equally impressive opening and renovation of the once Dark Continent.

One is that of sanitation. The study of tropical diseases has in recent years become one of the most important departments of prophylactic, therapeutic and sanitary science, and the advances which have been made in it are marvelous. Of course, the effect in the practical dealing with the diseases which have been the scourge of Africa is immensely important. Exploration has also greatly increased knowledge of the habitable conditions of the continent, which may now be divided into four regions. One part comprises highlands, where white men can live in health and comfort and where

wheat can be successfully cultivated. A second consists of regions in which white men can spend a large part of the time, with proper care. A third embraces regions in which conditions are unfavorable to white men, yet in which enough of them for the direction and control of native industry can live. The fourth, which is almost insignificant in extent, is positively pernicious to white men, as the banks of some rivers and some coastal swamps.

Another great advance has been made in knowledge of natural resources. We have frequently referred to the prospects of cotton culture, and of course, the importance of rubber culture is well known. The gold deposits of South Africa are among the richest in the world, and it is now known that they extend into West Africa and probably into other parts of the continent. There are also authentic reports of tin in Nigeria, with a possibility of developments rivaling the riches of the Malay Peninsula. What else will be discovered on and underneath the soil of this vast continent is as yet matter for speculation only. But enough is known to recast all old notions and to mark Africa as destined to play the part of a peer among the continents of the globe. It was the seat of some of the greatest of the early settlements and empires of the human race, and it may again be the scene of vast population and high achievements.—New York Tribune.

### WALL PAPER GOOD SUBSTITUTE FOR HUBBY, SAYS MARY

"How Can I Marry?" Asks the Diva, as Visions of Salary Float Before Her.

NEW YORK, Oct. 27.—"To my mind wall paper serves as a fair substitute for a husband. I'm going to have my apartment painted Nile green, because colors do a lot."

It was Mary Garden in her apartment at the Eliza-Carlton testifying to the absurdity of the idea that she was considering marriage.

"Now, how can I marry?" she continued. "Consider what visions I see, after earning as much money as I have, of having a man kissing me what I did with the \$10 or \$500 he gave me last week. Of course, men's nerves are calmer than women's, but I can afford a nerve specialist more easily than a husband."

"Do I like men's roles?" she repeated. "Oh, well enough. I am to sing Prince Charming in Cinderella with a black velvet costume. Nice! But really I like women's roles better because I am three-quarters feminine, whereas some women are three-quarters masculine."

### Flag Halts 'Em

HOOD RIVER, Ore., Oct. 27.—Holding an American flag in the face of a shrieking mob of Japanese section hands, Miss Edna Meyer, a plucky school teacher at Columbia yesterday saved from rough handling and possibly from death James O'Brien, a railroad section boss, who had fled before them into the building.

As the girl tugged at the halyards and Old Glory fluttered aloft, the Japanese faced up. The girl silently pointed to the flag. It averted the yellow men. As they halted O'Brien climbed out of a rear window. He was seen after he had gone a distance of about 100 yards from the schoolhouse and the pursuit was again taken up.

O'Brien, thoroughly frightened, climbed into a tree. Miss Meyer, who, riding up in an automobile, found the Japanese dancing a war dance beneath the tree. The Japanese were taken into custody.

### Heiress Missing

NEW YORK, Oct. 27.—In circumstances almost paralleling those in which Miss Dorothy Arnold was lost to her relatives a year ago, Miss Consuelo Fajardo, 19 years old, a Porto Rican heiress, has been missing from the Hotel Felix-Portland here since October 18, when she walked out, telling persons she met that she was going to buy a magazine.

Despite the inability of the police to obtain trace of the girl, her father, a wealthy sugar magnate, believes that she is still in this city and that she went away because of his objection to her friendship with a member of the diplomatic corps in San Domingo. So far as can be learned, however, she has not been seen or communicated with the man she desired to marry.

The police have been quietly searching for Miss Fajardo for a week, but have obtained no clue to her whereabouts.

### Don Aprons

LOGAN, Utah, Oct. 27.—The domestic science classes at the Utah Agricultural college no longer are sacred to women. Harley Greaves and John Short have enrolled themselves in the cooking classes. Uniformed in the regulation immaculate aprons, they wrestle daily with the educational gas range, making copious notes on kitchen waste, and values, marketing for profit and other kitchen mysteries.

"We intend to homestead 320 acres of land apiece," said Greaves, "and we're not going to starve to death while we are doing it. We intend to eat often and well, and we don't intend to get married or hire a cook."

### Accuses Doctor

SACRAMENTO, Oct. 27.—On her deathbed yesterday Nina Reid, a 16-year-old girl of Oak Park, identified Dr. J. S. Herndon of 415 1/2 K street as the man who performed a criminal operation upon her three weeks ago. She died in the afternoon after making a statement to Assistant District Attorney Atkinson on which the prosecution of Herndon will be based.

Herndon has been arrested and a charge of manslaughter probably will be filed against him. He admits the truth of the girl's accusation, but says he performed the operation after she had begged him to do so to save her from disfigurement. She was treated by him afterward, but became so ill Tuesday morning that she was removed to the county hospital, where she died.

### Closer to Fortune

MONTGOMERY, Ala., Oct. 27.—Lillian Farthenia Crommellon of San Francisco gained an initial victory yesterday in the federal court in her efforts to share in the fortune of John G. Crommellon, who died here May 14, 1909, leaving an estate estimated at \$400,000.

Declaring herself to be a niece of the rich man, Miss Crommellon some time ago filed a bill asking for a division of the estate.

## URGES EXPOSE OF 'HEALTH SECRETS'

Nation Should Strip Cloak of Superstition From Medical Science.

Expert Says Public Must Be Protected From Knaves and Bigotry.

"I favor a national bureau of publicity in health matters. I think the government should maintain a board of health experts who would advise the people on all matters pertaining to their bodily health. There is too much mystery and superstition in medicine. The mystery should be exposed and the superstition stilled. It is the nation's most sacred duty to protect its citizens from their own ignorance and from the chicanery and quackery of bigoted and knavish practitioners, both ethical and otherwise."

The above statement is part of an interview with Professor James M. Munyon, the noted eastern health expert, who has made himself the talk of the bay cities with his original new health ideas. Munyon has devoted a lifetime to medical matters. He maintains a large staff of physicians of all schools and has spent huge sums in laboratory experiments extending over a fourth of a century. He continued:

"I would have a national board of health intelligence, which would publish bulletins about human disease, just as the government now spreads broadcast free bulletins about plant diseases and animal ailments. I think human life is quite as valuable and worth saving as plant life or animal life. This board should be made up of doctors of all schools and several laymen to apply the 'rule of reason' to the theories of the various doctors. And I believe that the laymen should have the deciding votes on all questions, for the reason that a well educated man who has never been trained into a slavish devotee of some narrow medical dogma is better qualified for common sense judgment than most doctors."

"My new common sense forms of treatment have achieved more success here than any system of medical treatment ever introduced. This is because we have combined the learning of our staff of physicians of all schools with plain and simple common sense. There isn't a building in Oakland big enough to house all of the people in this state alone who have been cured of rheumatism by my treatments. And it is the secret of my specially combined remedies for stomach trouble, and catarrh, and kidney and liver trouble, and constipation, and a host of other diseases."

Among the throng which has been crowding Munyon's offices in the Macdonough Building, Fourteenth and Broadway, all this week was Mr. William Gillman, who lives at 1630 Temple street. Mr. Gillman is widely known here, having resided in Oakland for eighteen years. He said:

"I feel free to talk about Munyon's work, for his catarrh treatment certainly cured me of catarrh. I am glad to have a chance to say a word to the public because I think others should know about the wonderful results Munyon is getting. He has without question the greatest treatment for catarrh ever placed within the reach of the public. I certainly advise any one afflicted to try these new and simple methods."

## CELEBRATES 88TH BIRTH ANNIVERSARY

BERKELEY, Oct. 27.—Mrs. S. R. Doliver, wife of a former member of the pioneer leather firm of Doliver Brothers of San Francisco, celebrated her 88th birthday anniversary last Tuesday at her home, 2801 Ward street. She was assisted in receiving by her husband and daughter, Mrs. W. H. Byington. The Dolivers celebrated the 63d anniversary of their wedding early in the year with a reception.

## KNOWLAND TO GIVE LECTURE TONIGHT

## WARDS OF STATE TO EAT TURKEY

Thousands of Birds and All the "Fixings" Will Be Sent to Institution.

SACRAMENTO, Oct. 27.—Thanksgiving Day will be a happy one for the inmates of the state hospitals and institutions, for the State Board of Control has approved contracts that will provide each institution with an abundance of delicacies for the annual dinner. Included in the list of good things is turkey, cranberries, mince-meat, apples, nuts and cider, and the item for turkey alone for the institutions aggregates seven and a half tons, representing more than a thousand fowls.

The Southern California State Hospital will receive 1600 pounds of turkeys, two barrels of cranberries, 600 pounds of mince-meat and 1000 pounds of apples. The Stockton Hospital gets 2000 pounds of turkey, 3 barrels of cranberries, 150 boxes of apples, 15 gallons of brandy for mince-meat and 100 gallons of cider, along with 100 pounds of walnuts and 2000 sweet potatoes.

Napa gets the largest individual number of turkeys, its limit being placed at 2250 pounds. The institutions to enjoy an annual feast at the expense of the state which have been provided for thus far are the Napa Hospital, Stockton Hospital, Southern California Hospital, Agnew, Sonoma Home, Medicine Hospital, Fenton School of Industry, Whittier Reform School and Veterans' Home at Yountville.

## GYMNASIUM WORK FOR ALL STUDENTS

Special Classes Also Conducted by Instructor Rittler at St. Mary's.

Gymnasium classes of St. Mary's College, under the direction of Otto Rittler, instructor of physical culture, are conducted regularly in all departments in the college. Aside from the physical culture which the classes afford, an aim of the instruction is to train the student to develop valuable talent which may eventually be utilized.

Special classes are held for the benefit of students who are unable to follow the regular gymnasium work in their classes. Credits are given for the gymnasium work, but the Stanford precedent has not been followed to the extent of giving credit for purely athletic efficiency.

## WOMAN SAYS THAT HER ALIMONY IS OVERDUE

SAN FRANCISCO, Oct. 27.—A week's grace was given by Judge Van Nostrand today to Harold W. Pracht, a book-keeper for the American-Hawaiian Steamship Company, who, according to Mrs. Velma Pracht, failed to pay her alimony. Mrs. Pracht complained to the court that she had been unable to collect her alimony, and it was alleged that Pracht's salary as bookkeeper was \$30 monthly and his total income was \$125 monthly. He was given a week's time to bring in evidence in connection with his financial affairs.

## PLUCKY AVIATRICE PLANS TO CROSS ATLANTIC IN AEROPLANE

## MISS MATILDE MOISANT'S CAREER WATCHED BY FRIENDS HERE

Miss Matilde Moisant, the Alameda aviatrix, who hopes to be among the first to cross the Atlantic ocean in an aeroplane. She seriously contemplates attempting that perilous trip.

## Resembles Brother John, Who Met Tragic Death at New Orleans Meet; Is Fearless and Careful

Miss Matilde Moisant, the young Alameda aviatrix, who is making a name for herself in New York and who is well known in this vicinity, where she has spent most of her life, having attended school in Alameda, hopes to be among the first to cross the Atlantic in an aeroplane. A trip abroad she has always planned to take and she now feels her opportunity has come. Believing that the Moisant-Bleriot aeroplane is most efficient Miss Moisant will undertake this perilous journey alone with only her mascot. She hopes to be among the first to attempt this trip.

This plucky little woman has achieved as much as any other aviatrix, holding the woman's world's record for altitude which is 2500 feet. As yet, she has only remained 36 minutes in the air at one time, but hopes to beat the woman's world's record for duration, which is over two and a half hours. She has been told many times that she is a "wonder," but says she feels she is doing no more than any other woman could do who possesses the two necessary attributes, a cool head

and common sense. Miss Moisant says that she does not know what fear is, but the first time she does, to use her own words, "Neither love nor money could induce me to go up again."

## DECIDEDLY FEMININE.

This courageous little woman is not as one might expect to find her—a masculine type, but young, still in her early twenties, decided feminine, with a strong love for the domestic side of life. In addition to her cleverness at the wheel of an airship and at the steering gear of an automobile Miss Moisant sails a boat swims and has the Parisian knack for millinery and dressmaking, besides being unusually clever in the culinary art—any French or Spanish dish she can prepare as well as a native. She is essentially a woman and loves all the things the average woman does, but with all that she possesses great courage, daring and a very cool head.

An hour or so with Miss Moisant would convince any one that there was more cheerfulness and happiness than anything else in this old world. To see her wonderful smile and catch her contagious laugh is a tonic. She has inherited the bravery, courage and love of adventure so strong in the Moisant family, being a descendant of the old French settlers in Canada.

## RESEMBLES BROTHER.

Her brother John, who she resembles strongly, and who met his death last December in New Orleans at an aviation meet held there, had, a remarkable career in Mexico and Salvador. He captured armies, raided a ship, saved many Salvadorians from death and was looked upon by the natives as supernatural owing to the wonderfully courageous feats he accomplished while there.

Usually daring flights are looked for from this petite, black-haired, brown-eyed girl, who weighs less than 130 pounds. California claims this fearless and accomplished girl as her school days were spent in Alameda and San Francisco, where she has a large circle of friends and acquaintances, who are watching her aerial career with great interest. For the last few years most of her time has been spent with her brother in Salvador, but frequent trips have been made to San Francisco, where a few months every year were spent with her sister, Mrs. Bertin A. Weyl.

## HERE'S A GOOD JOB FOR A GOOD MAN

Manufacturers' Committee of Chamber of Commerce to Have Secretary.

The manufacturers and producers' committee of the chamber of commerce at its meeting last night made arrangements for the securing of a permanent secretary to carry on its work. A. A. Denison, secretary of the chamber, has been filling the position temporarily, but it is now planned to extend the scope of the committee and the decision has been reached to put the entire conduct of affairs in the hands of one man.

The committee plans that the secretary shall act in the capacity of a community agent in securing business for manufacturing enterprises, looking after contracts to be awarded, and into all possibilities for extending the trade of local producers and manufacturers. He will work under the supervision of and in co-operation with the secretary of the Oakland chamber of commerce, and offices will be established in the building of the chamber, Thirteenth and Harrison streets.

## MANY POLITICIANS HAVE EYES ON TURNER'S JOB

### No Action to Be Taken Regarding Proposed Resignation of Commissioner Until Mayor Mott Returns

The network of political wires centering at the City Hall have been buzzing with electric messages for the last twenty-four hours as a result of the report that Commissioner of Public Health and Safety Fred C. Turner is contemplating resigning his position. The politicians and office seekers are as busy as at election time, and while Turner and his fellow members of the city council remain silent concerning the issues involved, rumor speaks the names of various possible successors for the commissioner.

Among the men who have been mentioned as successor to Commissioner Turner are the following:  
John Forrest, union labor leader and present commissioner of finance and revenue.

W. T. VEITCH, business man, who withdrew his nomination petition at the instance of Mayor Frank K. Mott after filing for Commissioner No. 3, the same position for which Turner was at that time running at the city primary election.

Edwin Meese, city treasurer and former member of the city council, defeated by a narrow margin at the recent municipal election for commissionership by Harry S. Anderson.

R. D. Holmes, representative of a large milling company, one of the candidates against Turner at the recent municipal election.

Eugene Stachler, former councilman and opponent of Turner in the final election, having qualified at the primaries for commissioner No. 2.

**AWAIT MOTT'S RETURN.**  
While the friends of these men are engaged in "talking up" their qualifications for a seat on the city council, actual changes have not manifested themselves, and the entire matter is lying in abeyance until the return of Mayor Frank K. Mott from Santa Barbara, where he has been in attendance at the convention of the League of California Municipalities.

Upon his return to office, and on more than one occasion it looked as if there might be a new division line in the council.

**ANDERSON WILLING.**  
Dissatisfied with his place, Turner has been unable to gain sufficient votes in

the council to make a change. Anderson has been willing to have a redistribution made, as he never had any voice in the assignment of his office. Friends of John Forrester, interested in the police department and in possible changes that could be effected there, have been anxious to have the commissioner of finance and revenue transferred from his position of watchdog of the treasury to that of head of the police and the departments.

It is partially on this account that the resignation of Chief of Police Adelbert Wilson has been talked of simultaneously with that of Commissioner Turner. Chief Wilson has promised Turner that he will not resign for the present, but should Turner resign and a man be placed at the head of the department whose views would not be in accord with those of Chief Wilson, the resignation of the chief would undoubtedly follow.

Turner has stated that he has been seeking a position outside of public life, where the duties would be less onerous. It is not known whether he would still persist in leaving the city's affairs if he were transferred to another department.

**CHANGES IN VIEW.**  
In case Turner obtains the work he is seeking and the place becomes vacant, gossip on the street corners forecasts several changes in the distribution of places, both in the council and in minor offices. Several friends of Councilman John Forrester desire that he should be made head of the public health and safety department, and in that case City Treasurer Meese might be elevated to the commissioner of finance and revenue, or W. T. Veitch might be asked to assume that place.

The report of the possible resignation of Chief Wilson, together with the possibility of transferring Forrester to Turner's job, has aroused rumors as to the possible successor of Chief Wilson. In this connection Captain of Inspectors Walter J. Peterson has been spoken of, but Peterson is not anxious for the job, as it would subject him to political vicissitudes by removing him from the protection of his civil service standing. Captain J. Frank Lynch has been spoken of for the place, and it is understood that his record for good service and his standing in the department would make him a strong candidate for the place should it become vacant. Lynch is at present on his vacation, and it is not known what attitude he would take in the matter. It is rumored that Forrester, should he be made head of the department, would not oppose the appointment of Captain Lynch, should the place become vacant in the not far distant future.

The first of the Friday evening dances, which will be held at Century hall, the honorees of the club are Mrs. Robert Bentley, Mrs. Frederick Thompson, Mrs. Allison H. Turner, Mrs. Frank Dudley Bates, Mrs. William Morrow and Mrs. Wendell Hammon.

Miss Freda Smith is going abroad early in January to join her aunt, Mrs. E. B. Niebling, and her cousin, Miss Rhoda Niebling, who are spending two or three years in travel on the continent.

Mrs. Arthur Murray, the wife of General Murray, was the complimented guest at a tea given a few days ago by Mrs. P. W. Wheeler.

Among others whom Mrs. Wheeler introduced to Mrs. Murray on this occasion were Mrs. William Ford Nichols, Mrs. Selden Wright, Mrs. John McAllister, Mrs. W. F. McNutt, Mrs. Aldrich, Mrs. Virginia Beede, Mrs. E. R. Holladay and Miss Maud Howard.

Dr. Tevis will be the host at a dinner this evening in compliment to the honeymooners who will spend ten days as his guests at his country home near Los Gatos.

American Beauty roses adorned the table at the elaborate dinner given Wednesday evening by Mr. and Mrs. Frederick Sharon, in honor of Madame Emma Eames and Signor Emilio de Gogorza.

Bizal friends to meet the distinguished artists were Mr. and Mrs. George Kelham, Miss Augusta Poute, William Berry, Dr. Harry Tevis and Thornwell Mullaly.

## Man Walks Downstairs Bumpety-Bump on His Head

Did you ever see a man who could walk on his head? It is rather an unusual accomplishment, but at the Bell theater this week there is a Frenchman, Mr. Patty, who walks down a flight of stairs on his head. It's an act with a circus tinge to it and a feat that has never been accomplished by anyone save Mr. Patty.

It is indeed worth while seeing and is a sight the children will take a good deal of delight in. In addition you will find the entire bill at the Bell this week, one you can thoroughly enjoy from the rise of the curtain to its fall.

## EPISCOPALIANS IN CONFERENCE

Meeting at Sacramento Discusses Appointment of Field Secretary.

SACRAMENTO, Oct. 27.—Whether or not it would be advisable to place a field secretary at work among the parishes of the eighth department of the Episcopal Church of America was an important and long discussed subject at the Sunday-school convention of the department in the Trinity cathedral this morning. While the school convention was closing its sessions, the morning session of the department council was being held in the cathedral house and the time was devoted almost exclusively to discussion of religious topics.

Department Treasurer R. Goodwin was elected by acclamation. Nearly every delegate to the convention took more or less part in the discussion of the plan offered on the behalf of the Sunday-schools that a field secretary be appointed and given authority to look into the matter of funds for the support of the office and carry out the plan if it is within the power of the general board to act finally in the premises.

## ACCUSED BIGAMIST ADMITS HIS GUILT

RENO, Nev., Oct. 27.—Perry H. Brewington, charged with bigamy as a result of his marriage to Mrs. Mary Deremer, made a confession to District Attorney Woodburn here today, admitting that he married Mrs. Deremer in Sacramento knowing that he was still bound to his first wife, who is living at Greeley, Colo.

## CHINESE INTERPRETER DIES IN SAN FRANCISCO

SAN RAFAEL, Oct. 27.—John Howard Wilson, a Chinese interpreter in San Francisco, and an agent for the American Casualty Company, died here at a late hour last night from typhoid pneumonia. His parents, Mr. and Mrs. Sutton E. Wilson, are at present in Shanghai, China. Wilson was 29 years of age, and belonged to the Order of Moose.

## SOCIETY

**T**HE JUNIOR ASSEMBLY will hold its initial dance this evening, when 250 buds and beaux will gather at Maple hall for the eagerly anticipated occasion. This organization is an especially enjoyable one, including in its membership practically all of the younger set here.

Many charming evening gowns will be worn this evening. The hall will be taxed to its capacity, for 250 acceptances have been received, this being the largest number that the patronesses have ever had.

Appropriate to the season, Maple hall will be decorated in Hallowe'en colors. Artificial pumpkins with candles inserted will be used effectively, while the yellow dance programs will be adorned with pictured pumpkins. Festooned overhead will be black cardboard witches and cats combined with greens and yellow streamers. Light refreshments will be served during the evening.

A number of dinner parties will precede the dance. Mrs. Frank Lammiman Brown is to be hostess to twelve guests. The patronesses tonight are Mesdames N. A. Acker, William H. High, Frank L. Adams, Prentiss Selby, E. F. Cockcroft, C. P. Wetmore, Sam Brock, E. P. Stone, Arthur Crellin, J. R. Scupham, C. W. Ames.

**MRS. WICKHAM HAVENS HOSTESS.**  
The third of the series of bridge parties which Mrs. Wickham Havens is giving during the early season will take place on the afternoon of Wednesday, November 1. A number of cards have been sent out for the occasion, which will be among the smart events of the coming month. Mrs. Havens is entertaining at her residence in Piedmont.

**LUNCHEON TOMORROW.**  
Miss Kate Field's luncheon takes place tomorrow, and will be an unusually pretty affair given in honor of Miss Helen Hammond of Portland, Miss Lois Brown and Miss Rita Brown of Oakland. Covers will be laid for the Misses Harriet Flegg, Caroline Hall, Jessie Hall, Leslie Greig, Charlotte Brush, Marjory Emmons, Dorothy Woodward, Lorraine Jordan, Marylee Krusi, Edna Hickok, Edna Nason, Tosca Bruntsch, Marion Williams.

**ENJOYABLE EVENING.**  
On Wednesday an enjoyable evening was spent at the hospitable home of Mr. and Mrs. H. E. Rowell, 1022 Grand avenue. Dancing was the feature, after which a repast was enjoyed by all. Those present were Mrs. C. A. Richards and Mrs. Edward L. Putzar of Alameda, Mrs. Nellie Nohlett of Piedmont, Mr. and Mrs.

MISS VERA CAMPBELL, who will be a hostess at cards tomorrow in compliment to Miss Valentine Ligda. —Hartsok Photo.

Edward N. Cuneo of Upper Sandusky, O.; Mr. and Mrs. O. J. Kennedy of San Francisco and Mr. and Mrs. Lester Relf, Mrs. J. McCleneghan and Mrs. Edward Farrell of Oakland.

**MRS. GILE EASTON, HOSTESS.**  
Mrs. Gile Easton was a hostess today at a smart tea, which was given in her handsome Lakeside district home and included a large number of local fashionable folk.

**BRIDGE LUNCHEON TODAY.**  
Miss Elsie Schilling gave a bridge luncheon today at the family place near Woodside, when she entertained the members of a card club. The personnel of the club includes among others Mrs. William Thornton White, Mrs. Paul Dinsmore, Mrs. Lester Greene and Miss Rose Kales.

**TO ENTERTAIN CARD CLUB.**  
Mr. and Mrs. William Hamilton Morrison will entertain the members of a card club which meets fortnightly for a bridge game enjoyed by Mr. and Mrs. George Hammer, Mr. and Mrs. Charles Parker Hubbard, Mr. and Mrs. Charles Youngberg, Mr. and Mrs. Walter Hughes, Henry, Mr. and Mrs. E. S. Hubbard, Mr. and Mrs. Robert Fitzgerald and Mr. and Mrs. George Rodolph.

**VISITING HERE.**  
Mrs. Charles Jay Welch has been spending some days in the bay cities as the house guest of Mrs. Carl Rhodin from her country place, Copia de Oro, near Los Banos. Mrs. Welch was formerly Miss Blanch Hostetter. While here she made a short trip to Los Gatos, visiting over the week-end with her sister, Mrs. Bert Dingley, formerly Miss Grace Hostetter.

**LUNCHEON HOSTESS.**  
Miss Dorothy Churchill was luncheon hostess today, Miss Winona Derby being the especial guest. Miss Derby's marriage to Lieutenant Henry T. Burgin, U. S. A., will take place on November 7 at St. Luke's church. It will be followed by a reception at the Officers' club at the Presidio.

**CARD HOSTESSES.**  
Mrs. F. T. McHenry entertained today at her Piedmont home when a dozen guests played bridge. Miss Isabelle O'Connor will be a card hostess on November 1 when she will entertain her guests at cards, assisted by Mrs. Lester Greene and Mrs. Merrill.

**AT BOULDER CREEK.**  
Mrs. Edward Engs and her family have been spending a week at their country home at Boulder Creek.

**TO GIVE SONG RECITAL.**  
Miss Isabelle O'Connor, assisted by Fred Maurer, will give a song recital on Thursday evening, November 2, at half past 8 o'clock at Adelphi Hall. Many musical folk are looking forward to it.

**LARGE RECEPTION TODAY.**  
Mrs. H. Sidney Kegan was a hostess today when she presided over a very large reception at her new home in the Adams Point district. The motif for the tea, Mrs. A. S. Larkey, was beautifully gowned in white lace, trimmed in exquisite embroidery. Mrs. Larkey has but recently returned from Europe and has brought home some very handsome frocks.

Mrs. Kegan received her guests, who numbered over 250, in an elaborate gown of blue made with an overdress of marquisette in shades of blue and white, and trimmed in real lace and silver fringe.

The hall was festooned in quantities of rose-colored chrysanthemums, the same being used in the living room. The dining room was a mass of pink roses in great brass bowls and baskets, while quantities of yellow chrysanthemums decked the library. All the bay cities were represented.

**WEDDING ANNIVERSARY.**  
Mr. and Mrs. I. Cohn celebrated their twenty-eighth anniversary at their home, 560 Thirtieth street, Wednesday. The house was beautifully decorated for the occasion and the afternoon was spent in playing whist, after which refreshments were served. Mrs. Cohn received many beautiful gifts. About twenty-five guests were present. Among them were Mr. and Mrs. Lewis, Mr. and Mrs. Abramson, Mr. and Mrs. R. Gordon, Mr. and Mrs. Marshall, Mrs. Silva, Mrs. Costa.

The model shown here is but one of the many

## Ingrowing Toe Nails

By LILLIAN RUSSELL

(Copyright, 1911, By Lillian Russell.)

**"P**ERHAPS three out of every five women have ingrowing toe nails," said my chiropodist the other day, "and it is simply because they pay so little attention to them. In some cases the difficulty is slight and simply by cutting or filing the nail properly the evil can soon be rectified. The big toe nail is usually the one affected, and some of my patients come to me with the nail grown down so deeply into the foot that you could feel it from the under side."

"It seems almost incredible that any one would bear the pain and inconvenience that this must give them for the length of time necessary for the nail to grow into the flesh to this depth. Sometimes I think we are a patient people, that we bear pains both physical and mental stoically. Would it not be better if we would set to work at once to relieve immediately and cure the trouble?"

"One of my patients asked me if she could really be cured of ingrowing toe nails with which she had suffered for a long time," continued the gentle woman who knows so much about foot ills. "She had been trimming her own nails for twenty years and they had become more ingrown and painful all the time. At first she had split the corners with a penknife and had torn the sides out, which, of course, was the worst thing that she could do. Then she cut her nails short, leaving the toe unprotected in every way; she did not realize that the nail was placed on the end of the toe to protect the nerves which lie as near the surface of the skin here as on the ends of the fingers."

"The nails of the toes do not grow as fast as those on the fingers and need not be trimmed as frequently. It is not a wise plan to trim them so close as to destroy the spongy substance below the nail, as this is a special guard to prevent them from growing into the quick."

In treating the nail my chiropodist uses a small steel hook, and after fastening this under the corner and cleaning it out carefully with peroxide applied on a small piece of antiseptic cotton, she uses a small curved steel instrument to place a tiny piece of cotton under the corner—just enough to keep the nail from touching the flesh. It is important that this cotton should not be of large enough bulk to further bruise the inflamed and sore cuticle. The nail is thus raised and the flesh depressed a little, and slowly the nail can be grown out perfectly.

In bad cases my foot doctor tells me she changes this dressing twice a week at first, but as the nail improves it can be changed less frequently. The old way of pulling the nail out is not now practiced by the profession and by the new method the form of the nail is not changed and no pain is caused.

Remember: A pain in your feet will plant as many wrinkles in your face as a pain in your heart.

C. A. B.—Mascara is excellent for darkening the eyelashes and brows.

BELLE.—Do not mix the borio acid and witch hazel with water. Apply directly to the face.

ADELE.—If you will send me a stamped, self-addressed envelope I will be glad to send you a recipe for a splendid tooth wash. Discolored teeth can be bleached to a milky whiteness by brushing them once a week with a toothbrush dampened in peroxide of hydrogen.

NELLIE.—I am glad you like the cucumber cream. No, there is no danger of it souring if it is kept in a cool place. In preparing the hair curling fluid you can either use home-made quince seed juice or have your druggist prepare it for you. I know of nothing to keep it from fermenting, but if it is kept in a cool place I do not think there will be any danger of it spoiling. There is no harm in using the astringent lotion every day.

A. R.—One of the simplest means of improving the ordinary bath is with the addition of bath bags. They are made of four or five squares of cheesecloth and filled with the following mixture: Five pounds oatmeal, one pound powdered orris root, one pound almond meal, one-half pound powdered castile soap. These bags are thrown into the water, which soon becomes soft and pleasantly perfumed. Used upon the body in place of washcloths, they render the skin white and impart to it a delicious sense of purity and sweetness.

**READER.**—A clear, lovely complexion can be acquired only where fundamental principles of correct living and the general plan of the complexion are served. Applying necessary creams and lotions. Choose simple, nourishing food, with plenty of fresh and steamed fruit. Vegetables, lettuce and cereals make clear skins. Avoid heavy, rich foods, too many sweets, tea and coffee. Coffee salutes the skin, sweets bring out pimples and rich foods coarsen the skin and make it greasy.

Plenty sleep and outdoor exercise have a beneficial effect upon the complexion, clearing it generally. If you will write me again, sending the necessary self-addressed envelope, I will be glad to send you a simple, inexpensive lotion for bleaching freckles and a cucumber cream which is whitening and soothing to all irritations. There is a great deal of natural arsenic in the cucumber that acts directly on the skin when applied externally.

**HERE'S AN AEROPLANE WITH REAL LIFEBOAT**

SANTA CRUZ, Oct. 27.—Patent rights for a flying machine equipped with an aerial life boat attachment in the shape of a parachute have just been granted to Amos A. Wyckoff of this city. The appliance is designed to provide the aviator with a way of reaching the ground with whole bones should his craft balk while in the air.

The Wyckoff machine is supported by a gas bag of sufficient size to offset the weight of the car, but rises directly from the ground by means of a propeller driven by a rotary gas engine. Once in the air the propeller furnishes the power to drive the airship ahead, and when the aviator decides to come down the same mechanism can be so adjusted as to haul him earthward.

**STANFORD PLUG UGLY WILL BE LADYLIKE**

STANFORD UNIVERSITY, Oct. 27.—Rowdiness will be eliminated from the annual "plug ugly" rush between the junior and senior classes next Saturday night, by order of the advisory board, and rules have been laid down which will limit the conduct to a rushing of one of the arches in front of the Law building. After the junior show, consisting of a number of "roasts" on the seniors, the two classes will retire to the quad, where the rush will be conducted under the direction of A. E. Roth, the student advisor. Nothing further will be allowed than the smashing in of the elaborately painted plugs worn by the third year men with the open hand, and the referee can stop the encounter at any time the contest approaches a free-for-all fight.

## FAMILY NARROWLY ESCAPE DEATH IN FLAMES

## MYSTERIOUS FIRE FOLLOWED BY BURSTING OF BOILER DESTROYS MELROSE COTTAGE

## BURNING HOME IMPERILS LIVES

Residence of William Lorenz Nearly Proves Death Trap for the Inmates.

Blaze Occurs in Early Morning While Parents and Children Are Asleep.

MELROSE, Oct. 27.—A fire of mysterious origin, followed by an explosion which completed the destruction of the building and set fire to an adjoining cottage, occurred at 4522 Thompson street, early this morning at the home of William Lorenz. The flames had gained considerable headway before the family, consisting of Lorenz, his wife and two small children, were awakened by stifling smoke in the sleeping apartments and enclosed porch, where Mrs. Lorenz was lying upon a sick bed. The parents, picking up the children, rushed into the street in their nightclothes.

An alarm was turned in by neighbors, but before the Melrose and Fruitvale fire departments appeared on the scene the cottage was completely consumed and an adjoining bungalow, occupied by Mrs. M. De Col, was considerably damaged by smoke and flames.

An explosion of the water boiler occurred about fifteen minutes after the fire started. The detonation was heard for many blocks around. Burning timbers and splinters were thrown high into the air and scattered the frightened neighbors, who had gathered in scant attire to aid the family in saving furniture and household goods from the flames. The De Col bungalow was saved by the efforts of the fire fighters.

The Lorenz home was partially covered by insurance in the sum of \$1500, and \$500 on the furniture. Lorenz is employed at the United Engineering Works in Alameda. The damage to the De Col cottage is estimated at \$800, covered by insurance.

## WANT COMPANY TO REMAIN IN CITY

Inducements Will Be Made the California Door Concern to O.D. So.

Efforts to induce the California Door Company to remain in Oakland after its removal from its present site, Wood and Fourteenth streets, are being actively made by the Manufacturers and Producers' committee of the Chamber of Commerce. That committee held a meeting last night, when the following resolutions were unanimously passed on the motion of Director J. W. Phillips of the committee:

"Resolved, that we, as members of the Manufacturers and Producers' committee of the Oakland Chamber of Commerce, engage to make every possible effort to induce the California Door Company to remain in Oakland, and pledge our most hearty co-operation and support in securing to them a satisfactory site and conditions which will permit of the permanent establishment of that enterprise in this city under the most satisfactory circumstances.

The passage of the resolution followed a lengthy discussion of the order of the City Council giving the company less than two months in which to remove from its present location, across the end of Fourteenth street, to permit of the opening up of that street to the west bay shore. The company wants a longer time in which to effect the removal, preferably until spring, when, it is claimed, the removal can be effected with much less loss than at present.

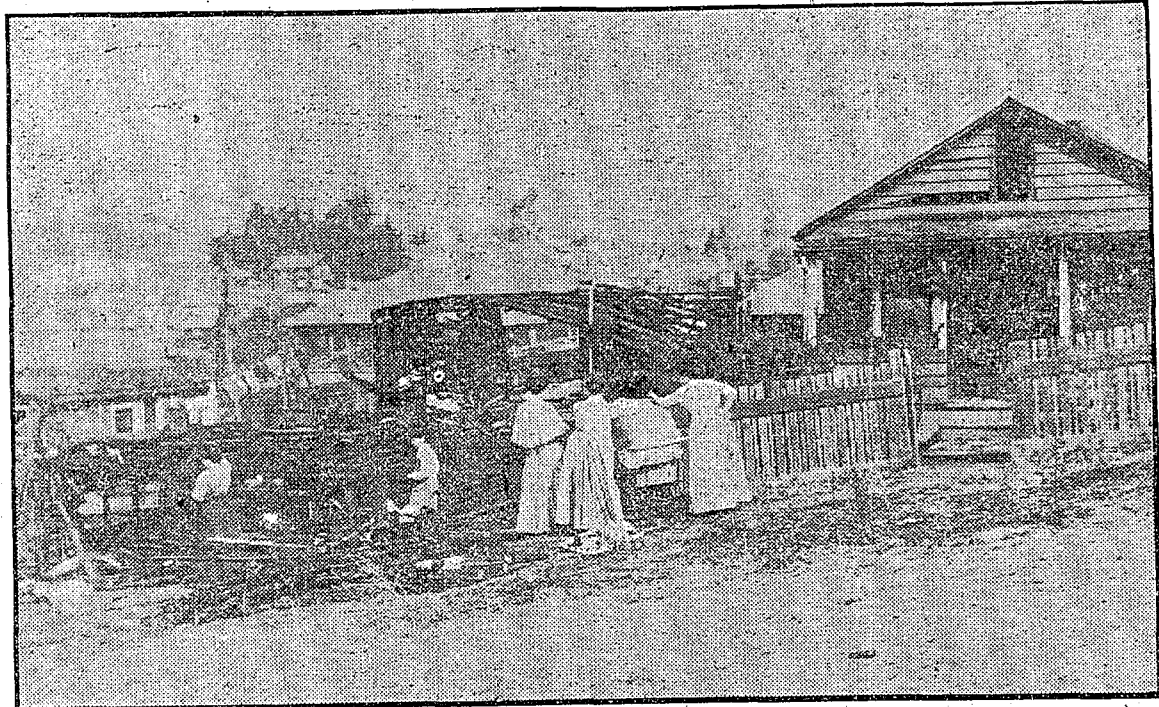

The committee also considered letters from the California Paint Company protesting against the peremptory order of removal for the door company, and from W. V. Kellogg of that company, thanking the committee for the interest taken in its behalf.

## LEGORIO MAY NOT STAND TRIAL

Future Course of Police in the Premises Rests With Girl's Relatives.

Announces His Willingness to Marry His 15-Year-Old Victim.

The fate of Mario Legorio, now being detained by Captain of Inspectors Walter J. Petersen in the city prison, will be decided at a conference to be held late this afternoon by the relatives of Miss Hilda Anderson, the 15-year-old Berkeley girl whom the man is alleged to have led astray. Legorio has offered to marry the girl, and this afternoon it will be decided whether this will be permitted, or whether the relatives will swear out a felony warrant charging him with a statutory crime. It is neither of these courses he taken. Captain Petersen declares he will release Legorio from custody.

Miss Jennie Whitman, the young woman who assisted Legorio in playing the Berkeley girl with liquor prior to taking her to the Barbary Coast of San Francisco, and who is alleged to be jointly responsible with Legorio for taking her to a San Francisco lodging house, is still being detained by the Oakland police. The technical charge of vagrancy will in all probability be lodged against her at the instance of Captain Petersen.

That the niece of the Rev. Alvin W. Anderson of Berkeley was to be made a victim of the white slave traffic seems entirely possible to the police from the facts brought to light by the police investigation, but as no coercion was used, and the child was not actually placed in any house of ill repute, the affair does not come within the statutes governing this matter.

Hilda Anderson has been known to the Berkeley police since she was 12 years of age, on account of petty thievery.

She confessed July 31, 1908, to ordering fruit and groceries from S. J. Hill's store in that city and having the goods charged to fictitious persons and addresses. She was known then as Margaret McNeill and was a pupil in LeConte school.

She admitted having previously stolen articles from a 5 and 10 cent store in Oakland.

On July 13, 1909, in company with another young girl named Isabelle McCall, she stole \$2.10 from the till of W. P. Young, 2208 Alameda way, and on August 11 following, was sentenced by Judge Frank Ogden of the juvenile court to the Alameda training school, in Alameda. Later she escaped from that institution. Her parents left this city some time ago.

## CHAMBER OF COMMERCE GETS CANAL INFORMATION

The Oakland Chamber of Commerce has received information through the California Home Industry League that proposals to furnish lumber for the Isthmian Canal commission will be received by the eighth department of the Interior on the 10th of November. The specifications call for several million feet of either long leaf yellow pine or Douglas fir. Oakland bidders are asked to enter into competition for these extensive government contracts, if possible.

REV. COUPER AT SACRAMENTO. ALAMEDA, Oct. 27.—The Rev. Everett W. Couper, rector of Christ Episcopal church, is attending the missionary council of the eighth department of the Episcopal church at Sacramento. The eighth department includes fourteen dioceses and takes in the Pacific Coast, Alaska and the Pacific Isles.

## MAYOR MOTT IS ONCE MORE HONORED

Chosen Vice-President of California League When He Declines Presidency.

Professor Corey of the State University Delivers Address to Delegates.

SANTA BARBARA, Oct. 27.—A. E. Dodson of San Diego was elected president of the California League of Municipalities today. Dodson was nominated and chosen after Mayor Frank K. Mott of Oakland had declined the office on account of the amount of work involved. Mott was elected first vice-president.

Mayor George W. Stone of Santa Cruz was chosen second vice-president, and Secretary H. A. Mason of San Francisco was re-elected by acclamation. W. M. Locke of San Francisco was chosen as Mason's assistant.

W. P. Butcher, city attorney of Santa Barbara, whose speech several days ago in denunciation of the constitutional amendments adopted at the recent special election started the convention, declined the nomination as one of the vice-presidents. He was not in sympathy, he said, with views of President Dodson, who favors commission government for cities.

Prof. C. L. Cory of the University of California spoke on "Municipal Electric Lighting Systems." He presented a discussion on principles of accounting desirable for public utilities and gave concrete analyses of the costs of providing electric service, primarily for residence lighting.

Professor Cory pointed out that in the state of Wisconsin the railroad commission has practically the same control of the construction, operation and rates of service in connection with municipally owned public utilities as with those privately owned. He maintained that by using proper methods of investigating and classifying costs it is possible to give the best service to the people at rates which shall as nearly as possible cover the cost of service to each consumer.

## Clubman Sentenced To Five Days in Jail

SAN FRANCISCO, Oct. 27.—The failure of Leo Hirschfeld, a local society and club man, who formerly resided at St. Francis hotel, to pay his wife alimony, resulted in his sentence today to five days in the county jail for contempt of court.

A deputy sheriff, armed with the findings of Judge Van Nostrand, will begin a search for Hirschfeld, who was ordered to pay \$100 monthly to his divorced wife, Mrs. Carrie Hirschfeld, and who was cited to appear this morning to show cause why he should not comply with the order. His failure to be on hand resulted in the sentence being imposed.

## TO GIVE CONCERT ON EVE OF HAWAIIAN TRIP

UNIVERSITY OF CALIFORNIA, Oct. 27.—In preparation for a trip to Honolulu of the eighth department of the Interior, a mandolin club will give an entertainment at the Berkeley High school auditorium on the evening of November 17.

BOYS' BRIGADE REUNION. ALAMEDA, Oct. 27.—Company A, Boys' Brigade, of the First Presbyterian church, will hold a reunion in the parlors of the church this evening. Strenuous views taken during the recent outing of the boys in Sonoma county will be shown. Parents are invited to attend.

## PRESIDENT ON LAST LAP OF TRIP

"Swing Around the Circle" as First Planned Ends in Pittsburg.

Tomorrow Taft Enters Upon Strenuous Three Days in Chicago.

MILWAUKEE, Oct. 27.—With his departure from Milwaukee for Chicago today, President Taft practically brought to an end the last leg of his "swing around the circle," as it was originally planned at Washington and Beverly. Tomorrow the President will start in on a strenuous three-day program at Chicago and on Tuesday he will wind up the original trip to Pittsburg, the engagements that he has made following that being quite distinct from those of the present journey.

In the forty-one days that Mr. Taft has been on the road he has made, according to the official stenographers, more than 250 speeches and has discussed all sorts of subjects. Most of the speeches have been short, not more than 300 or 400 words in length each, but there have been more than a score of set addresses that have reached a length of 2500 or 3000 words.

SUBJECTS MANY. The tariff, the vetoes of the woolen, farmers' free list and cotton bills, the tariff board and its composition, the relation of government to business, reciprocity—in the early stages of the trip—peace and arbitration have been the main topics that the President has used, but on many occasions he has turned to farming, to the operations of the government departments, conservation, the public domain and other questions in the public eye.

Mr. Taft has spoken to all sorts of crowds. Some of them have run over the 100,000 mark; others have been closer to 100. Through it all the President has kept in fine voice and only once or twice has it become even dusky in spite of the strain on it. Today Mr. Taft looks almost as fresh when he stepped out on the platform of the "Ideal" to say good-bye to Boston on September 15.

RESTS AT HOT SPRINGS. With five days' rest at Hot Springs, Va., ahead of him, he is expected to get back to the Capitol in practically as fit condition as when he started on the trip.

The President's day in Milwaukee included luncheon with 1500 employers and employees of Milwaukee factories and an address.

## DENISON IN ATTENDANCE AT STATE CONFERENCE

Secretary A. A. Denison of the Chamber of Commerce is today representing the city at the state conference of Charities and Corrections which is being held in San Francisco, at the First Unitarian church, the latter part of this week. He will also attend the meeting of tomorrow night when the speaker will be Francis H. McLean of New York, executive secretary of the National Association of Societies for Organizing Charities.

McLean is a former Oakland newspaper man.

HURT BY FALL. BERKELEY, Oct. 27.—Richard Harris of 2515 Grant street, was found unconscious beside the car tracks on Grove street, near Alameda way, late last evening, after he had fallen into an excavation in alighting from a car. He was treated for bruises at Roosevelt Hospital.

## 1100 KILLED IN BATTLE AT TRIPOLI

Turks and Arabs Lose More Than Thousand in Big Engagement.

Italian Casualties Total About One Hundred Dead and Wounded.

TRIPOLI, Oct. 27.—A report from an Italian source, recounting the battle of yesterday, places the Turkish and Arab losses at more than 1000 killed and a large number wounded, and the Italian loss at 100 dead and wounded.

LONDON, Oct. 27.—Four hundred Italians were killed or wounded in the fighting around Tripoli on Monday and Tuesday, according to a news agency dispatch received here from Tripoli, which escaped Italian censorship.

The situation at Tripoli, the dispatch adds, is serious. European residents feel that a holy war has been proclaimed by the natives.

ROME, Oct. 27. (Via frontier).—All reports concerning the possibility of an armistice between Italy and Turkey are discredited in official circles, which affirm, on the contrary, that Italy is determined not to cease her military operations until Tripoli is wholly conquered.

MALTA, Oct. 27.—Uncensored information from Tripoli is to the effect that something in the nature of a panic has seized the city since it became known that a Muselman force of 60,000 Turks and Arabs is threatening Tripoli. The force is well armed and provisioned.

The attack was made before daybreak and took the Italians by surprise. The Arabian and Turkish cavalry threw themselves against the entire Italian line, which was formed in a semi-circle behind the city, the ends extending to the seashore.

The Turks put their whole strength against the Italians, which they succeeded in smashing, but the Italians held and drove back the enemy, inflicting heavy losses.

The Turkish horsemen and foot soldiers displayed remarkable bravery. But for a premature attack by a party of musketeers on last Monday, the Italians would have been ambushed, completely surrounded and few would have survived, so numerically superior were the Turks and Arabs. In the subsequent revolt in the city the Italians suffered more than 150 casualties before they gained the ascendancy. From forty to fifty Arabs are shot daily in the town.

## FARRELLY CASE ORDERED PROBED

Court to Investigate Before Matter Is Again Taken Up for Consideration.

SAN FRANCISCO, Oct. 27.—Suspending further proceedings in the case of Patrick Farrelly, who shot James A. Holland in the city prison, and ordering an investigation of the two cases to be made by the District Attorney, Superior Judge Dunne this morning put himself on record in the matter. Farrelly was up for arraignment for a new trial and in arrest of judgment having been denied, Attorney O'Dea entered a plea for probation. He began to expatiate on the fact as alleged, that when Holland was shot by Farrelly the latter was fired by the outrage which he claimed has been committed upon his wife by the man locked up in prison charged with a felonious assault.

"I do not think this man is guilty of that charge," said Judge Dunne, referring to Farrelly. "He may be guilty of something, and he certainly ought to be punished, but this is a serious accusation, and there are peculiar circumstances here and I think we ought to go slow in prosecuting this man on this grave accusation."

"I will therefore continue the motion for probation until a week from Saturday, and meantime I instruct the District Attorney to investigate both of these cases and try to get at the truth of these matters."

The court also referred to Holland being held to answer for the statutory offense, saying that he believed that proper inquiry had not been made.

Holland was brought here from Los Angeles by a decoy telegram sent by Mrs. Farrelly, and it is claimed admitted in the presence of the husband and wife, that he had committed an assault upon the latter two years previous. Farrelly then arrested him, took him to the Central Station and had him booked. The next day, learning of the repudiation of the offense, he went to the jail with a derringer concealed on his person and shot him. Mrs. Farrelly's testimony was to the effect that the assault upon her had been made by Holland on two separate occasions.

## Cherokee Bill, Always Votes and Always Will

GRAND JUNCTION, Colo., Oct. 27.—The oldest voter in the state of Colorado and probably the oldest voter in the United States, registered yesterday for the city election. He gave his name as Cherokee Bill, aged 116, and declared that he has no other name than the one given.

## HUMORS OF THE SUFFRAGE CAMPAIGN IN THIS STATE

Colonel John P. Irish Reviews Recent Struggle in California For and Against Votes for Women

By JOHN P. IRISH

The suffrage campaign was fruitful of incidents bearing upon the issue itself. The result has been followed by a wave of slander by the suffragists, which is also admonitory. The earliest public expression against woman suffrage was in an interview or a letter by Mrs. Wattles of Berkeley. It was so sound and unanswerable that the suffragists engaged the Rev. Chas. F. Aked to make a reply. His reply consisted in using insulting language toward Mrs. Wattles. Her argument was made no attempt to answer. This affair roused the women and they organized the Women's Anti-Suffrage Association of Northern California," of which Mrs. Goddard was elected president. She contributed \$500 to start the movement and the distribution of tracts and documents began.

FRENZIED BY OPPOSITION. The suffragists were frenzied by this opposition, and at once charged that it was financed by the liquor interests. Their slanders gained in venom and intensity as the contest progressed. But their fears were awakened and they rushed into an alliance with the Socialists and put into the field every available Socialist speaker. These were re-answered by a very large number of clergymen, Catholic, Protestant and Jewish, and it began to look as if the anti-suffragists would be snuffed under. When I entered the contest against suffrage I expected it to carry by 50,000 majority, and at the end was prepared to see it succeed by 25,000.

As the fight progressed it became every day clearer that the women seeking the suffrage, and leading in the fight for it were far astray from their natural element. It was plain that the nervous organization of women is not tuned to the sense of "war" and that in the last half century I have taken part in a majority of the states, in the hottest political battles this republic has passed through, and have faced men, giving blows and taking them. In that experience I never saw such deplorable and demoralizing conduct as that of the women who were seeking suffrage. Though they demand equality in all things, respect for womanhood has a real characterization of their conduct.

THEIR ANSWER TO ARGUMENT. I hope never to see men plunge into the depths to which these women descended, for then there would be little hope of the saved of "war" and the life would be preserved. Their answer to sober argument was "You are a liar!" "You are an illiterate old fool!" and one well dressed fury yelled in a crowd that she would "like to take a shot" at me. They became wild and shook their heads. Their conduct was in great contrast with that of the women of the anti-suffrage organization, who felt a call to defend their sex and themselves, and standing on their natural ground and behind their natural defenses, carried themselves as women and heroines every one.

It is not to be denied that they were sometimes stung by the turbid torrent of abuse that poured upon them. The suffragists infused into some of their male allies and advocates the same venom they carried themselves. This was notably the case with the Rev. Chas. F. Aked, who in a discussion before the Unitarian Club called a gentleman who had preceded him, a liar. For this he was denounced by the present, but the suffrage women applauded him.

## 8-Hour Law for Women Plays Hob With Ranchers

SANTA BARBARA, Oct. 27.—The eight-hour law for women and a decision of State Labor Commissioner McLoughlin, received today, that children cannot work in the orchards during school terms, worked havoc with plans for harvesting the walnut crop in this county. The announcement of the law restrictions was given to the Walnut Growers' association at a special meeting held here today.

## Suffragists Plan Boxing Bouts; Women to Attend

NEW YORK, Oct. 27.—Women, many of them leading suffragists, will occupy the choicest reservations at the boxing bouts in the Long Acre Athletic Club here tonight. The program was arranged by the Woman's Progressive Political League and is believed to be the first affair of its kind ever prepared by women. Every seat was sold early in the week, all with the condition that no woman attend without an escort. Tom Sharkey and Gus Ruhlin, one-time contenders for the heavyweight crown, will meet in a short exhibition with Robert Fitzsimmons as referee. The main bout will be between Al Palzor of New York and Ray Simmons, a Boston heavyweight.

## 'Fight Uniform Divorce Law Until We Vote,' Is Order

NEW YORK, Oct. 27.—"Until the enfranchisement of women, we call upon all women to oppose the idea of a uniform divorce law," reads a section of the platform adopted by the women's suffrage party of New York at its third annual convention here. The clause adds that such legislation at this time is opposed because such a law enacted now "would be made by men only and would therefore necessarily discriminate against women."

## Bandits Dynamite Safe; Escape With Large Sum

SHAWNEE, Okla., Oct. 27.—Robbers attacked the town of McComb, several miles from here, today, cut the telephone and telegraph wires, then blew open the safe in the town bank. They got a large amount of money and escaped before a sheriff's posse could head them off. Men are on the robbers' trail.

## E. B. JEROME DIES ON WHALING BARK

Son of Late Chief Clerk of the Customs House Passes Away.

SAN FRANCISCO, Oct. 27.—E. B. Jerome, eldest son of the late chief clerk of the custom house, E. B. Jerome, died at sea on the whaling bark Gayhead on May 1 of this year, and was buried at sea on the same day. The facts were reported to the custom house yesterday by Captain J. A. Wing, master of the bark. In explaining that Jerome, one of his crew, was missing, Jerome was a grandnephew of Colonel Edward D. Baker, who was at one time United States senator from Oregon, and who was killed at Ball's Bluff while leading his command against the Confederate line in 1861.

Jerome was well known in this city, where he resided for many years, and the news of his death came as a great shock to his hosts of friends here.

## DE LA BARRA DENIES HE IS ON WAY TO TAFT

LITTLE ROCK, Ark., Oct. 27.—Denying that his trip from Mexico City to the United States has political or diplomatic aspect, and declaring that if he sees President Taft it will be merely a personal call, Louis De La Barra, who passed through Little Rock today, denied any knowledge of reports that he came to this country to make overtures to President Taft in behalf of Francisco I. Madero.

## If You Have Rheumatism—

There are many remedies for rheumatism. Most of them are considered successful if they relieve the pain and stiffness. That means a temporary suppression of the symptoms while the disease remains in the blood to appear again on the next damp or rainy day.

In rheumatism the blood becomes thin. Until it is made rich and red again the rheumatism will prevail. Strengthen the blood with Dr. Williams' Pink Pills for Pale People and it will throw off the rheumatic poison and the disease is cured.

Keeping the blood in good condition with this remedy, will prevent rheumatism even in those who are subject to it.

Mr. George M. Glading, of No. 5128 Trinity Place, Seattle, Wash., a member of Modern Woodmen of America, and a former resident of Detroit, Mich., says: "Through the effects of a run-down system together with chronic rheumatism I was obliged to entirely stop work and in a short time was in such a state that stomach trouble was added to my afflictions. I had the services of two prominent physicians, who after months of attendance recommended that, as I had a good home only a short distance away and was insured in a fraternal order, it was best to go home for care the few remaining days or weeks I had to live and let my lodge bury me when I died. By this time I had become entirely paralyzed. I knew something was radically wrong in their treatment and having a judgment of my own and no desire to quit life, I secured a dozen boxes of Dr. Williams' Pink Pills for Pale People and commenced their use at once. I was met by a delegation from the lodge, taken home and nursed with me. The family physician agreed with what the Detroit doctors had already stated, yet aided me as much as possible. I mentioned taking the pills to him and he said to continue their use. For two weeks it was a life and death struggle between paralysis and Pink Pills, then life returned first to my feet and then all along my body until after six weeks of steady use of the pills I was able to walk across the room and six weeks later was doing light work. That was eight years ago. Today I work longer and harder than any man I employ. So this is why I have faith in Dr. Williams' Pink Pills for Pale People to reach desperate cases and why I take pleasure in recommending them."

If you have rheumatism you have to make the choice whether to keep on with remedies that simply relieve or to try the one which cured this case and thousands of others.

A new edition of our booklet, "Diseases of the Blood," will be sent free on request to anyone interested.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50c per box; six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

## CONFESSIONAL DEFENDED, REV. BERTRAND CONWAY

Paulist Father Takes Up Answers to the Arguments by Non-Catholics Against the Sacrament of Penance

BERKELEY, Oct. 27.—Speaking on the forgiveness of sin at Newman hall last evening, during the week's mission which he is conducting with Rev. Thomas Burke, Rev. Bertrand Conway, a Paulist father, defended the confessional, declared that the practice of confession was instituted by Jesus Christ and that it has practical value in making sin difficult. A large audience heard the lecture, which was as follows:

"Sin is the one great evil that confronts us. It is the power which wins men away from all that is pure and good and holy, which entices men from the services of God and the standard of Jesus Christ, to join, under the promises of pleasure, the service of Satan, and the standard of hell."

**FATHER CONWAY'S ANSWERS.**  
Father Conway then took up the arguments against confession brought forward by non-Catholics. The following specified questions often asked by them he answered as follows:

"Why not go to God directly? Because it is not the way established by Christ. Why does not a soldier report to his general? Because the army regulations demand that he report to his immediate officer. Why not pay our taxes to the President? Because it is not the law."

"How can a sin be pardoned by merely telling it? It cannot be. Forgiveness is only given to those who repent for the past with a supernatural sorrow, promising never to offend again, and to go out the evil done and to avoid in future all danger of sinning."

"Judas confessed his sin, but unrepentant, he did not obtain forgiveness. He was crucified. Confession is natural to the human heart. In this lies the beauty and the power of all true friendship, that a man can tell all his secrets to a friend."

"It is the joy and comfort of every Catholic priest to know at the hour of his absolution that he is saving a soul from wandering far from Christ's love, and led back to the sweetest of the Saviour's pardon in His Sacrament of mercy."

**COMMANDED BY JESUS CHRIST.**  
"The Catholic," he said, "confesses his sin to a priest because Jesus Christ commanded him to do so by the institution of the sacrament of penance. The Saviour gave the power to pardon sin to his apostles as clear from John XX, 21-23. 'As the Father has forgiven all sins that he will forgive them on earth, so he will forgive them in heaven.' When He said this, He breathed on them, and He said to them, receive ye the Holy Ghost. Whose sins you shall forgive, they shall be forgiven, and whose sins you shall retain, they are retained."

"I frequently pardoned sinners their offenses—Maddalen, the woman in adultery, the thief on the cross, the man sick of the palsy, etc. In the instance He insisted on the power of forgiveness of the Son of God, despite the objection of the scribes and Pharisees. He said to them, 'Why do you accuse of blasphemy, and performed a miracle to prove it. Remembering then, that Christ was the Son of God, and that His mission was the salvation of sinners, the meaning of His words is evident.'"

"Did we not know the wonderful power of prejudice to read into the Scriptures their own false views and theories, we could not understand why any believer in the word of God could deny that Jesus Christ gave to the apostles the power of forgiving sin in His name. Indeed, the Scriptures are so clear that some have granted that the apostles had the power of forgiving sin, but they held that this power died with them. But this is unreasonable. Useless, indeed, would have been so mighty a power if its exercise were to be limited to the sinners of the first century. No. As long as sin will last—that is, until the end of the world—so must this God-given remedy for sin exist."

**CATHOLIC VIEW ILLUSTRATED.**  
"The Catholic interpretation of the 26th chapter of Matthew, he pointed out, is more clear to you by a comparison. Suppose today that in a prison of the Philippines a number of prisoners convicted of various crimes under the Spanish rule were still confined and that there was question of their justice or the exceeding severity of their sentences."

"President Taft, informed of this, determines to send to Manila 12 commissioners to look into the case. They are charged with the duty of looking into the charges made. You hear him say in the White House to these 12 men: 'All wrongs done in this prison shall be given me by the people of these United States. As they have chosen me to represent them, so I now choose you to act in my name and with my authority.'"

"President Taft possesses the pardoning power. Receive your pardon, your commission; whose crimes you shall pardon, they are pardoned by me; whose crimes you shall not pardon, they are not pardoned by me."

"What would, honestly, be your inference from these words? At once you would say that these 12 men had received from the President the power of pardoning; that they had sole and absolute control of the criminal cases in question, and that the power of all other judges immediately ceased on their appointment; that their power could not be rightly exercised without a thorough investigation of each and every case; that their authority would last until the President, or 'not guilty' had been pronounced."

"But, some one will object, 'it is not blasphemy to declare that a mere man can forgive my offenses against God.'"

"Catholics do not confess to any man, but only to a priest, whom we believe to be the dispenser of the power of God. (I Cor. IV:1.) The priest does not forgive as man, but as the representative and the ambassador of Jesus Christ."

"This, indeed, is the very objection urged against our Saviour when He forgave the sins of the paralytic (Mark II:12). 'Why, said the Jews, does this man speak thus? He blasphemeth. Who can forgive sins but God only? The Pharisees and the Jews said, 'He is guilty of blasphemy, because he says, 'I am the Son of God.'"

"The Catholic priest undoubtedly claims the right to lay down the moral law authoritatively in the sacrament of penance, and to enforce obedience to it under penalty of the denial of absolution. It is the power to forgive sins in the name of Jesus Christ, and to advise, warn, encourage and help souls in their daily struggle against sin and temptation. He has no right to pry into your private affairs, or to interfere in family matters; he has no right whatsoever to question you unless with regard to sin or the danger thereof."

"Do you object to the interference of the state when, in the best interests of society, it enforces the law against criminals? Then you should object to the Catholic priesthood when it enforces the laws of Christ against evil and the evildoer."

**FLESH REBELS.**  
"We know perfectly well that human nature is weak, and human passions strong; that the world of sinners and women is full of temptations; that the flesh rebels against the spirit (Rom. vii:23), and the devil does his best to tempt us (But if we yield to these temptations it is not in virtue of the sacrament he has received, but because he is failing to keep his promise he made to God to sin no more."

"We are willing also to grant that there have been abuses; that Catholics go to confession in a mechanical way, without the dignity and sacredness of this divine sacrament. But is that good thing, the world that sinful man has not some times abused? The sacrament of matrimony, intended to sanctify and bless the union of man and woman, has often been made a mere tool for worldly advantage or a mere instrument of lust, as divorce statistics show."

"The history of the sacrament of penance is proof positive of its being one of the greatest incentives of virtue. The world knows of no other sacrament which during these nineteen hundred years if it were indeed an incentive to sin? Would millions of the most intelligent men and women still bend the knee? It is impossible to think so."

**GUIDE TO THE DOUBTING.**  
"The sacrament of penance is a guide to the doubting, a comfort to the afflicted, an encouragement to the weak, a warning to the young, a strong arm to the wavering, an adviser to the ignorant, a menace to the hardened sinner, a joy to the truly repentant; it is Jesus Christ speaking to the world through the priest. It is a sacrament of the most intimate and personal life. It is a sacrament of the most intimate and personal life. It is a sacrament of the most intimate and personal life."

"Why, sometimes non-Catholics, tormented by the anguish of an unconfessed sin, have desired to receive the sacrament and, finding this impossible, have created the privilege of the 'Confession Box' and the 'Confession Machine' and the 'Confession Booth' and the 'Confession Kiosk' and the 'Confession Stand' and the 'Confession Counter' and the 'Confession Table' and the 'Confession Bench' and the ## SURELY SETTLES UPSET STOMACHS

Indigestion, Gas, Sourness or  
Dyspepsia Vanish in Five  
Minutes.

Every year regularly more than a million stomach sufferers in the United States, England and Canada take Pepp's Diapiesin, and realize not only immediate, but lasting relief.

This harmless preparation will digest anything you eat and overcome a sour, gassy or out-of-order stomach five minutes afterwards.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion. Go from now on, then, to a 50-cent case of Pepp's Diapiesin and take a dose just as soon as you can. There will be no sour rising, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach. Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pepp's Diapiesin is a certain cure for out-of-order stomachs because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery, is waiting for you at any drug store.

These large 50-cent cases contain more than sufficient to thoroughly cure almost any case of Dyspepsia, Indigestion or any other stomach disorder.

## TURN VEREIN TO GIVE EXHIBITION

Gymnastics and Concert to Be  
Features of Evening's  
Entertainment.

Members of the Oakland Turn Verein are making great preparations for the concert and gymnastic exhibition to be given on Sunday evening, November 5, at Germania hall, 834 Webster street. Professor G. Albrecht, who recently returned from Germany, will conduct the male chorus. R. Guber will have charge of the gymnastic exhibition on the parallel bars and John Schmidt will direct the wind drill, which will include an entirely new feature. Dancing will conclude the evening's program. L. Grellike, who is devoting much of his time to make the affair a success, is secretary of the organization.

## ADVENTISTS CHOOSE DATES OF CONFERENCE

WASHINGTON, Oct. 27.—Dates and places for the holding of meetings of union conferences were fixed by the general conference of Seventh Day Adventists now in session as follows:

Pacific Union Conference, composed of California, Nevada, Utah and Arizona, Los Angeles, Cal., February 1-15; Western Canada Union Conference, composed of Manitoba, Alberta, British Columbia and Saskatchewan, Calgary, Canada, March 6-19.

## SHE GOT WHAT SHE WANTED

This Woman Had to Insist  
Strongly, but It Paid

Chicago, Ill.—"I suffered from a female weakness and stomach trouble, and I went to the store to get a bottle of Lydia E. Pinkham's Vegetable Compound, but the clerk did not want to let me have it—he said it was no good and wanted me to try something else, but knowing all about it I insisted and finally got it, and I am so glad I did, for it has cured me."

"I know of so many cases where women have been cured by Lydia E. Pinkham's Vegetable Compound that I can say to every suffering woman if that medicine does not help her, that is nothing that will."—Mrs. JANETZKI, 2963 Arch St., Chicago, Ill.

This is the age of substitution, and women who want a cure should insist upon Lydia E. Pinkham's Vegetable Compound just as this woman did, and not accept something else on which the druggist can make a little more profit.

Women who are passing through this critical period or who are suffering from any of those distressing ills peculiar to their sex should not lose sight of the fact that for thirty years Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs, has been the standard remedy for female ills. In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

## WIRELESS FLASH FROM HYDROPLANE

Communication Without the  
Ground Connection to Be  
Tried Out Soon.

MARE ISLAND, Oct. 27.—With a Curtiss hydroplane model swung 250 feet in the air between the wireless masts at the navy yard, Chief Electrician H. E. Morin and G. S. Whitman, formerly attached to the cruiser West Virginia, are preparing to demonstrate in a few days that wireless communication can be established in the air independent of ground connections, and hope to be able to show that they have an apparatus which will revolutionize the methods of field and naval telegraphy.

Following the experiments at Mare Island, Glenn Curtiss has contracted to install the wireless machinery on his hydroplane at San Diego and give a practical demonstration of its value. The death of Eugene Ely interfered with the plans of the inventors, as the dead aviator was to have handled the equipment for one year.

When the test is made both Morin and Whitman will be in the hydroplane and they expect to exchange messages with the Farrallone Islands, Point Loma and Table Bluff.

Under present naval regulations, the inventors will be forced to furnish the navy with models of their invention, but the army will have to pay a royalty for its use.

## SIX NEAR DEATH IN AUTO CRASH

Unhurt.

SAN FRANCISCO, Oct. 27.—While riding in an automobile in Golden Gate park, Mr. and Mrs. George Dale of Taylor and Pacific streets; Mrs. O. H. Fernbach of 119 Ninth avenue, Richmond district; Frank Bond of 411 Clayton street, Mr. and Mrs. Edward Chase of Twenty-third street were severely injured at 4 o'clock yesterday afternoon when their machine turned turtle.

The accident, which happened in the main drive near the chain of lakes, was caused by a collision of the machine with a limousine car in which seven convalescent children from the new Children's hospital were being given an outing. Aside from being severely cut by broken glass, the children escaped injury.

PINNED UNDER MACHINE.  
Chase was pinned under the automobile and it was half an hour after the accident before the weight of the touring car was lifted from him. It was necessary to send to the Golden Gate life-saving station near the Cliff house, a considerable distance to get rigging and jacks before the automobile could be lifted sufficiently to drag him from his position. His chest was crushed and he suffered probably internal injuries.

Other passengers were more fortunate in their escape. Mrs. Chase was thrown some distance from the machine and was badly bruised about the head and body. Mrs. Dale had a collarbone broken, while Mrs. Fernbach severely bruised. Dale also was slightly injured. The chauffeur escaped by jumping as the machine went over.

AUTOS AS AMBULANCES.  
Passing automobiles hurried the injured persons to the new Children's hospital, 3700 California street, where Dr. Walter J. Terry and Dr. J. B. Nichols attended the injured. The doctors were of the opinion that all but Chase would enjoy quick recovery, it being possible that complications may arise in Chase's case from internal injuries.

The seven children were badly frightened, besides being cut. They were in W. E. Travis' limousine, which had been put at their disposal for the afternoon through the kindness of a woman residing at the Fairmont hotel. The limousine was badly shattered by the force of the collision.

Mrs. Fernbach and Mr. and Mrs. Dale were later removed from the hospital to the Fernbach residence.

## SON OF MILLIONAIRE JAILED FOR ROBBERY

BELLINGHAM, Wash., Oct. 27.—Fred Nolte, the 16-year-old son of George Nolte, a millionaire banker and logger of this city, lies in the Whatcom county jail, charged jointly with a companion, T. Jeffrey of New York, president of the Stanbra store of this city.

Nolte and his companion, Oscar Amielson, were arrested at Mount Vernon while riding on a blind baggage. When they were searched at the police station several revolvers and pieces of cutlery bearing the name of the Bellingham merchant were found upon them. When it was learned that the Stanbra store had been robbed, both boys were returned to this city, where, under assumed names, they have been held awaiting a hearing.

## KINGDON GOULD PAYS VISIT TO STOCKTON

STOCKTON, Oct. 27.—Kingdon Gould, son of George Gould and a heavy stockholder in the Western Pacific, visited Stockton yesterday, accompanied by E. T. Jeffrey of New York, president of the road. The party arrived here in the morning at 9:30 o'clock in a special train. They remained here an hour and a half and were taken on an automobile tour of the city. Superintendent E. W. Mason of Sacramento and Chief Engineer T. J. Wyche of San Francisco accompanied the party.

## INITIATION OF JOHNSON AROUSES BIG PROTEST

LONDON, Oct. 27.—The recent somewhat hurried initiation of Jack Johnson, the negro prize-fighter, into a Masonic lodge of Dunfermline, raised a storm of protest throughout the country. The Grand Lodge of Scotland, presided over by the Marquis of Tullibardine, has ordered a searching inquiry into the matter. The Dundee lodge, the lodge of the Grand Lodge, and maintain that Johnson is as good as any Scotchman.

ASKS FOR PROMOTION.  
WASHINGTON, Oct. 27.—Major General William H. Carter, assistant chief of staff, has asked that he be appointed commander-in-chief of the central division, with headquarters at Chicago, a post now temporarily filled by Brigadier General Ramsay D. Potts.

## MILLIONAIRE'S DAUGHTER ELOPES

Marie Cruse Divorces Society  
Leader and Runs Away  
With Miner.

HELENA, Mont., Oct. 27.—At the risk, friends claim, of being disinherited by her multimillionaire father, Thomas Cruse, Miss Marie Cruse, who a few months ago obtained a divorce from Alvar O'Brien, a New York society leader, upon the ground of non-support, yesterday eloped with Harry C. Cotter, a Butte miner, and was married at Boulder, a pleasure resort near Helena. The first news of the elopement did not reach Helena until last night, when the proprietor of the hotel at Boulder telephoned the bride's father, informing him of the wedding.

The aged millionaire confined himself to his room and refused admittance to reporters. Friends of the bride, attaches of the Cruse home, and her custodian claims, however, that she will be disinherited by her father, who accumulated his wealth in mines about Helena.

Shortly before his wife filed suit for divorce, O'Brien left for New York, but remained there only a few weeks, when he returned to Montana. Since his return he has been employed as a cowboy on a ranch in Eastern Montana.

Although Mrs. Cotter was born here, she has spent little time in Helena, having resided principally in New York, where she is widely acquainted in society circles.

## NATION TO KNOW FLEET'S STRENGTH

Mobilization to Be the Test of  
Efficiency. Says Sec-  
retary Meyer.

MARE ISLAND, Oct. 27.—Declaring that he has ordered the mobilization of the Pacific and Atlantic fleets to demonstrate to the nation the effectiveness of the American navy, Secretary of the Navy George von Meyer has issued the following statement to naval officers concerning the maneuvers to be held jointly on the two coasts:

"On October 31 and November 1 there will be mobilized in New York harbor for inspection and review the most powerful aggregation of fighting ships ever assembled under the American flag. Rear Admiral Osterhaus will have under his command 102 warships, from the dreadnoughts to the smallest gunboats. At the same time the entire strength of the Pacific fleet will be assembled at Los Angeles under Rear Admiral Chaucey Thomas.

The purpose of the mobilization, unprecedented in American history, is twofold. Primarily it is to show the preparedness of the fleets, and the defects, if any, personnel and material.

"The mobilization was ordered on comparatively short notice, less than thirty days. The ships were scattered after a year of hard work, many of them undergoing repairs.

"Making all the ships ready for the great assembly will be a splendid test of the navy.

"Secondarily, the mobilization is for the benefit of the nation. I want to bring the navy closer to the people. I want as many people as possible to see the fleets assembled in their greatest strength."

## TAFT CAMPAIGN IS ORGANIZED IN NORTH

PORTLAND, Ore., Oct. 27.—Formal organization of a committee to conduct the campaign of President Taft to designate the preferential candidate for the Republican nomination to the Presidency at the Oregon primaries next spring, occurred here yesterday. State Senator Ben Selling was chosen president of the committee and John F. Logan, an attorney of this city, was elected secretary.

## OAKLAND'S BOYS AND GIRLS

## CADET CORPS BAND ORGANIZED FOR THE YEAR

RAYMOND ABERNATHY.

The military brass band of the First Congregational Cadet Corps has been organized under the leadership of E. B. Jordan of Stewart's Orchestra, and held its third meeting recently in the concert room of the First Congregational Church with twenty-five members present.

The band is under the management of Frank Epperson, one of the musicians of the Cadet Corps, and will be limited to 25 members. A splendid chance for boys of 16 or so to receive musical training at no cost is offered. A few more alto horns are needed and any boy who desires to join may do so by seeing Frank Epperson tomorrow evening at the Cadet Armory on Market and Eleventh streets.

Alexander T. Stewart, a professor of music and leader of the First Congregational Church choir, is backing the newly formed band.

## CADETS TO GIVE HOPS.

The popular semi-monthly dance of the First Congregational Cadets will be held on the evening of November 2 at the Cadet Armory. The invitations for this dance will be limited to 200 persons instead of 300. The dance committee has arranged a program of fourteen dances, four extras and an "off." The hall will be beautifully decorated for the occasion with flags and colors by the decoration committee.

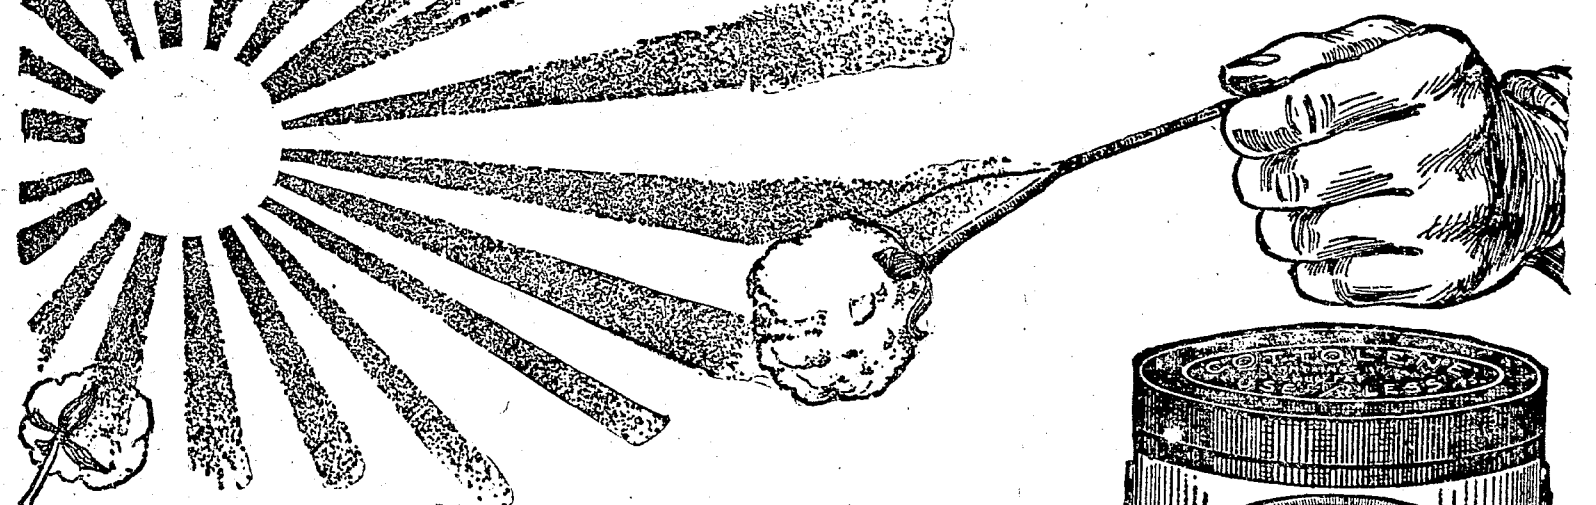

A prominent orchestra has been secured and a special lighting feature has been added.

The next dance following this will be held in the early part of January, 1912.

# Cottolene

## Makes Sunshine Food

**The Dyspeptic Shuns Rich Food**  
because it causes him untold agony afterward. *Cottolene*, because of its freedom from hog fat, is digestible, and makes rich food that any stomach can digest. No indigestion follows in its wake.

Animal fats tend to heat the system and cause stomach and other troubles. *Cottolene* is a pure, vegetable product that nourishes and builds up. Up-to-date physicians recommend *Cottolene* in the cooking of food for invalids. Never heard of lard being recommended for that purpose did you?

Use *Cottolene* and have a perfect digestion. *Cottolene* is more economical than butter or lard—use one-third less.

## 16-YEAR-OLD HUNTER DIES OF HIS WOUNDS

AUBURN, Oct. 27.—Bennet Davies, a sixteen-year-old boy of this city, received a bullet wound in the head about 3:30 o'clock Wednesday afternoon while hunting near here, and died from the effects of the wound at the hospital yesterday without having regained consciousness.

Young Davies and his five-year-old brother started on a hunting trip about 3 o'clock yesterday afternoon. About an hour later the smaller boy returned home with the information that Bennett had been shot, but he could tell no coherent story because of his fright.

## WHITE SLAYER SENTENCED

TUCSON, Ariz., Oct. 27.—W. J. Ewing, a piano player in the restricted district here, pleaded guilty yesterday to "white slaving" and was sentenced to two and a half years' imprisonment in the federal prison at Atlanta, Ga. Ewing, owner of a resort, also pleaded guilty, but as the court announced it was averse to sending a woman to the federal prison, she was fined \$1000.

## SMUGGLING SCHEME IN ASTORIA BY OFFICIALS

ASTORIA, Or., Oct. 27.—After nine years, during which time hundreds of Chinese have been brought unlawfully to the country and obtained a status which makes it hard to deport them, R. P. Bonham, inspector in charge of the United States Immigration office at Portland, has unearthed a system whereby the Orientals have been smuggled into Portland and California. The system includes fake notary seals, forged signatures and other documents used by the conspirators to defraud the customs officials.

## BUYS SANTA BARBARA BONDS.

SANTA BARBARA, Oct. 27.—The state board of control yesterday made it possible for Santa Barbara to complete its three-mile water tunnel, which is now being bored through the Santa Ynez mountains to the Santa Ynez river. Bonds aggregating more than \$800,000 have been issued by the city and the majority of them sold for the carrying on of this work. But the last 40,000 placed on the market found no bidders.

## SPOULE TO HANDLE REINS IN THE NORTH

PORTLAND, Oct. 27.—"Administration of the Southern Pacific lines in Oregon will be from the Portland office, under my jurisdiction," said William Sproule, new president of the Southern Pacific, after his arrival yesterday with E. O. McCormick, vice-president. "I am considering who shall be put in charge."

## PAYS FREAK BASEBALL BET.

FRESNO, Oct. 27.—Faith in the Giants turned Harry Wilson of the Fresno Realty Syndicate from a real estate man into a janitor yesterday. When the result of the game in Philadelphia was announced here Wilson donned a pair of overalls and washed the windows of his company. Wilson made a wager with Harry Randall of the same firm whereby the loser was to wash the windows of the office.

## BIG DAIRY PLACED UNDER QUARANTINE

ANTIOCH, Oct. 27.—On returning to this place yesterday from a trip of inspection to the Acres dairy at Holt, near Stockton, Chief Dairy Inspector J. P. Dockery of San Francisco, and Dr. J. A. Welch, veterinarian of the same department, stated they had placed the dairy under quarantine, as they found cows suffering from tuberculosis that were being milked and their milk shipped to San Francisco.

Both officials stated the conditions were the worst they had ever witnessed, as several animals were almost ready to drop dead, but were still being milked.

## CONCORD TO HAVE A JAIL.

CONCORD, Oct. 27.—A new city jail is to be erected immediately by the town trustees and it is hoped to start work on the building at once. This is necessitated by the rapid growth of the town. All prisoners have heretofore had to be taken to Martinez.

## KNOWLAND TO BE HEARD BY YOUTHS

Under the auspices of the Junior Progress Club of Oakland, an organization made up of boys of a high school age, Congressman Joseph R. Knowland will deliver an illustrated lecture on the Panama Canal at Chabot Observatory, Eleventh and Grove streets, tomorrow night. Knowland has recently been over the territory embraced in the canal zone, and has a complete set of views covering the construction of the big canal.

This is one of a series of lectures which is being given by the Junior Progressives. The organization consists of forty boys who are keeping up interest in up-to-date movements. The club holds the first position of boys' societies in Oakland, having made marked progress during the past year.

So great is the interest that is being taken by the youths in this form of activity that the club has a waiting list larger than its membership.

Raymond Abernathy, president of the club, has announced that there are about twenty boys on the waiting list. The club has an enrollment of forty members.

The object of the organization is to instruct the lads in issues, which will better them mentally and morally.

## DEBATING TEAM IS CHOSEN FOR MATCH

SAN JOSE, Oct. 27.—Arthur Johnson and Ruth Bennett were selected by a committee of judges from the San Jose High School faculty yesterday to represent the school in the annual declamation contest of the Debating League of Northern California in San Francisco Saturday. The successful candidates were best in a competitive debate.

The Pilgrim Athletic Club started its basketball season last Saturday evening by defeating the Crescents in a hotly contested game by the score of 25-19 at the Armory on Market, near Twelfth street.

Monday evening the Pilgrims ran up the large score of 48-17 against the Berkeley Knights of King Arthur at the Pilgrim Church gymnasium.

The line up of the Pilgrims follows: Hampton Vane, Hamilton Lorimer and William Lorimer, guards; Louis Boyer and Morley Oates, centers; Alfred Baptista, Attilio Durand, Claude Colwell and Harry Jeffs, forwards.

## DON'T BE BALD

Almost Any One May Secure a Splendid Growth of Hair.

You can easily find out for yourself if your hair needs nourishment. If it is thinning, getting dry, harsh and brittle, or splitting at the ends. You simply have to pull a hair from the top of your head and closely examine its root. If the bulb is plump and rosy it is all right; if it is white and shrunken your hair is diseased and needs nourishment.

We have a remedy for hair troubles that cannot be surpassed. It has a record of growing hair and curing baldness in 35 out of 100 cases where used according to directions for a reasonable length of time. It will even grow hair on bald heads if the scalp is not glazed and shiny. That may seem like a strong statement—it is, and we mean it to be, and no one should doubt it until they have put our claims to an actual test.

We are so sure that Rexall "93" Hair Tonic will completely eradicate dandruff, prevent baldness, stimulate the scalp and hair roots, stop falling hair and grow new hair, that we personally give our positive guarantee to refund every penny paid us for Rexall "93" Hair Tonic in every instance where it does not do as we claim or fails to give entire satisfaction to the user.

Rexall "93" Hair Tonic is as pleasant to use as clear spring water. It is perfumed with a pleasant odor, and does not grease or gum the hair. We have it in two sizes, prices 50 cents and \$1. We urge you to try Rexall "93" Hair Tonic on our recommendation and with our guarantee back of it. You certainly take no risk. Remember, you can obtain Rexall Remedies only at the O. Drug Co. stores in Oakland, San Francisco, Los Angeles, Sacramento, Portland, Seattle, Spokane.

## GREAT WESTERN POWER CO. ENTERS RICHMOND FIELD

RICHMOND, Oct. 27.—The Great Western Power Company has invaded the local field in the first moves of its campaign to secure light and power contracts from business concerns hereabouts. Several solicitors have been working the Richmond field for the past few days, and the fight for business will be pushed following the conclusion of the controversy with the city of Martinez over the company's right of way through that town which for some time held up proceedings.

## MOVING PICTURES AS AID TO HEALTH

City of Richmond Using Them in Good Sanitation Campaign.

RICHMOND, Oct. 27.—A campaign for the instruction of the people of Richmond in good sanitation and the principles of health through the exhibition of moving picture films in the local moving picture theaters is being actively waged here. Such an action would be in line with the recommendations of the state health officers, now in session in Santa Barbara, in connection with the League of California Municipalities conference, and with the actions of several other cities throughout the state who have followed out such a plan. Some opposition is being experienced by the advocates of the scheme on the part of the moving picture theater proprietors, who fear a loss of business by the action, but others declare themselves willing to do all in their power to aid in the public instruction in that fashion.

## WEDDING SECRET KEPT FOR MONTH

Niles Couple Reveal Marriage and Will Leave On Tour of Country.

NILES, Oct. 27.—A secret wedding, celebrated a month ago, was revealed here yesterday afternoon when Miss Bessie Bailey, daughter of the station master at Pinole, announced her intention of going to Fresno with her husband, Ray Gennelly, a wealthy business man of San Francisco.

Mrs. Gennelly is well known in this section and resided for many years in Centerville, having graduated from the high school of that city with the class of 1911. The couple will leave on an extended tour of the country very shortly.

## INSPECTS O. &amp; A. AT WALNUT CREEK

Traffic Manager R. H. Fish Takes Party Over the Route of Road.

WALNUT CREEK, Oct. 27.—R. H. Fish, traffic manager of the Oakland & Antioch railroad yesterday took a party of Walnut Creek people, including Fred S. Brooks and George T. Crompton, vice-president and secretary, respectively, of the Walnut Creek Business Men's Association, on a tour of inspection over the line of the Oakland & Antioch, near here. The inspection disclosed the fact that the poles and wires are up as far as Lafayette and in a few days cars will be running to that place. The eastern portal of the foothills tunnels completed and the real bore will be begun next week. Four camps are established between Walnut Creek and the tunnel and the grading is being rushed. The road is at present operating both freight and passenger cars between Walnut Creek and Bay Point.

The work of grading for the line through the Moraga Valley, between Lafayette and the Contra Costa county end of the tunnel, was begun yesterday. This is a distance of nine miles and the grading will be finished within a month. A large steam shovel is to be employed in the grading work next week to cut down the hill on the right of way near Lafayette. With the completion of the line to Lafayette trainloads of rails and ties will be rushed to that town in order that all possible speed may be made in the laying of the rails to the tunnel, which will bring the line to within seven miles of the Oakland terminus.

Work is progressing fast on the tunnel, the contractors yesterday beginning timbering at the Contra Costa county end. The work is further along than on the Oakland side of the hills. The line will be completed and ready for operation long before the tunnel is completed. Both ends of the line will be completed as quickly as possible in order that work trains may be run to the tunnel and aid in the work.

In Oakland the line is practically complete from the terminus at Fortlie street and Shafter avenue to the intersection of Shafter avenue and Broadway. Work was started this week in grading the roadbed from the Oakland side of the tunnel toward Broadway.

## PLANNING FOR A RELIGIOUS FEAST

Ceremonies Begin in St. Leander's Church Next Sunday Morning.

SAN LEANDRO, Oct. 27.—Arrangements are being made here for the 40-hour adoration feast in the St. Leander Roman Catholic parish to start next Sunday morning, ending Tuesday. The ceremonies will commence with a mass at 10:30 in St. Leander's church, to be celebrated by Rev. Father Garvey, assisted by Rev. Father M. Abrantes. The choir will then render several sacred songs to be followed by the benediction and the blessed sacrament. The morning's activities will close with a procession of children dressed in white.

A feature of the evening's ceremonies will be the delivery of a sermon in English, to be followed Tuesday morning with one in Portuguese. The choir which will take part in the feast consists of the following: Miss Neil Hannan, soprano; Mrs. C. Grant, contralto; Mrs. L. Gonzales, alto; Mayur J. J. Gill, bass. T. Grant will be the organist.

## Perpetual Pioneer

The No. 10 and No. 11 Visible Remington Models are the latest expressions of Remington leadership. They represent the sum total of all typewriter achievement—past and present.

They contain every merit that the Remington has always had and every merit that any writing machine has ever had.

They contain, in addition, new and fundamental improvements that no typewriter has ever had; among them the *First Column Selector*, the *First Built-in Tabulator* and the *First Key-Set Tabulator*. The Model 11 with Wahl Mechanism is also the *First Adding and Subtracting Typewriter*. These improvements are the latest contributions to typewriter progress, and they are Remington contributions—every one.

The Remington, the original pioneer in the typewriter field, is the present day pioneer in all new developments of the writing machine.

## URGES TEACHING OF AGRICULTURE

Says It Should Be Taught in  
the Elementary  
Schools.

CHICO, Oct. 27. — The teaching of agriculture in elementary schools was urged by Riley O. Johnson of the Chico normal school at the session of the elementary section of the convention of the Northern California Teachers' association here today.

Mr. Johnson was followed by Professor C. A. Stebbins of the University of California, who spoke on the aim of the agriculture division of the university and its relation to agriculture to the public schools.

E. W. Hauck spoke in the interest of moral education in the elementary schools, and Miss Lida Lennon of the Chico normal school on "Music Appreciation."

The high school section was addressed by Principal Williams of the Sacramento high school on extra classroom activities. "The Tobacco Evil Among High School Boys," was the subject of Principal Hauck of the Sutter high school and Dr. Engle of Placer.

## WILL HOLD SERIES OF NOON-DAY LUNCHEONS

In an effort to bring the manufacturers and producers of Alameda county into closer business relations with one another, the committee of the Chamber of Commerce which passes under the name of the manufacturers and producers, plans to arrange a series of noon-day luncheons, a banquet and other social events for the near future. In addition it will hold its regular bi-monthly meetings on the second Wednesday and fourth Thursday of each month, when all representatives of industrial enterprises in the county will be urged to attend.

## MISTAKES OF THE

### Dental Profession

There are to be found in every large city dentists who work great harm to their profession; who advertise cheap prices in order to delude the unwary and the poor and induce them to come into their offices, and after they come get them by hook or crook.

It is not with a feeling against their prices that I would stoop to attack them, but it is because they do not do as they promise that I lower myself to speak of them, and it is for the protection of the public that I expose this nefarious practice.

### Dentistry, As I Practice It

is a serious profession, involving education, carefulness and skill. Therefore I cannot compete in price with the ignorant, the careless or the unskillful. But comparison will show that I charge much less than most reputable private practitioners.

I can't send my skill to you. You must come to me.

## DAY'S DOINGS ON OAKLAND'S DOCKS

Many Coastwise Vessels Are  
Discharging and Taking  
On Cargoes.

The steam schooner Yellowstone went on dry dock at the United Engineering Works yesterday afternoon. When about 23 miles north of Point Reyes the propeller shaft broke which rendered the steamer helpless. She was towed into port yesterday and will probably be taking her regular run sometime this week.

The steam schooner North Fork, Captain Nelson, is at the Sunset Lumber company's wharf discharging 110,000 feet of lumber and 500,000 shingles. The shipment comes from Eureka. The North Fork leaves for the return trip to Eureka Saturday.

After discharging a small quantity of lumber at the Sunset Lumber company's wharf the steam schooner Whitesboro left the Oakland creek this morning.

The steam schooner Mayfair after leaving 90,000 feet of lumber at the E. K. Wood Lumber company's wharf steamed over to the foot of Fourteenth avenue where she is disposing of the remainder of her cargo.

The steam schooner Acme, Captain Olsen after discharging 200,000 feet of lumber at the Sunset Lumber company's wharf, left the Oakland creek this morning. The shipment comes from Eureka.

The steam schooner Phoenix, Captain Kerkitz, arrived this morning from Eureka and laid alongside the E. K. Wood Lumber company's wharf, where she is leaving 80,000 feet of lumber.

After leaving 500,000 shingles at the E. K. Wood Lumber company's wharf the steam schooner Acme left for San Francisco.

The steam schooner Grays Harbor, Captain Johnson, from Grays Harbor, after discharging 800,000 shingles from the E. K. Wood Lumber company wharf, left the creek.

The Alaska Packers association's ship Star of Alaska, is on dry dock at the United Engineering Works undergoing a general overhauling.

The steamer Captain, Captain Canty, from Astoria, is also on the ways at the United Engineering Works. Her engines are being overhauled.

The scow schooner Ellen is at the Western Fuel company's wharf discharging a cargo of sand.

After disposing of a cargo of freight and a number of passengers, the river steamer Constant left for Stockton.

The scow schooner War Eagle left in tow of the Oakland Launch & Tugboat company's launch, one for Vallejo this morning with a full cargo of coal. The coal is being shipped by the J. J. Moore company and was sent from Adams wharf.

The steamer Buckman, Captain Wilson, is at Long wharf discharging three carloads of cement, four of canned goods and one carload of soda ash. The shipment comes from Seattle. The Buckman will leave for Tacoma and Seattle, Saturday.

The scow schooner Edith is at the Western Fuel company's wharf discharging a cargo of sand.

The steam schooner Aberdeen, Captain Maloney, which since the destruction of the river steamer has been used as the garbage boat for the refuse of Oakland, ran up and stuck in the mud of the southwestern end of the Western Fuel company's coal bunker this morning at 9:30. As it was low tide it was thought that as soon as the tide, which was beginning to come in, would raise the vessel out of the mud so that with a little work on the part of the ship's crew it would be able to get out. Two hours and a half the engines pumped while the captain swore. It was no use. The time it looked as if the vessel would slide off the mud into deep water and the ashmen's hopes for a holiday, as a tug which was sent out to assist the steamer, was dashed.

Captain Maloney was in no way to blame for the accident, owing to the fact that the dredge which is present in the stream is in such a position that all vessels coming in or going out must pass through a portion of the stream where, to make a false turn, means, a couple of hours in the mud.

## A Short Story About Your Future Home in Piedmont

Written by a Specialist in Piedmont  
Properties

Supposing you owned a home in Piedmont.

From the depths of your reclining wicker chair on the rambling veranda of your home a panorama of wondrous beauty would spread before your roving eyes.

If of a morning, the slanting rays of old Sol, peeping over Piedmont Hills to the eastward, would disclose a ragged skyline of tree-capped hills, with beautiful residences spotted snugly here and there and on every side—seemingly striving to surpass each other in architectural beauty—and your home, the very pivot of this charming spot.

If of an evening and your eye chances to wander over Oakland, lying below, a skeleton steel framework of new business blocks—the broad lines of the Bankers' Hotel—the glimmering waters of Lake Merritt—and beyond where land and water meet, a forest of ship masts would meet your vision. Seemingly, to give a perfect background to this picture of real life, old Sol, sinking beneath the Western horizon at the Golden Gate, floods the Western sky in a burst of golden glory—a perfect California sunset, and making a glittering golden pathway in the waters of San Francisco Bay.

Then you sigh in satisfaction, draw yourself down deeper into your old wicker chair, and say:

"This is life—I wouldn't trade this home for Buckingham Palace!"

Now, such a place would appeal to you—would it not?

Let me be the one to assist you to become satisfied.

I know of many fine lots in Piedmont, real view lots that are owned by this company and offered at a price well under quotations on adjoining property—a short ride in one of our automobiles will show them to you.

## POLITICAL JOBS NOT FOR THE POOR

Professor Thomas H. Reed  
Tells College Students to  
Beware.

UNIVERSITY OF CALIFORNIA, Oct. 27.—Thomas H. Reed, associate professor of political economy, told the students at the university meeting at noon today that as a general tendency running for office is not a good thing for young men and he advised them to keep out of politics unless they possessed abundant leisure and money. He referred to Congressman-elect Kent as an example of an ideal office seeker.

"If you have much money and can devote your time unselfishly to politics it is one of the best fields for a young man to enter. Politics is a great game," Reed contended.

Reed contended the appointment of glad-hand politicians an evil with which the state's administration has to contend and recommended civil service for minor offices of the state. He said he took a position as secretary to Governor Johnson for several months that he might study politics from the inside.

Dr. A. M. Smith, pastor of the Unitarian church, was another pastor.

## OAKLAND WOMAN WEDS BUILDER

Mrs. Ella N. Pierce Becomes  
Wife of Dr. Breyfogle, Former  
Railroad President.

Friends of Ella Naomi Pierce, who was the wife of the late C. D. Pierce of this city, and one of the most prominent citizens of this section, were greatly surprised to receive a notice that she had been married on the 14th of this month to Dr. William Lamartine Breyfogle of Lake George, N. Y. As Mrs. Pierce, Mrs. Breyfogle made a tour of Europe shortly after her husband, C. D. Pierce, was killed in a runaway.

Breyfogle is a prominent railroad builder and at one time was president of an eastern road. Mrs. Breyfogle is a sister-in-law of the late W. Frank Pierce of Oakland, and she is well known about the bay.

### PORTLAND DEFEATS OAKS IN OPENING GAME YESTERDAY

#### Speck Harkness Outpitches Jumbo Ables in the Pinches and the Pride of Oakland Meets With Defeat

Portland grabbed the first game of the series between the Oaks and Beavers at Freeman Park yesterday afternoon after a struggle that gave proof emphatic that the two teams were out for blood.

Two of the best, if not the best, pitchers in the business took a swing at the opposing batters, and the crown of victory went to the fellow that wore the blue.

Harry Ables it was who heaved for the Oaks and a weakening in the sixth inning is what beat him. Speck Harkness did the work for the Beavers and all the time was in little or no trouble and outside of Izzy Hoffman, made the Oaks eat out of his hands.

It was a mighty good crowd that turned out to see the afternoon's entertainment considering that it looked like rain up to a few moments before the game.

**OAKS FIRST TO SCORE.**  
Oakland was the first to get on the scoreboard. After the Beavers had been retired in short order, Hoffman stepped to the plate and drove the ball far enough into centerfield to land him safely at third base. On a long fly of Coy's, Chadbourne, the Oak's clever outfielder, romped to the plate.

In the sixth inning Oakland made their second and last run, and it was Hoffman again that romped. Leading off with a single he went to second when Coy was passed. Tiedemann poked the ball into a double play that retired himself and Coy, but Izzy got third. Zachary's line to center field was a wild throw. That was the end of run getting for the Oaks.

**BEAVERS ROMP TO THE FRONT.**  
McCredie's men tied the score in the second inning and boots were responsible for the tally. With Buddy Ryan out of the way, Kid Wagon made it possible for Krueger to get on by fumbling an easy grounder. Sheehan walked and Beckinpugh batted. Kuhn tapped a single over which would have been a walk for Cutshaw, but Ables interfered and booted the ball to right, which allowed Krueger to score. Krueger then drove a home run into the sixth inning and then the Beavers put the game on ice for keeps.

Krueger started the trouble in that frame by doubling to left after Ryan had retired. Sheehan again walked, and this time Beckinpugh bounced a single over Wolvortson's head. Krueger scoring easily. Kuhn fanned out on a wild pitch and both runners were out. The inning ended with the Beavers put the game on ice for keeps.

Four runs and eight hits off Ables in 7 innings. Three base hit—Hoffman. Two base hit—Krueger. Sacrifice hit—Rodgers. Sacrifice fly—Coy. First base on error—Beckinpugh. Executed 2 off Ables. Struck out—By Harkness 10, by Ables 5, by Christian 1. Double play—Beckinpugh to Rodgers. Triple play—Hoffman to Ables. Time of game—1h 35m. Umpire—McGregory.

### INJURIES TO COOMBS PROVE SERIOUS TO BIG PITCHER

PHILADELPHIA, Oct. 27.—Jack Coombs, the brilliant Athletic pitcher, is in bed at his home here with serious internal injuries received in the sixth inning of Wednesday's game at New York, when he was struck by a line drive. Today his condition is much worse and his physician called in two other doctors. The situation is serious and it is said that no operation will be necessary. Coombs, however, will be in bed for a long time. The doctors say that the injury to his arm is serious and that it will take a long time to get him back to his normal condition. Coombs said that in the sixth inning he caught the ball in the hole in the pitcher's box and when he delivered the ball he felt a terrific jar. "The pain was intense, especially on the right side, but he kept on pitching. In the ninth inning he was hit on the head by a line drive and he had to quit."

### CONNIE MACK PROVES HIMSELF A SPORTSMAN

PHILADELPHIA, Oct. 27.—Concerning the statement of Jimmie Klen, Captain Doyle of New York did not touch the plate when he came home with the winning run in the tenth inning yesterday. Manager Mack said: "I will make no protest. The Giants win the game and I am entitled to the victory. Doyle was safe at the plate by the score and the question of whether he slid or not is a matter of minor importance. I have and never will bluster over decisions of umpires. The game will stand as a victory for New York."

**WAUGH WINS AT BILLIARDS.**  
SAN FRANCISCO, Oct. 27.—The score of the three-cushion handicap game at the Grane last night was: Waugh, 25, Hewitt, 9. The feature was the steady play and Hewitt's bad luck. High runs—Waugh 2, Hewitt 2. Tonight Lockhart (24) plays Covey (23).

**YACHTSMEN TO HOLD SMOKER.**  
ALAMEDA, Oct. 27.—The Yacht Club will close its sailing season and open its social season with a smoker and vaudeville performance at the clubhouse at the south end of Grand street Saturday evening. Harry Shed is arranging the program.

**CENTURYS TO PLAY OLAPHAS.**  
At the Presidio grounds on Sunday the Century Athletic club's football team will meet the Olaphs of San Francisco in a game under American intercollegiate rules. The game is scheduled to start at 2:30 o'clock.

**STOCKTON VS. PALO ALTO HIGH.**  
STOCKTON, Oct. 27.—The Stockton high school Rugby team will play Palo Alto high on the local campus Saturday afternoon.

**AMATEUR DRIVERS TO SHOW SKILL SUNDAY.**  
SAN FRANCISCO, Oct. 27.—The Park Amateur Driving club will put on a fast ture trotting race under the saddle at its matinee at the Stadium tomorrow. The race is the only one of the kind promoted by the club, and should furnish some interesting sport. Four races are carded, the first to start at 1:30 p. m.

**RENO TO PLAY ALAMEDA HIGH.**  
ALAMEDA, Oct. 27.—The Reno football team of the Reno high school will meet the team of the Alameda high school at Recreation park in this city November 4.

**STOCKTON VS. PALO ALTO HIGH.**

### PLAYED BASEBALL ON FLOOR OF BIG OIL TANK

**BAKERSFIELD, Oct. 27.**—Playing baseball on the floor of a 500,000 barrel oil reservoir tank of the Standard Oil company is the latest in athletics on the coast, but it is not an altogether new sight for the Kern river oil fields. There the fans gathered Sunday to witness a game between the Standard or "reservoir" boys and the Kern river office men. The reservoir players won, 24 to 7, and are now looking for opponents. The huge walls of the reservoir furnished a grandstand for the spectators.

### Y. M. C. A. WILL HOLD INDOOR TRACK MEET

The first annual indoor meet of the federation of the various bay city Y. M. C. A. branches held tonight at the gymnasium of the Oakland branch at 8 o'clock. Ten events will be contested. Oakland, Berkeley and San Francisco have entered men.

The federation will hold a series of events, the next in importance being the doubles handball championships at the San Francisco courts November 17. ### WILL STAGE FOUR GOES FOR DELIGHT OF FIGHT FANS

#### Kid George and Fritz Holland and Eddie Campi With Jim Fox to Supply Fodder.

This evening at Dreamland rink in San Francisco, the Broadway Athletic club, under the management of Jim Griffin, assisted by Gregory Mitchell, will put on four bouts that are each scheduled to last ten rounds.

Fritz Holland and Kid George, both of whom have been seen considerably in the four round game, have been matched for the main event of the night. Both of the middleweights are aggressive chaps and can be depended upon to keep going from start to finish.

Eddie Campi and Jimmy Fox will appear in the semi-windup. They are old opponents and have had so many settes at four rounds that there will be a world of interest as to which of the pair can show to the best advantage in ten rounds.

Rufe Turner, who still has his cleverness, if not his speed, will be matched for the main event of the night. Both of the middleweights are aggressive chaps and can be depended upon to keep going from start to finish.

The curtain raiser will be furnished by Roy Moore vs. Lee Johnson and will be staged promptly at 8:30 o'clock. Harry Foley will referee all the matches and it is stated that particularly care will be exercised in handling the reserved seats of the gallery doors will open at 7 o'clock sharp and the main entrance half an hour later. The reserved seats will be \$2 and \$3 and the gallery \$1.

### CRANKS AT VALLEJO PAY HOMAGE TO PING BODIE

VALLEJO, Oct. 27.—"Ping" Bodie, champion of the world, was the center of "hero worship" in Vallejo yesterday. He arrived at noon at Benita at noon yesterday and was met by a delegation of Vallejo admirers in automobiles, who escorted him to the city.

Later in the day the guest of honor at a banquet given by Charles Gorman and other Vallejo fans. The doctory Ping is carrying 135 pounds of weight as modestly as the days when he played ball on the back lots of this city. He expects to visit San Francisco Saturday.

### POLYTECHNIC WINS FROM OAKLAND HIGH

### FRESHMEN ARE WINNERS AT BERKELEY TRACK WORKOUT

Freshman athletes at the state university won the annual interclass athletic meet yesterday at Berkeley. The events yesterday comprised the second section of the affair, the first division having been held last Thursday. The freshmen secured honors in 23 of the 30 events. The sophomores third with 31 and the juniors fourth with 13. The victory of the freshmen was due largely to the fact that they were given liberal handicaps.

The events run off yesterday, with the winners as follows:  
Two-mile run—Won by Clarke, freshman. Zelle, sophomore, second; and Wright, junior, third. Time, 10:21.  
Broad jump—Won by Reed, sophomore. Bradway, sophomore, second; Bean, freshman, third. Distance, 21 feet.  
Shotput—Won by Clark, freshman. Claudius, senior, second; Ellis, freshman, third. Time, 0:23 1-5.  
Soccer—Won by Stanford. Macise, sophomore, second; Heven, junior, second; Knapp, freshman, third. Time, 27:1-5.  
880-yard run—Won by Vedder, freshman. Cole, senior, second; Crabbe, sophomore, third. Time, 2:04.  
Hammer throw—Won by Cooldge, freshman. Thomas, freshman, second; Taylor, members of winning team. Time, 3:11 1-2.  
Relay race—Won by juniors. Time, 3:11 1-2. Members of winning team, Taylor, Shields, Foulke and Homer.

### ENTRIES ARE CLOSED FOR CHAMPIONSHIP GOLF TOURNEY

SAN FRANCISCO, Oct. 27.—Entries closed yesterday for the annual coast championship golf tournament, the qualifying round which will be played tomorrow on the links of the San Francisco Golf and Country Club at Ingleside. **606**

Is no longer an experiment. It is a positive, and permanent cure for BLOOD POISON (Syphilis). I am the only doctor in the city who does not work from my office but 20 minutes and then go about your work without any pain or bad results. I administer "606" to women and children.

**DR. LEE**

1088 Broadway, Oakland, Cal.

**My Fee --- \$35**

This is positively the lowest fee in the city. In all my professional work I keep high fees down. Each "606" tube costs \$1.00, the original foreign cost is broken and the remedy is prepared in the patient's presence, and as a guarantee he has received the genuine he may take the empty tube away with him. I extend an invitation to anyone interested to call and see "606" administered the proper way.

Low fees, easy payments and CERTAIN cures for all PRIVATE diseases have made me the most progressive and reliable specialist for men.

I FURNISH ALL REMEDIES AND APPLIANCES FREE TO EVERY PATIENT.

NO EXTRA CHARGES.

If you are interested, call or write for complete up-to-date information about "606". If you have any form of Weakness or Private Disease, call for friendly consultation.

## MAXWELL TEAM WINNER OF THE GLIDDEN TROPHY

### Historic Contest Ends at Jacksonville With Tarrytown Entrants Still Running Perfect

JACKSONVILLE, Fla., Oct. 27.—The Tarrytown team of three Maxwell specials has secured possession of the 1911 Glidden trophy, and four cars were tied for the Anderson trophy at the end of the New York-to-Jacksonville run here yesterday afternoon. The Tarrytown team went through the entire run without a single penalization. One other Maxwell also went through with a perfect score, so this makes of car carried off the lion's share of honors in the most strenuous Glidden tour ever held as far as road conditions were concerned.

In the drawing for the Anderson trophy, which was decided by lot, Arthur See, driver of Governor Hoke Smith's Maxwell, drew the lucky number, so the Maxwell not only wins in its class, but also captured the Glidden trophy and the sweepstakes.

The Atlanta team No. 2, consisting of three Stevens-Duryea cars, finished second with only 19 points against it. The Jacksonville team finished third with a penalization of 22 points against the Cadillac. The Ford trio, sporting colors of the Atlanta team No. 3, was next in order with only 120 points against it, and the Live Oak team of Cadillacs is in fifth position with a penalty of 278 points.

The other teams were more severely penalized for failure to arrive at controls on time, which was the only plan of giving demerits to the cars.

**CASH PRIZE WINNERS.**  
In this year's tour a cash prize of \$200 is offered for each of the divisional winners in the seven different classes. In case of tie, the money is divided. The winners are as follows:

Class 1—No. 54, Flanders; No. 44, Ford; No. 45, Ford.

Class 2—No. 26, Mitchell.

Class 3—No. 1, Maxwell; No. 2, Maxwell; No. 3, Maxwell; No. 4, Maxwell.

Class 4—No. 40, Cadillac; No. 48, Cadillac; No. 32, Cadillac.

Class 5—No. 10, Mitchell.

Class 6—No. 11, Stevens-Duryea; No. 33, Stevens-Duryea; No. 49, Columbia.

Class 7—No. 5, American.

In the open competition for the Anderson trophy are the cars that came through with perfect scores, or the four Maxwells, three Cadillacs, two Stevens-Duryea, two Fords and one each of the following: Columbia, Flanders, Mitchell.

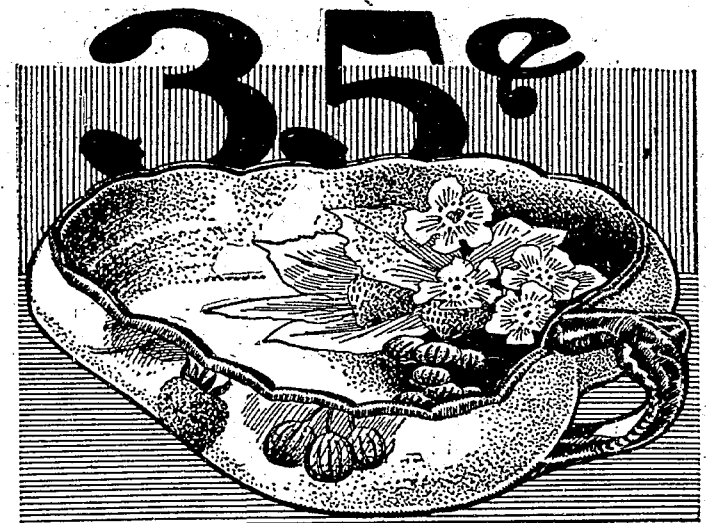

In today's rough trip of eighty-seven miles from Live Oak the clean score of an American and one of the clean score Mitchell cars were mixed en route, each suffering penalization. Seven points were charged up against the American and fourteen points against the Mitchell.

**AIR OF SADNESS REIGNS.**  
Last night the survivors of the Glidden tour are glad that the tour is over, but the rejoicing that usually accompanies the end of a Glidden tour was missing last night on account of the accident Wednesday, in which S. M. Butler lost his life. This cast a shadow of gloom over the finish of the tour and many of the functions planned for the entertainment of the visitors here have been abandoned.

One of the clean score cars was driven by a woman, Miss Marks of Athens, Ga., who displayed great skill in driving last night on the Columbia machine to Jacksonville without penalization.

Mr. and Mrs. P. J. Walker of San Francisco, who were severely injured yesterday, met the tourists here tonight, having decided to recuperate in Jacksonville instead of Atlanta.

## GIVES VIEWS ON NEGRO QUESTION

Bishop Guerry of South Carolina Advocates His Evangelization.

NEWARK, N. J., Oct. 27.—The evangelization of the negro is no longer a Southern question, but one of national scope, declared Bishop Guerry of South Carolina at last night's session of the Missionary Council of the Episcopal church.

"There are today more negroes in New York than there are in New Orleans," declared the bishop, "and as many in Philadelphia as in any southern city outside of New Orleans. You lynch negroes up here the same as we do in the South. It is national crime. We need you, and you need us, and we must work together in doing our duty to these people. It is the greatest blot on the American church today that we have trifled with the great missionary question at our doors."

Bishop Guerry saw a menace in the intellectual training of the negro without moral education, and said that education without Christian standards meant placing in the hands of the negro a dangerous weapon.

**MINERAL WATER FATAL.**  
SACRAMENTO, Oct. 27.—The initial attempt to propagate salmon in Sacramento and turn them into the river here to have them the 200 mile trip from the Sisson hatchery has proved a failure. The 50,000 salmon fry that were being reared at a small hatchery below town by the State fish and game commission died because of too much mineral in the water.

## MILKMAN VICTIM IN AUTO ACCIDENT

Badly Hurt When Speeding Machine Crashes Into His Wagon.

SAN FRANCISCO, Oct. 27.—In a collision between a wagon of the Fairfield Dairy and an automobile at McAllister and Divisadero streets shortly after 1 o'clock this morning Jeremiah Sweeney of 350 Day street was seriously injured. Sweeney was delivering milk in the neighborhood and was making the turn at the McAllister street crossing when a large machine driven by Frank Ward crashed into him, smashing his wagon and hurling him with great force to the pavement. He lay in a dazed condition, and, according to Corporal of Police Nye, Ward started to leave the scene, but was overtaken and arrested.

Sweeney was removed to the Central emergency hospital, where he was treated for a lacerated scalp and possible internal injuries. His condition is considered serious and the police charge Ward with battery and violating section 649 of the penal code.

**VACCINATION NOT NEEDED.**  
FRESNO, Oct. 27.—At a joint meeting of the city board of health and the city board of education last night it was decided to refuse the request of Dr. Snow, secretary of the State board of health, that all children remaining vaccinated because their parents have scruples against it, be excluded from the public schools. It was shown that there was but one case of smallpox in the city, and drastic measures were not considered necessary.

**ROOSEVELT IS SILENT.**  
OYSTER BAY, N. Y., Oct. 27.—Ex-President Roosevelt was informed last night of the suit for the dissolution of the United States steel corporation. Colonel Roosevelt declined to comment upon it.

## The Prudent Man Buys Early

not only because he knows that all the extensive preparations made at the beginning of each season are still intact and accordingly his range of selection is greatest, but also because he knows that his selections will, in a measure, dictate the selections of others, and in consequence he leads in style supremacy.

To these two good and sufficient reasons we add a third and equally important one. Tomorrow, Saturday, for one day only we will clinch our often reiterated statements regarding the absolute supremacy of
